## COINSURANCE FOR STATE HOUSING FINANCE AGENCIES

Proposed Eligibility Requirements, Contract  
Rights and Obligations

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner, Department of Housing and Urban Development.

ACTION: Proposed rule.

SUMMARY: The Assistant Secretary for Housing—Federal Housing Commissioner (the Commissioner) proposes to revise Part 250, which sets forth the eligibility requirements and contract rights and obligations with respect to the multifamily coinsurance program, so as to correct certain errors included in previously published regulations, simplify program operations, and increase the potential for coinsurance usage.

DATE: Comments due January 29, 1979.

ADDRESS: Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410, 202-755-7603.

Thomas W. White, Acting Director, Office of State Agency and Bond Financed Housing, (202) 755-5945

SUPPLEMENTARY INFORMATION: On September 29, 1976 at 41 FR 43068, the Department published a final rule which added to 24 CFR a new part, Part 250, which established a multifamily coinsurance program for state housing finance agencies, under the authority of Section 244 of the National Housing Act (12 USC 1715 29). This was added by Section 307 of the Housing and Community Development Act of 1974 (PL 93-383). In summary, Section 244 authorizes the Secretary to insure, under any provision of Title II of the National Housing Act, any mortgage otherwise eligible for insurance under such provisions, pursuant to a coinsurance contract providing that the agency will (1) assume a portion of any loss on the transaction, and (2) carry out, subject to audit, exception or review requirements, such credit approval, appraisal, inspection, commitment, property disposition, or

other function as the Secretary approves.

During the period from publication of the above cited final rule to the present, no mortgage insurance has actually been written under this program, although several of the state agencies have expressed an interest in seeking approval to process cases under coinsurance. Under the circumstances, the Department proposes to revise the program as set forth below. The proposed revision addresses three major objectives: (1) modifying the program to increase its usefulness to state housing finance agencies; (2) simplifying the provisions and deleting unessential materials; and (3) correcting inadvertent errors. The major differences between the present program and the proposed program are also described below, with the citations in each case referring to the proposed regulations unless otherwise indicated. The revised regulations are presented in their entirety.

The key changes the Department is proposing from the present regulations are the following: (1) Elimination of the deductible and portfolio insurance concept; (2) substitution of a sliding scale of coinsurance risk sharing ratio and premium for the single fixed low-sharing relationship; (3) requirement for a demonstrable capacity by the agency to meet its share of the risk; (4) limitation of the coinsurance provisions to new construction and substantial rehabilitation projects insured pursuant to Sections 221 (d)(3) and (d)(4); (5) deletion of the requirement that at least 20 percent of the units under the coinsurance program be assisted under the Section 8 Housing Assistance Payments Program, however, most agencies are required to finance housing for low and moderate income families and the majority of the units will be Section 8 and this deletion is being proposed to increase the flexibility available to the agency; and (6) a requirement for a performance review whereby not fewer than the first five loans submitted by each agency will be carefully reviewed by the Department before a commitment is issued.

(1) Approved agency—Section 250.3. The proposed provision gives the Department flexibility in determining the administrative level that will be involved in case processing. This flexibility departs from the present provision which places all coinsurance case processing at the central office.

(2) Eligible projects—Section 250.10. This section that requires a specified portion of occupants of a project be low income has been deleted. This deletion reflects the facts that Sections 221(d)(3) and 221(d)(4) do not have any income restrictions. We expect that the principal beneficiaries of this

coinsurance program will be low and moderate income families.

(3) Certification as an approved agency—Section 250.202. The requirement that an agency be approved as a HUD mortgagee prior to being certified by HUD as eligible to underwrite coinsured mortgages has been added. Also, Section 250.202(b) establishes a new requirement that the agency demonstrate that it will have access to resources to meet its share of liabilities or losses under the coinsurance program.

(4) Withdrawal of approval—Section 250.204. Since the agency, pursuant to item 3, is to be an approved mortgagee, the standard causes for withdrawal of mortgagee approval have been added to this section. Further, Section 250.204(d) provides that certification as an approved agency may be withdrawn if an agency transfers a coinsured mortgage to any party without the advance approval of the Commissioner.

(5) Application fees, inspection fees, and service charges—Section 250.302. A restriction has been inserted limiting the total amount chargeable to the mortgagor to the maximum amount chargeable under the related full insurance program, i.e., Section 221(d)(3) or 221(d)(4).

(6) Processing and commitment—Section 250.305(b). This additional provision emphasizes that, although all applications for insurance commitments must be submitted to the Commissioner for commitment issuance, not fewer than the first 5 commitments for endorsement submitted by each agency will be carefully reviewed by the Commissioner before a commitment is issued.

(7) Covenant for hazard insurance—Section 250.314. The proposed provision requires somewhat more comprehensive coverage than does the existing provision.

(8) Supervision applicable to all mortgagors—Section 250.323(e)(5). This provision has been added to require that each agency submit a quarterly report to the Commissioner on any troubled projects and pertinent remedial actions.

(9) Commercial and community facilities—Section 250.332(a). The previous 10 percent of net rentable area limitation has been deleted, and the pertinent provisions applicable to the Section 221 (d)(3) and (d)(4) full insurance programs have been substituted in its place.

(10) Maximum mortgage amounts—Section 250.402. All of the pertinent provisions have been revised, thereby allowing maximum mortgage amounts under coinsurance which are identical to those prevailing under the Section 221 (d)(3) and (d)(4) full insurance programs. Under existing coinsurance

regulations for either new construction or rehabilitation, all sponsors are limited to loans equaling 90 percent of replacement cost or value, notwithstanding the fact that nonprofit or cooperative sponsors under the (d)(3) full insurance program are eligible for 100 percent loans, although all other (d)(3) sponsors and all (d)(4) sponsors are limited to 90 percent loans under both coinsurance and full insurance. The Department believes that nonprofit and cooperative sponsors should receive the same treatment under coinsurance as under full insurance, and accordingly proposes to allow them to receive 100 percent loans under coinsurance pursuant to Section 221(d)(3). It is believed that, in the event reductions in Departmental risk exposure are determined to be necessary, such reductions should be addressed by those provisions dealing with the proportion of loss payable by the Department as insurance benefits, and by the provisions establishing the premiums to be collected by HUD to compensate for coinsurance loss, rather than by reducing loan-to-value ratios below those allowed under the full insurance programs. Conforming amendments have also been made to Sections 250.333(a)(3), 250.342, 250.343 (b) and (c), and 250.403(c) (1)(ii) and (2)(ii) of the regulations under this part.

(11) Mortgages insured pursuant to Section 223(f)—Sections 250.410 through 250.417. These provisions of the existing regulations have been omitted from the proposed version of the program. The primary objective of the coinsurance program is to facilitate construction and rehabilitation of multifamily projects by the agencies, and this objective can be realized by using coinsurance pursuant to the provisions of the two pertinent full insurance programs, Section 221 (d)(3) and (d)(4). Deleting the Section 223(f) existing properties option results in a considerable simplification and shortening of the regulations. In any event, the Section 223(f) full insurance program will continue to be made available to agencies which seek insurance on mortgages covering the acquisition or refinancing of existing properties.

(12) Requirements applicable to mortgages insured under Section 236—Subpart E. This deletion of currently existing Sections 250.501 through 250.516 reflects the current lack of availability of contract authority under Section 236.

(13) Creation of contract of coinsurance—Section 250.703. The revised provisions have undergone substantial simplification. The proposed program establishes a separate contract for each coinsured mortgage on an individual basis, thereby incorporating the

processing structure applicable to the full insurance programs.

(14) Interest reduction payments contract—Section 250.704. This section deletes the existing regulations since they apply to the Section 236 program.

(15) Amount of MIP to be collected from the mortgagor—Section 250.705. This section, which originally required an initial and annual premium payment of 0.4 percent of the outstanding principal balance, has been substantially revised. The 0.4 percent factor was based on an 80 percent—20 percent sharing of the residual loss on a defaulted mortgage by HUD and the lender, respectively, after the lender had absorbed a certain portion of the total loss as an initial deductible. Under the proposed program there are neither portfolios nor deductibles; each mortgage is treated as a discrete entity. Also, a single fixed loss-sharing relationship is not required, but rather, a range of coinsurance participation levels is made available, accompanied by a corresponding sliding scale of premium rates. The premium charged by HUD is, to the maximum practical extent, directly proportional to the share of the risk borne by the Department. Therefore, under the revised structure, the mortgagor would be free to choose its own extent of exposure, provided the statutory minimum of 10 percent were met. The annual premium payment to HUD would range from 0.5 percent to 0.25 percent of the principal balance depending upon the degree of coinsurance.

(16) Pro rata payment of annual MIP—Section 250.712. The proposed program excludes this provision, thereby further simplifying the program structure and reducing administrative costs. The individual premium amount, payable in advance each year, is intended to cover any subsequent period, not to exceed one year, during which the mortgage is insured by the Commissioner.

(17) Application for insurance benefits—Section 733. These provisions are excluded from the proposed program, since the latter, now significantly simplified, does not utilize complex portfolio mechanisms or cumbersome deductible calculations. Those portions of this section which are still applicable have been included elsewhere in the proposed regulations establishing the insurance claim and benefit procedure.

(18) Amount of payment—Section 250.738. This section has been completely rewritten to stipulate that, upon acquiring title to a property through foreclosure of a defaulted mortgage, or through other means, the agency may file a claim for initial payment of insurance benefits. The

total benefits amount would be reduced by any amount still outstanding of principal or interest owed to HUD by the agency as a result of any advance made by HUD to the agency in order to facilitate the execution of a special forbearance agreement during the period of mortgage default. In addition, this section puts a dollar limit on HUD's share of coinsurance liabilities.

(19) Disposition of property—Section 250.739. Several technical and clarifying modifications have been proposed in this instance to effect compatibility between these property disposition provisions and the other revised sections dealing with claim and benefits procedures.

(20) Items added to principal in computing claim payment—Section 250.740. Subsection (d) has been revised substantially. The existing provision requires the payment of interest by HUD at the contract rate on the unpaid principal amount for the period from the date of acquisition of title to the property by the lender to the date of payment of insurance benefits. The proposed provision calls for contract interest on only the difference between the principal and the amount included in the initial benefits payment, computed for the period from date of acquisition of title to date of final payment of insurance benefits.

(21) Items deducted from principal in computing claim payment—Section 250.741. Various clarifying technical revisions have been proposed. Under the proposed regulations, HUD is to be fully reimbursed for all amounts due pursuant to a direct claim payment offset procedure set forth at § 205.738(d).

Interested persons are invited to submit written comments, views, or data regarding this proposed rule to the Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. Communications should refer to the above docket number and title. All such submissions received on or before January 29, 1979 will be considered before adoption of a final rule. A copy of each communication will be available for public inspection during regular business hours at the above address.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD Handbook 1390.1. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours at the address set forth in the preceding paragraph.

The requirements of Executive Order 11821 regarding economic impact have been met.

Accordingly, Part 250 of Chapter II of 24 CFR is proposed to read as set forth below.

### AMENDMENTS

- 250.743 Effect of amendments.

AUTHORITY: Sec. 244, National Housing Act (12 U.S.C. 1715-29).

### Subpart A—General Provisions

- § 250.1 Purpose.

(a) Section 307 of the Housing and Community Development Act of 1974 amended the National Housing Act by adding a new section 244 entitled Coinsurance. Section 244, as amended by Section 6 of the Housing Authorization Act of 1976, authorizes the Secretary of Housing and Urban Development to insure and make a commitment to insure, under any provision of Title II of the National Housing Act, any mortgage otherwise eligible for insurance under such provision, pursuant to a coinsurance contract providing that the agency will (1) assume a percentage of any loss and (2) carry out (subject to audit, exception, or review requirements) such credit approval, appraisal, inspection, commitment, property disposition, or other functions as the Secretary approves.

(b) By placing some of the risks which HUD now assumes when insuring mortgages on approved State Housing Agencies the coinsurance program could help to assure more careful initial evaluation of proposed projects by lenders who are willing to accept some, but are unwilling to accept all, of the risk of mortgage lending for rental housing projects. It could also make feasible assumption by lenders of the processing responsibilities incidental to a mortgage insurance program and thereby reduce the time required to approve applications for mortgage insurance.

(c) The Congress indicated its concern that in delegating mortgage insurance processing duties to lenders, physical inspections of new dwelling units be continued in accordance with the same standards used under the regular HUD programs. To accord with these concepts, this part sets forth the Department's regulations describing a coinsurance program for

mortgages on multifamily projects underwritten by State Housing Agencies.

(d) The primary purpose of this program is for HUD to assume some of the risk exposure of the multifamily loans made by State Housing Agencies, thereby reducing the perceived risks to investors and increasing the agencies' access to capital markets. In recognition of the capabilities of State Housing Agencies, their successful operating histories and their accountability to their individual State governments, these regulations vest the maximum amount of processing responsibilities with these agencies.

### § 250.2 Definition of State Housing Agency.

As used in this part, the term "State Housing Agency", or "Agency", means any public body, agency, or instrumentality created by a specific act of a state legislature and empowered to finance activities designed to provide housing and related facilities, through land acquisition, construction, or rehabilitation, for persons and families of low and moderate income.

### § 250.3 Approved agency.

An approved agency under this part must be a State Housing Agency certified as eligible to underwrite mortgages for coinsurance as provided in § 250.202. The HUD Central Office shall have sole responsibility for the certification of approved agencies pursuant to the requirements of this part.

### § 250.4 Effect of implementation of program on mortgage market.

Section 244 of the National Housing Act requires that no contract of coinsurance be entered into under this part until the Secretary has, after due consultation with the mortgage lending industry, determined that a program for State Housing Finance Agencies, as authorized by Section 244, will not disrupt the mortgage market or reduce the availability of mortgage credit to borrowers who depend upon mortgage insurance provided under provisions of the National Housing Act other than Section 244. The Department intends to monitor continuously the impact of this program and to consider evidence submitted at any time which would tend to suggest that disruptions in the mortgage market or reduced availability of mortgage credit to borrowers is casually related to the availability of coinsurance under this part.

### § 250.5 Utilization of existing multifamily insurance authorities.

With respect to mortgages to be co-insured under this part, mortgage insurance will be provided under Section 221(d)(3) or Section 221(d)(4) of the National Housing Act and the regula-

tions implementing those sections as set forth in this part.

### § 250.6 Effect of availability of coinsurance.

No insurance authorized under any provision of the National Housing Act other than Section 244 of that Act shall be withdrawn, denied, or delayed by reason of the availability of insurance under the program authorized by this part.

### § 250.7 Effect of availability of coinsurance on flow of mortgage credit to older, declining areas.

Insurance will continue to be available under this part only to the extent the Secretary has determined that the availability of insurance authorized by this part does not adversely effect the flow of mortgage credit to older, declining areas and to the purchasers of older and lower-cost housing.

### § 250.8 Coinsurance pursuant to Section 223(e) not available.

Insurance authorized by this part will not be available for mortgages on properties which are eligible to be insured solely pursuant to the authority of Section 223(e) of the National Housing Act.

### § 250.9 Safeguards for consumers.

(a) The inspection of construction on projects covered by mortgages approved for coinsurance prior to the beginning of construction under this part shall be conducted in accordance with the standards and criteria set forth in Subpart S of Part 200 of this chapter and used with respect to dwellings or projects approved for mortgage insurance under provisions of Title II of the National Housing Act other than Section 244.

(b) The National Environmental Policy Act of 1969, as amended, is applicable to major Federal actions proposed pursuant to this part. The Secretary may make appropriate provisions for the delegation to a State agency of preparation of any detailed statement required pursuant to Section 102(2)(C) of that statute. However, final responsibility for making determinations related to environmental impact which are not delegable under the National Environmental Policy Act of 1969 has been retained by the Department of Housing and Urban Development.

### Subpart B—Certification of a State Housing Agency as an Approved Agency

- § 250.201 Review of state agency prior to certification as an approved agency.

Certification of a State Housing Agency as an approved agency, eligible to underwrite and service mortgages on multifamily projects for coinsur-

ance, will be made after an on-site review of the Agency's operations by HUD. This review will cover the adequacy of the Agency's technical staff, procedures for screening and processing applications for mortgage insurance, and the Agency's capability to service such mortgages and supervise project management.

### § 250.202 Certification as an approved agency.

A State Housing Agency whose technical staff and procedures for screening and processing applications have been deemed satisfactory after the review required by § 250.201; which has been approved as a mortgagee pursuant to § 203.1(d) of this chapter; and which meets the following special requirements may be certified as an approved agency eligible to underwrite mortgages on multifamily projects under this part:

(a) It shall provide a written opinion of its Counsel that it has the necessary powers under State law to participate in the program authorized under this part;

(b) It shall submit satisfactory evidence to the Commissioner: (1) That its assets are properly proportioned to its liabilities and are adequate for, and invested properly in relation to, the character and extent of its intended operations; and (2) that it can meet its share of the coinsurance liabilities or losses for the mortgage loans covered by the provisions set forth in this part. For the latter such evidence may include funds placed in escrow, a state mortgage insurance fund, a pledge of specified funds that may be received by the State government from the Federal government under one or more of the revenue sharing programs authorized by the Congress, an unqualified legal opinion from the State Attorney General that the State government has the resources, and will make every effort to provide from whatever sources it deems appropriate such sums as may be required which, together with the unencumbered resources of the agency, will be sufficient to meet the agency's liabilities or losses arising from the loans covered by the coinsurance written pursuant to this part, and where the Governor shall cause the amount of such deficiency, if any, to be placed in the budget of the State for the next succeeding fiscal year, so that the State legislature shall be enabled to provide appropriation sufficient to make up any such deficiency or otherwise to avoid any default. Such amount appropriated, if any, shall be repaid to the State as soon as possible by the agency from monies in the general fund in excess of the amount required to make and keep the agency self-supporting;

(c) It shall submit evidence to the Commissioner that it has established procedures for discharging full underwriting, servicing and property disposition functions in a manner which is not inconsistent with the requirements of this part;

(d) It shall submit to periodic auditing and review by the Commissioner or the Comptroller General of the United States with respect to its participation in the program authorized by this part;

(e) It shall submit its most recent detailed audit report of its books made by an independent certified public accountant selected in accordance with applicable State law or procedures supplemented by such additional financial information as the Commissioner shall request;

(f) It shall file with the Commissioner similar annual audits within (1) such period of time required pursuant to agency statute and procedures, or (2) within 150 days of the closing of its fiscal year so long as its approval as an approved agency continues;

(g) It shall have the capability, either through technical staff employed by it, or through contracts with persons outside the agency, to discharge full mortgage underwriting, servicing and property disposition functions;

(h) It shall promptly notify the Commissioner of any changes in its processing procedures which take place after its certification as an approved agency, and shall rescind any change in its processing procedures which the Commissioner determines is inconsistent with the requirements of this part;

(i) It shall have in its immediate employ a technical staff consisting of at least one individual who is knowledgeable in the area of construction, on in underwriting skills, and one who is skilled in the management of multi-family projects;

(j) It shall have in its immediate employ staff with sufficient professional and technical competence to monitor the performance of any work it contracts to have done by persons outside the agency such as appraisals, costs, architectural, engineering and management services;

(k) All appraisers used by the agency must adhere to minimum standards of education and experience established by the Commissioner.

#### § 250.204 Withdrawal of approval.

The Commissioner may refrain from issuing a commitment for mortgage insurance authorized by this part with respect to any project proposed for co-insurance by an agency which has been given written notice by the Commissioner that its certification as an approved agency under this part may

be suspended or withdrawn. Certification as an approved agency under this part may be suspended or withdrawn pursuant to the provisions of Part 24 of this title as a result of withdrawal of mortgagee approval pursuant to § 203.07 of this chapter or for any of the following causes:

(a) Failure to maintain satisfactory capital funds or structure;

(b) Failure to perform underwriting, servicing, or property disposition functions consistent with the requirements of this part;

(c) Failure to discharge responsibilities under a contract for coinsurance;

(d) The transfer of a coinsurance mortgage to any entity without the advance approval of the Commissioner;

(e) The failure to segregate all escrow funds received from mortgagors on account of ground rents, taxes, assessments and insurance premiums, and to deposit such funds to a special account or accounts;

(f) The use of escrow funds for any purpose other than that for which they were received;

(g) The payment by the agency of any fee, kickback, or other consideration, directly or indirectly, in connection with any insured mortgage transaction or transactions to any person including an attorney, escrow agent, title company, consultant, mortgage broker, seller, builder, or real estate agent if such person has received any other payment or other consideration from the mortgagor, the seller, the builder, or any other persons for services related to such transaction or transactions or from or related to the purchase or sale of the mortgaged property, except that compensation may be paid for the actual performance of such services as may be approved by the Commissioner;

(h) Such other reason as the Commissioner determines to be justified particularly if the default ratio as measured by dollar balances exceeds 20 percent.

§ 250.205 Effect of withdrawal of certification as an approved agency on insurance commitments made while it was approved.

Withdrawal or termination of a State Housing Agency's certification as an approved agency under this part will not affect any mortgage insurance commitment issued while the Agency was an approved agency or the insurance on mortgages accepted for insurance while the Agency was an approved agency.

§ 250.207 Mortgage servicing during coinsurance period.

Servicing functions during the period when the Commissioner is a co-insurer of the mortgage shall be per-

formed only by the agency, except that the agency may elect to delegate servicing to another entity if the agency retains its obligations under this part.

§ 250.208 Required regulatory agreement with mortgagors.

(a) The agency and the mortgagor shall effect an agreement whereby the mortgagor, as further consideration for the making of the mortgage loan, contracts with the agency and with the Commissioner that it will fulfill the provisions of Subpart C, §§ 250.322 through 250.327. Such regulation or restriction will be in the form of a regulatory contract between the mortgagor and the agency which shall be responsible for enforcing the provisions of the regulatory contract.

(b) Further, the agency may regulate and restrict the mortgagor, as long as the Commissioner and the agency are co-insurers of the mortgage, on such other matters as may be required by the agency as conditions for lending which do not conflict with the requirements of the Commissioner under this part.

#### Subpart C—Eligibility Requirements Applicable to All Mortgages To Be Coinsured

##### § 250.301 Application.

The application for a commitment to make a coinsured mortgage loan on a project shall be submitted to the agency by the sponsor of such project accompanied by such exhibits as may be required by the agency to enable the agency to comply with requirements for coinsurance of the mortgage established under this part. An application for a commitment to make a mortgage loan may be required by the agency prior to the submission of the application contemplating mortgage insurance.

§ 250.302 Application fees, inspection fees, and service charges.

The agency may collect from the mortgagor such application fees, inspection fees, and initial service charges as it may require to reimburse itself for the cost of processing an application, conducting inspections, and closing a mortgage transaction, provided the total of such fees and charges does not exceed the maximum amount allowable under the applicable full insurance program, i.e., section 221(d)(3) or (d)(4).

§ 250.305 Processing and commitment.

(a) The agency shall perform all of the processing and make all of the determinations of the eligibility of a mortgage for coinsurance under this part except for the required determinations related to environmental impact which are not delegable under

the National Environmental Policy Act of 1969, and, upon completion of such processing and determinations, shall submit to the Commissioner a request for issuance of a commitment for mortgage insurance, which application shall be acted upon by the Commissioner and returned to the agency promptly. A commitment to insure issued by the Commissioner shall be based upon certifications made by the agency as to its compliance with the requirements of this part. A commitment to insure shall be effective for a designated term within which period the mortgagor is required to begin construction or rehabilitation, and if construction or rehabilitation is begun as required, the commitment shall be effective for such additional period as determined by the agency. The term of a commitment may be extended or may be amended in such manner as the agency may prescribe from time to time pursuant to an application to the Commissioner, provided it has been approved by him, for such extension or amendment of said commitment, which application shall be acted upon by the Commissioner and returned to the agency promptly after receipt thereof. An expired commitment may be reopened if a request for reopening is received by the Commissioner from the agency within 90 days of the expiration of the commitment and the Commissioner shall act upon the application for reopening of such expired commitment in the manner prescribed for amendment or extension of commitments herein above set forth. Upon completion of construction or rehabilitation and receipt by the Commissioner of the agency's certification that the terms and conditions of the commitment for coinsurance have been satisfied, the Commissioner shall promptly after receipt of application, indicate his insurance of the mortgage by endorsing the original credit instrument and identifying the section of the Act and the regulations under which the mortgage is insured and the date of insurance. All agency submissions must include certifications of compliance by the agencies with such previous participation clearance requirements and procedures as may be established by the Commissioner.

(b) The agency shall submit not less than the first 5 commitments for endorsement to be covered by the coinsurance provisions as set forth in this subpart to the Commissioner so that he may ascertain that the agency is processing applications in full compliance with the requirements prescribed by the Commissioner.

#### ELIGIBLE MORTGAGES

##### § 250.309 Mortgage form.

(a) The mortgage shall be executed on the agency's form as approved by

the Commissioner for use in the jurisdiction in which the property covered by the mortgage is situated, which form shall not be changed without the prior written approval of the Commissioner.

(b) In the case of cooperative mortgagors, the mortgage shall provide that the mortgagor will not arrange for management of the property except in the manner and under an agreement approved by the agency and the Commissioner in writing.

##### § 250.310 Mortgage lien.

A mortgagor shall certify at endorsement of the loan for insurance and the agency shall determine that:

(a) The property covered by the mortgage is free and clear of all liens other than the insured mortgage and such other liens as may be approved by the agency and the Commissioner. Liens other than the insured mortgage which may be approved (other than liens for taxes and assessments of the State or subdivisions of the State not yet due and payable, or ground rents) may not have under applicable law a priority equal or superior to the insured mortgage.

(b) There will not be outstanding any unpaid obligation contracted for in connection with the mortgage transaction, the purchase of the mortgaged property, or the construction of the project, except obligations approved by the agency and the Commissioner. Obligations of the mortgagor shall be approved under this section only if such obligations are determined to be of a lesser priority for payment than the obligation of the insured mortgage.

##### § 250.311 Maturity.

The mortgage shall have a maturity satisfactory to the agency, not in excess of 40 years from commencement of amortization or for such longer term as may be approved by the Commissioner.

##### § 250.312 Payment requirements.

(a) Method of payment. The mortgage shall provide for monthly payments on the first day of each month on account of interest and principal and shall provide for payments in accordance with an amortization plan as agreed upon by the mortgagor, the agency and the Commissioner.

(b) Date of first payment to principal. The agency shall estimate the time necessary to complete the project and shall establish pursuant to standards adopted by the agency the date of the first payment to principal so that the lapse of time between completion of the project and commencement of amortization will not be longer than that deemed necessary and appropri-

ate by the agency to obtain sustaining occupancy.

##### § 250.312a Application of mortgage payments.

The mortgage shall provide that all monthly payments being made by the mortgagor to the agency shall be added together and the aggregate thereof shall be paid by the mortgagor upon each monthly payment date in a single payment. The agency shall apply all payments received from the mortgagor or for the account of the mortgagor to the following items in the order set forth:

(a) Premium charges under the contract of insurance, where applicable.

(b) Ground rents, taxes, special assessments and fire and other hazard insurance premiums.

(c) Interest on the mortgage.

(d) Amortization of the principal of the mortgage.

##### § 250.313 Mortgage to cover the entire property.

The mortgage shall cover the entire property included in the housing project.

##### § 250.314 Covenant for hazard insurance.

The mortgage shall contain a covenant acceptable to the Commissioner binding the mortgagor to keep the property insured against loss or damage by fire and lightning upon a repair or replacement basis if available, and otherwise to the full insurable value of the project, with deductible provisions not to exceed \$5,000 for any one casualty. The mortgagor must also carry boiler explosion insurance on all boilers, pressure vessels and pressure piping in the project in an amount not less than the repair or replacement cost with coverage for bodily injury. Business interruption or use and occupancy insurance and general public liability insurance against claims for bodily injury and property damage must also be carried. The policies evidencing such insurance shall have attached thereto a standard mortgagee clause making loss payable to the agency and the Commissioner, as their interests may appear.

##### § 250.315 Accumulation of accruals.

(a) The mortgage shall provide for payments by the mortgagor to the agency on each interest payment date of an amount sufficient to accumulate in the hands of the agency one payment period prior to its due date, the next annual mortgage insurance premium. Such payments shall continue only so long as the contract of insurance shall remain in effect.

(b) The mortgage shall provide for such equal monthly payments by the mortgagor to the agency as will amortize the ground rents, if any, and the

estimated amount of all taxes, water rates and special assessments, if any, and fire and other hazard insurance premiums, within a period ending one month prior to the dates on which the same become delinquent. The mortgage must also make provision for adjustments, in case the estimated amount of such taxes, water rates and assessments, and insurance premiums shall prove to be more, or less, than the actual amount thereof so paid by the mortgagor.

#### § 250.316 Prepayment privileges.

Where the mortgage is given to secure a loan made by a mortgagee which has obtained the funds for such loan by the issuance and sale of bonds or bond anticipation notes, or both, the mortgage may contain a provision that the mortgage indebtedness may not be prepaid in whole or in part without prior written consent of the mortgagee and the Commissioner. The consent of the mortgagee to prepay the debt, in whole or in part, may be conditioned upon payment to the mortgagee by the mortgagor of such fees and charges which are reasonable as determined by the Commissioner and which are related to the mortgagee's cost of redeeming the bonds or bond anticipation notes sold to finance the loan.

#### § 250.317 Late charge.

The mortgage may provide for the collection by the agency of a late charge, not to exceed 2 cents for each dollar of each payment to interest and principal more than 15 days in arrears, or such other charges as may be agreed to by the agency and the Commissioner, to cover the extra expense involved in handling delinquent payments. Late charges shall be separately charged to and collected from the mortgagor and shall not be deducted from any aggregate monthly payment.

#### § 250.318 Maximum mortgage interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 9 percent per annum with respect to mortgages receiving initial endorsement (or endorsement, in cases involving insurance upon completion) on or after September 2, 1975. Interest shall be payable in monthly installments on the principal amount of the mortgage outstanding on the due date of each installment.

#### § 250.320 Loans to cover 2-year operating loss.

(a) Operating loss determination. When the agency determines that an operating loss has occurred during the first 2 full years following completion of the project, it may, in its discretion,

make a loan to cover such loss which shall be eligible for insurance under this part. For the purposes of this section, an operating loss shall occur when the agency determines that the total of the taxes, interest on the mortgage debt, mortgage insurance premiums, hazard insurance premiums, and the expense of maintenance and operation of the project (excluding depreciation) exceeds the project income.

(b) Security instrument. The loan shall be secured by an instrument in a form approved by the Commissioner for use in the jurisdiction in which the project is located.

(c) Maximum interest rate. The loan may bear interest at such rate as may be agreed upon by the agency and the mortgagor, but in no case shall such rate exceed the highest mortgage interest rate provided for under this part on the date that the loan is extended. Interest shall be payable in monthly installments on the principal then outstanding.

(d) Maximum maturity. The loan shall be limited to a term not exceeding the unexpired term of the mortgage.

#### § 250.321 Mortgagor's certificate of non-discrimination and mortgage covenant regarding use of property.

(a) The mortgagor shall certify to the agency as to each of the following points:

(1) That neither it, nor anyone authorized to act for it, will refuse to sell or rent, after the making of a bona fide offer, or refuse to negotiate for the sale or rental of, or otherwise make unavailable or deny any part of the property covered by the mortgage to any person because of race, color, sex, religion, or national origin.

(2) That any restrictive covenant on such property relating to race, color, sex, religion, or national origin is recognized as being illegal and void and is hereby specifically disclaimed.

(3) That civil action for preventative relief may be brought by the Attorney General in any appropriate U.S. District Court against any person responsible for a violation of this certification.

(b) The mortgage shall contain a covenant prohibiting the use of the property covered thereby for any purpose other than that for which it was intended on the date the mortgage was executed.

#### SUPERVISION OF MORTGAGORS

##### § 250.322 Regulation of mortgagors.

The mortgagor and the agency may agree to such regulation and restriction of the actions of the mortgagor by the agency as they deem desirable: *Provided*, That the requirements set

forth in §§ 250.323, 250.324, 250.325, 250.326 and 250.327 are adhered to.

#### § 250.323 Supervision applicable to all mortgagors.

(a) No charge shall be made by the mortgagor for accommodations, facilities, or services offered by the project except those approved in writing by the agency.

(b) The mortgagor shall maintain its project, the ground, buildings, and equipment appurtenant thereto, in good repair and will promptly complete necessary repairs and maintenance as required by the agency.

(c) In all projects a fund for replacements shall be established and maintained with the agency. The amount and type of such fund and the conditions under which it shall be accumulated, replenished, and used, shall be specified in the charter, trust agreement, or regulatory agreement.

(d) The mortgagor, its property, equipment, buildings, plans, offices, apparatus, devices, books, contracts, records, documents, and papers shall be subject to inspection and examination by the agency, the Commissioner, and the Comptroller General or their duly authorized agents at all reasonable times.

(e) The mortgagor shall execute and deliver to the agency a certificate that the books and accounts of the mortgagor will be established and maintained in a manner satisfactory to the agency on the date the certificate is executed. So long as the mortgage is coinsured under this part, the mortgagor's books and accounts will be kept in accordance with the requirements of the agency; will be in such form as to permit a speedy and effective audit and as may otherwise be prescribed by the agency; will be maintained for such periods of time as may be prescribed by the agency; and will be available to the agency, and to the Commissioner and to the Comptroller General of the United States for such examination and audit as they may desire to make. The mortgagor shall file with the agency the following reports verified by the signature of such officers of the mortgagor as the agency may designate and in such form as prescribed by the agency.

(1) Monthly occupancy reports as required by the agency.

(2) Complete annual financial reports based upon examinations of the books and records of the mortgagor, prepared in accordance with the requirements of the agency, certified to by an officer of the mortgagor and, when required by the agency, prepared and certified by a Certified Public Accountant, or other public accountant acceptable to the agency.

(3) Specific answers to questions upon which information is desired

from time to time relative to the actual cost of construction, the disposition of mortgage funds, the operation and condition of the property and the status of the coinsured mortgage.

(4) Properly certified copies of minutes of meetings of directors, officers, stockholders, shareholders, or beneficiaries.

(5) At the end of each calendar quarter the agency shall report to the Commissioner on any mortgagors encountering financial difficulties and on corrective actions being taken to alleviate such difficulties.

#### § 250.324 Supervision applicable to general mortgagors.

General mortgagors may include mortgagors which under State law or rules are required to be limited or regulated as to rates of return or distribution of profits, but which are not required to be so limited or regulated under the provisions of Section 221(d)(4) of the National Housing Act if the mortgage is insured under that section. The following restrictions and regulations will be applicable to general mortgagors:

(a) Capital structure. (1) The number of shares of capital stock, in the case of a corporation, may be issued in such amounts and form as may be agreed upon by the mortgagor and the agency prior to the endorsement of the mortgage for insurance; and

(2) In the case of a trust entity, beneficial certificates of interest, or, in the case of a partnership, participations therein may be issued in such amounts and form as may be agreed upon by the mortgagor and the agency.

(b) Distribution of earnings. Dividends or other distributions, as defined in the charter, trust agreement, or regulatory agreement, may be declared or made only as of or after the end of a semiannual or annual fiscal period. No dividends or other distributions shall be declared or made except out of surplus cash legally available and remaining after the payment of and segregation of such funds as determined by the applicable laws and procedures of the agency.

(c) Borrowed funds. No distribution of any kind may be made from borrowed funds.

(d) Rents and charges. In approving the allowable rents and charges and in passing upon applications for changes, consideration will be given by the agency to the following and similar factors:

(1) Rental income necessary to maintain the economic soundness of the project.

(2) Rental income necessary to provide a reasonable return on the invest-

ment consistent with providing reasonable rentals to tenants.

#### § 250.325 Supervision applicable to limited distribution mortgagors.

(a) Rate of return. The amount of any allowable distribution or disbursement from surplus cash generated by the mortgagor will not exceed in any one fiscal year more than such percentage of the mortgagor's initial equity investment as is agreed to by the agency and the Commissioner. The right of allowable distribution or disbursement from surplus cash may be cumulative. Dividends or other distributions may be declared or made only as of or after the end of a semiannual fiscal period. No dividends or other distribution shall be declared or made except out of surplus cash and pursuant to applicable laws and procedures of the agency.

(b) Rents and charges. In approving the allowable rents and charges and in passing upon applications for changes, consideration will be given by the agency to the following and similar factors:

(1) Rental income necessary to maintain the economic soundness of the project.

(2) Rental income necessary to provide a rate of return on the investment not exceeding the rate limitation of paragraph (a) of this section, and consistent with providing reasonable rentals to tenants.

(c) Borrowed funds. No distribution of any kind may be made from borrowed funds.

#### § 250.326 Supervision applicable to cooperative mortgagors.

(a) The mortgagor shall not permit occupancy except under an occupancy agreement or lease approved by the agency.

(b) Except with the prior written approval of the agency, no compensation shall be paid by the corporation to its officers or directors, as such, or to any person or corporation for supervising or managerial service. No compensation shall be paid by the corporation to any employee in excess of an amount agreed to by the agency, and specified in the charter. No officer, director, stockholder, agent, or employee of the corporation shall in any manner become indebted to the corporation except on account of approved occupancy charges.

(c) A general operating reserve shall be established and maintained as long as the mortgage is coinsured under this part in a manner and for the purposes specified in the charter or regulatory agreement.

(d) Surplus funds, after meeting reserves and after meeting all obligations of the mortgagor, may be disbursed to the members in the form of

reduced carrying charges or reduced sales prices of the dwelling accommodations, or patronage refunds.

#### § 250.327 Occupancy requirements applicable to all mortgagors.

The mortgagor shall certify under oath to the agency that so long as the mortgage is coinsured under this part the mortgagor will not:

(a) In selecting tenants for the project covered by the mortgage, discriminate against any family by reasons of the fact that there are children in the family unless the project was designed expressly for occupancy by elderly patrons;

(b) Rent, permit the rental or permit the offering for rental of the housing, or any part thereof, covered by such mortgage, for transient or hotel purposes. For the purposes of this certificate, the term rental for transient or hotel purposes shall mean (1) rental for any period less than 30 days, or (2) any rental, if the occupants of the housing accommodations are provided customary hotel services, such as room service for food and beverages, maid service, furnishing and laundering of linens, and bellboy service;

(c) Sell the project as long as the mortgage is coinsured under this part, unless the purchaser also certifies under oath as is required by paragraphs (a) and (b) of this section.

(d) Preference for displacees. A preference or priority of opportunity to rent dwelling units shall be given to families or single persons who have been displaced from an urban renewal area, or as a result of governmental action, or as a result of a disaster determined by the President to be a major disaster.

#### PREVAILING WAGE REQUIREMENTS

##### § 250.328 Applicability of prevailing wage requirements.

(a) In general. Prevailing wage requirements shall be applicable to a mortgage insured under this part, except those specified in paragraph (b) of this section, and compliance with such requirements shall be evidenced at such time and in such manner as the Commissioner may prescribe, as follows:

(1) Labor standards. Any contract, subcontract, or building loan agreement executed for the performance of construction or rehabilitation of the project shall comply with all applicable labor standards and provisions of the regulations of the Secretary of Labor issued May 9, 1951, 29 CFR 5.1-5.12 (16 FR 4430).

(2) Ineligible contractors. No construction or rehabilitation contract shall be entered into with a general contractor or any subcontractor if such contractor or any such subcon-

tractor or any firm, corporation, partnership or association in which such contractor or subcontractor has a substantial interest is included on the ineligible list of contractors or subcontractors established and maintained by the Comptroller General pursuant to § 5.6(b) of the regulations of the Secretary of Labor, issued May 9, 1951, 29 CFR 5.6(b) (16 FR 4431).

(b) Excepted transactions. The requirements of paragraph (a) of this section shall not be applicable to a project involving a cooperative where the agency and the Commissioner have waived the requirements and each of the following circumstances occurs.

(1) The laborers or mechanics not otherwise employed in the construction or rehabilitation of such project are to voluntarily donate their services without compensation for the purpose of lowering their housing costs in the project.

(2) The mortgagor establishes to the satisfaction of the agency and the Commissioner that amounts saved by the donated services will be credited to the account of the mortgagor.

#### § 250.329 Discrimination prohibited.

Any contract or subcontract executed for the performance of construction or rehabilitation of the project shall contain a provision that there shall be no discrimination against any employee, or applicant for employment because of race, color, sex, creed, or national origin. Where the mortgagor is the general contractor, the building loan agreement shall contain the above provision.

#### PROPERTY REQUIREMENTS

##### § 250.330 Eligibility of property.

(a) A mortgage to be eligible for insurance shall be on real estate held:

(1) In fee simple; or

(2) On the interest of the lessee under a lease for not less than the term of the mortgage where the interest of the fee owner of the real estate is subordinate to the interest of the agency; or

(3) Under a lease having a period of not less than 75 years to run from the date the mortgage is executed; or

(4) Under a lease executed by a governmental agency, or such other lessor as the Commissioner may approve for the maximum term consistent with the legal authority for the execution of such lease: Provided, That the term of any such lease shall run for a period of not less than 50 years from the date the mortgage is executed.

(b) The property constituting security for the mortgage must be held by an eligible mortgagor as herein defined and must at the time the mortgage is insured be free and clear of

other liens except those approved by the agency.

##### § 250.331 Development of property.

(a) Obligation of the mortgagor. The mortgagor shall be obligated to either construct and complete new housing accommodations on the mortgaged property or rehabilitate existing housing accommodations designed principally for residential use. The property, including improvements, shall comply with any material zoning or deed restrictions applicable to the project site and with all applicable building and other governmental regulations.

(b) Minimum number of units. A project shall consist of not less than five dwelling units.

##### § 250.332 Commercial and community facilities.

(a) The project may include only such commercial and community facilities as the agency determines will be adequate and appropriate to serve the occupants, and such additional facilities permitted under the provision of the National Housing Act pursuant to which coinsurance is being provided as may be agreed to by the Commissioner and the agency.

(b) In the case of a project designed primarily for occupancy by the elderly or handicapped, the project may include such related facilities as cafeterias or dining halls, community rooms, workshops, infirmaries, or other in-patient or out-patient health facilities, and other essential service facilities for use by elderly or handicapped families.

#### COST CERTIFICATION REQUIREMENTS

##### § 250.333 Certification of cost requirements.

(a) Prior to endorsement of the mortgage for insurance, the agency shall enter into an agreement with the mortgagor in form and content satisfactory to the Commissioner for the purpose of precluding any excess of mortgage proceeds over statutory limitations. Under this agreement, the mortgagor shall disclose its relationship with the builder, including any collateral agreement, and shall agree:

(1) To enter into a construction contract in a form meeting the requirements of § 250.334.

(2) To execute a certificate of actual construction costs, upon completion of all physical improvements on the mortgaged property.

(3) To apply in reduction of the outstanding balance of the principal of the mortgage any excess of mortgage proceeds over 90 percent of actual costs, unless the mortgagor is a nonprofit or cooperative entity utilizing the provisions of Section 221(d)(3), in

which case 100 percent of such costs shall apply.

(b) The provisions of paragraph (a) of this section relating to disclosure and the requirement for a construction contract shall not apply where the mortgagor is the general contractor.

##### § 250.334 Form of contract.

(a) In general. The contract between the mortgagor and the general contractor shall be in the form of either a lump sum contract or a cost plus contract. The lump sum contract shall provide for the payment of a specified amount. The cost plus contract shall provide for the payment of the actual cost of construction, not to exceed an upset price, which may include a fee to the builder in an amount allowed by the agency.

(b) Lump sum contract. A lump sum contract may be used where it is established to the satisfaction of the agency that no identity of interest exists between the mortgagor or any of its officers, directors, stockholders, or partners and the general contractor, and where the mortgage is executed by a limited distribution or general mortgagor. A lump sum contract may also be used where the mortgage is executed by a cooperative mortgagor if the agency makes the foregoing determination as to nonidentity of interest and it is established to the agency's satisfaction that a cost plus form of contract is not required to protect its interests or the interests of the cooperative mortgagor.

(c) Cost plus contract. A cost plus contract shall be used in each of the following instances:

(1) Where it is determined by the agency that an identity of interest exists between the mortgagor or any of its officers, directors, stockholders, or partners and the general contractor.

(2) Where the mortgage is executed by a cooperative mortgagor and it is determined by the agency that a cost plus form of contract is required to protect the interests of the agency or mortgagor.

(3) Where the mortgage is executed by a nonprofit mortgagor, unless it is established to the agency's satisfaction that a cost plus contract is not required to protect its interests and the interests of the mortgagor, in which case a lump sum form of contract may be used.

##### § 250.335 Certificate as to subcontracts.

If it is determined by the agency that the mortgagor, its officers, directors or stockholders, have any interest, financial or otherwise, in any subcontractor or material supplier of the general contractor, the mortgagor must certify to the agency prior to execu-

tion of a subcontract or a contract for the supply of materials that the amounts to be paid to such subcontractor or material supplier are not more than the rate prevailing in the locality for similar type labor and materials. If the determination of financial interest is made by the agency after work is performed or materials supplied under such contracts, the certificate of the mortgagor shall be executed prior to insurance endorsement of the mortgage by the Commissioner.

##### § 250.336 Certificate of actual cost—contents in general.

(a) Submission of certificate. The mortgagor's certificate of actual cost, in a form approved by the Commissioner, shall be submitted prior to endorsement and upon completion of the improvements to the satisfaction of the agency.

(b) Items to be included. The certificate shall show the actual cost to the mortgagor of:

(1) The cost plus construction contract, including the builder's fee actually paid and approved by the agency; or the lump sum construction contract; or the cost of the construction of the project, where the mortgagor also acts as the general contractor and no construction contract is executed.

(2) The architect's fee.

(3) The offsite public utilities and streets not included in subparagraph (1) of this paragraph.

(4) The organizational and legal expenses.

(5) The other items of expense approved by the agency.

(c) Items not to be included. The certificate shall not include as actual cost any kickbacks, rebates, trade discounts, or other similar payments to the mortgagor or to any of its officers, directors, stockholders, or partners. Any such payments, if included, shall be deducted from the cost determined under paragraph (b) of this section.

##### § 250.337 Certificate of actual cost—builder's and sponsor's profit and risk allowance.

(a) In general. The mortgagor's certificate of actual cost shall include (except in a case involving a nonprofit or a cooperative mortgagor) an allowance for builder's and sponsor's profit and risk. The amounts of the allowance shall be dependent upon a determination by the agency as to whether or not there exists an identity of interest between the mortgagor or any of its officers, directors, stockholders, or partners and the general contractor.

(b) Identity of interest cases. Where an identity of interest exists, a builder's and sponsor's profit and risk allowance shall be included in lieu of the builder's fee provided for in § 250.336(b)(1). This allowance shall be

10 percent of the actual cost, or such lesser amount as the Commissioner shall provide by subsequent amendment to these regulations. Actual cost shall be computed in accordance with § 250.336, excluding the following items:

(1) Any builder's fee actually paid and approved by the agency. (This fee shall be paid out of the builder's and sponsor's profit and risk allowance.)

(2) The cost of the land or any amount paid for a leasehold.

(3) The value of the land and improvements prior to repair or rehabilitation plus the amount of the mortgage proceeds used to refinance any outstanding indebtedness on the property where the property involves the financing of repair or rehabilitation.

(c) Nonidentity of interest cases. Where no identity of interest exists, a sponsor's profit and risk allowance shall be included. This allowance shall be 10 percent of the actual cost or such lesser amount as the Commissioner shall specify, computed in accordance with § 250.336, excluding the following items:

(1) The amounts paid by the mortgagor under the construction contract.

(2) The cost of the land or any amount paid for a leasehold.

(3) The value of the land and improvements prior to repair or rehabilitation plus the amount of the mortgage proceeds used to refinance any outstanding indebtedness on the property where the mortgage involves the financing of repair or rehabilitation.

##### § 250.338 Contractor's certification.

(a) Certification by general contractor. Where a cost plus form of contract is used by a cooperative mortgagor or where any other type of mortgage is required by the agency to use such contract, the mortgagor shall submit along with its certificate of actual cost a certification of the general contractor, in a form approved by the Commissioner, as to all actual costs paid for labor, materials and subcontract work under the general contract exclusive of the builder's fee and any kickbacks, rebates, trade discounts, or other similar payments to the general contractor, the mortgagor, or any of its officers, directors, stockholders or partners.

(b) Certification by subcontractor. Where it is determined by the agency that an identity of interest exists between the mortgagor or any of its officers, directors, stockholders or partners and any subcontractor, material supplier, or equipment lessor, the mortgagor may be required by the agency to submit a certification of actual cost by such subcontractor, material supplier, or equipment lessor, in a form prescribed by the Commissioner, as to all actual costs paid for labor,

materials, subcontractors, and overhead exclusive of any kickbacks, rebates, trade discounts, or other similar payments to the general contractor, the mortgagor or any of its officers, directors, stockholders or partners. Where the use of a cost plus form of contract is required by the Commissioner or the agency, and it is determined by the agency that an identity of interest exists between the general contractor, any subcontractor, material supplier, or equipment lessor, the mortgagor may be required by the Commissioner or the agency to submit a certification of actual cost by such subcontractor, material supplier, or equipment lessor.

##### § 250.339 Records.

The mortgagor shall keep and maintain adequate records of all costs of any construction or other cost items not representing work under the general contract and, in the case of a fixed fee contract, shall require the builder to keep similar records and, upon request by the agency, the Commissioner, or the General Accounting Office shall make available for examination such records including any collateral agreements.

##### § 250.340 Certificate of public accountant.

In all projects, the certificate of actual cost shall be supported by a certificate as to accuracy by an independent Certified Public Accountant or independent public accountant, which shall include a statement that the accounts, records and supporting documents have been examined in accordance with generally accepted audit standards to the extent deemed necessary to verify the actual costs.

##### § 250.341 Certification of actual cost—land value.

Upon receipt of the mortgagor's certification of actual cost, there shall be added to the total amount thereof the agency's estimate of the fair market value of any land included in the mortgage security and owned by the mortgagor in fee, such value being prior to demolition and to the construction of the proposed on-site improvements. In the event the land is held under a leasehold or other interest less than a fee, the cost, if any, of acquiring the leasehold or other interest is considered an allowable expense which may be added to actual cost. Provided, That in no event such amount is in excess of the fair market value of such leasehold or other interest exclusive of proposed improvements.

##### § 250.342 Reduction in mortgage amount—new construction.

If the principal obligation of the mortgage exceeds 90 percent of the

total amount as shown by the certificate of actual cost plus the value of the land, the mortgage shall be reduced by the amount of such excess, subject to the 100 percent limitation set forth at § 250.333(a)(3).

**§ 250.343 Reduction in mortgage amount—rehabilitation.**

In the event the mortgage is to finance repair or rehabilitation, the mortgagor's actual cost of such repair or rehabilitation may include the items of expense permitted for new construction in accordance with § 250.337 and the applicable reduction in mortgage amount will be required. Such mortgage shall also be subject to the following limitations:

(a) Property held in fee. If no part of the proceeds is to be used to finance the purchase of the land or structures involved, the mortgage shall be reduced to an amount not to exceed 100 percent of the approved cost of the completed repair or rehabilitation.

(b) Property subject to existing mortgage. If the insured mortgage is to include the cost of refinancing an existing mortgage acceptable to the agency, the amount of the existing mortgage or 90 percent, subject to the 100 percent limitation set forth at § 250.333(a)(3), of the agency's estimate of the fair market value of the land and existing improvements prior to repair and rehabilitation, whichever is the lesser, shall be added to the actual cost of the repair or rehabilitation. If the principal obligation of the insured mortgage exceeds the total amount thus obtained, the mortgage shall be reduced by the amount of such excess.

(c) Property to be acquired. If the mortgage is to include the cost of land and improvements, and the purchase price thereof is to be financed with part of the mortgage proceeds, the purchase price, or the agency's estimate of the fair market value of the land and existing improvements prior to repair or rehabilitation, whichever is the lesser, shall be added to the actual cost of the repair or rehabilitation. If the principal obligation of the insured mortgage exceeds 90 percent, subject to the 100 percent limitation set forth at § 250.333(a)(3), of the total amount thus obtained, the mortgage shall be reduced by the amount of such excess.

**§ 250.344 Requisites of agreement and certification.**

Any agreement, undertaking, statement or certification required by § 250.333 shall specifically state that it has been made, presented, and delivered for the purpose of influencing an official action of the Commissioner, and may be relied upon by the Commissioner and the agency as a true

statement of the facts contained therein.

**§ 250.345 Cost certification incontestable.**

Upon the agency's approval of the mortgagor's certification, such certification shall be final and incontestable except for fraud or material misrepresentation on the part of the mortgagor.

**TITLE**

**§ 250.346 Eligibility of title.**

In order for the mortgaged property to be eligible for insurance, the agency must determine that marketable title thereto is vested in the mortgagor as of the date the mortgage is filed for record. The title evidence will be examined by the agency and the original endorsement of the credit instrument for insurance by the Commissioner will be evidence of its acceptability.

**§ 250.347 Title evidence.**

(a) Upon insurance of the mortgage, the mortgagor shall furnish to the agency a survey of the mortgaged property, satisfactory to the agency and a policy of title insurance covering such property, as provided in subparagraph (1) of this paragraph. If, for reasons the agency deems satisfactory, title insurance cannot be furnished, the mortgagor shall furnish such evidence of title in accordance with paragraph (a)(2), (3) or (4) of this section, as the agency may require. Any survey, policy of title insurance, or evidence of title required under this section shall be furnished without expense to the agency. The types of title evidence are:

(1) A policy of title insurance issued by a company and in a form satisfactory to the agency. The policy shall name as the insured the agency and the mortgagor as their interests may appear. The policy shall provide that upon acquisition of title by the agency, it will become an owner's policy running to the agency.

(2) An abstract of title satisfactory to the agency, prepared by an abstract company or individual engaged in the business of preparing abstracts of title, accompanied by a legal opinion satisfactory to the agency as to the quality of such title, signed by an attorney at law experienced in the examination of titles.

(3) A Torrens or similar title certificate.

(4) Evidence of title conforming to the standards of a supervising branch of the Government of the United States of America, or of any State or Territory thereof.

(b) The survey required by paragraph (a) of this section need not be furnished in connection with a project

involving rehabilitation where the mortgage does not exceed \$200,000.

**§ 250.348 Effect of amendments.**

The regulations in this subpart may be amended by the Commissioner at any time and from time to time, in whole or in part, but such amendments shall not adversely affect the interests of any agency or mortgagor under any contract of insurance on any mortgage or loan already insured and shall not adversely affect the interests of an agency or mortgagor on any mortgage or loan to be insured on which the Commissioner has made a commitment to insure.

**Subpart D—Requirements Applicable to Mortgages Insured Under Section 221(d)(3) or 221(d)(4)**

**ELIGIBLE MORTGAGORS**

**§ 250.401 Eligible mortgagors.**

A mortgage shall be executed by a mortgagor meeting the following qualifications:

(a) Nonprofit. The nonprofit mortgagor shall be a corporation or association organized for purposes other than the making of profit or gain for itself or persons identified therewith and which the agency finds is in no manner controlled by, or under the direction of, persons of firms seeking to derive profit or gain therefrom. Such a mortgagor shall be regulated or supervised under federal or state laws or by political subdivisions of States or agencies thereof, or the agency, as to rents, charges, and methods of operation.

(b) Limited distribution mortgagor. The limited distribution mortgagor may be a corporation, trust, partnership, association, other entity, or an individual. Such mortgagor shall be restricted by law (or by the agency) as to distribution of income and shall be regulated as to rents, charges, rate of return, and methods of operation.

(c) Cooperative mortgagors. (1) The cooperative mortgagor shall be a nonprofit cooperative ownership housing corporation approved by the agency which restricts permanent occupancy of the project to the members of the corporation and which requires membership eligibility and transfers of membership in a manner approved by the agency.

(2) Such a mortgagor will be regulated or restricted by the agency as to rents or sales, charges, rate of return, and methods of operation.

(d) General mortgagors. A general mortgagor shall be any mortgagor, approved by the agency, not meeting the eligibility requirements of paragraphs (a) through (c) of this section which, until the termination of all obligations of the agency and the Commissioner under the insurance contract and during such further period of time as

the agency shall be the owner or holder of the mortgage, is regulated or restricted by the agency as to rents or sales, charges, capital structure, rate of return, and methods of operation.

**MAXIMUM MORTGAGE AMOUNTS**

**§ 250.402 Maximum mortgage amounts.**

(a) The mortgage shall involve a principal obligation not in excess of the lesser of the following:

(1) Dollar limitations on unit. For such part of the property attributable to dwelling use (excluding exterior land improvement) an amount per family unit, depending upon the number of bedrooms, which may be:

(i) For projects insured under Section 221(d)(3) of the Act:

- (A) \$16,860 without a bedroom
- (B) \$18,648 with one bedroom
- (C) \$22,356 with two bedrooms
- (D) \$28,152 with three bedrooms
- (E) \$31,884 with four or more bedrooms

(ii) For projects to be insured under Section 221(d)(4) of the Act:

- (A) \$18,450 without a bedroom
- (B) \$20,625 with one bedroom
- (C) \$24,630 with two bedrooms
- (D) \$29,640 with three bedrooms
- (E) \$34,846 with four or more bedrooms

(2) New construction. (i) In the case of new construction projects insured under Section 221(d)(3) of the Act and where the mortgagor is a nonprofit or cooperative, the agency's estimate of replacement cost of the property or project when the proposed improvements are completed. In the case of a nonprofit or cooperative project insured under Section 221(d)(4) of the Act, 90 percent of the agency's estimate of replacement cost of the property or project when the proposed improvements are completed. The replacement cost may include the land, the proposed physical improvements, utilities within the boundaries of the land, architect's fee, taxes, interest during construction, and other miscellaneous charges incident to construction and approved by the agency. In addition to the foregoing items, a project reserve account not to exceed 5 percent of the total of all components of replacement cost exclusive of such account, may be included in the agency's estimate of replacement cost for a mortgage made by an agency recognized by the Commissioner as meeting the definition of a public housing agency in the U.S. Housing Act of 1937 as amended.

(ii) In the case of new construction under Section 221(d)(3) or 221(d)(4) where the mortgagor is a general or a limited distribution mortgagor, 90 percent of the agency's estimate of the replacement cost of the property when the proposed improvements are completed. The replacement cost may in-

clude all items as described in (i) and shall include an allowance of 10 percent of those items exclusive of land unless the agency, after determining such allowance is unreasonable, prescribes a lesser percentage.

(3) Repair or rehabilitation. (i) In the case of a project which is to be repaired or rehabilitated and insured under Section 221(d)(3) of the Act and where the mortgagor is a nonprofit or cooperative, the sum of the estimated cost of the repairs or rehabilitation of the project and the agency's estimate of the value of the property before repairs or rehabilitation. In the case of a nonprofit or cooperative project insured under Section 221(d)(4) of the Act, 90 percent of the sum of the estimated cost of repairs or rehabilitation of the project and the agency's estimate of the value of the property before repairs and rehabilitation.

(ii) In the case of a project which is to be repaired or rehabilitated where the mortgagor is a general or a limited distribution mortgagor, 90 percent of the sum of the estimated cost of the repairs and rehabilitation of the project and the agency's estimate of the value of the property before repairs or rehabilitation.

(b) Increased mortgage amount—elevator type structures. In order to compensate for higher costs incident to construction of elevator type structures of sound standards of construction, and rehabilitation design, the Commissioner may increase the dollar amount limitations per family unit as provided in paragraphs (a)(1) and (a)(2) of this section so as not to exceed:

- (1) For projects to be insured under Section 221(d)(3) of the Act:
  - \$19,680 per family unit without a bedroom
  - \$22,356 per family unit with one bedroom
  - \$20,496 per family unit with two bedrooms
  - \$33,120 per family unit with three bedrooms
  - \$33,400 per family unit with four or more bedrooms
- (2) For projects to be insured under Section 221(d)(4) of the Act:
  - \$20,962 per family unit without a bedroom
  - \$24,030 per family unit with one bedroom
  - \$29,220 per family unit with two bedrooms
  - \$37,800 per family unit with three bedrooms
  - \$41,494 per family unit with four or more bedrooms

(c) Increased mortgage amount—high cost areas. (1) In any geographical area where the Commissioner finds cost levels so require, the Commissioner may increase, but not to exceed 50

percent, the dollar limitations set forth in this section.

(2) If the Commissioner finds that because of high costs in Alaska, Guam, or Hawaii it is not feasible to construct dwellings without the sacrifices of sound standards of construction, design, and livability within the limitations of maximum mortgage amounts provided in this section the principal obligations of mortgages may be increased in such amounts as may be necessary to compensate for such costs, but not to exceed in any event the maximum, including high cost area increases, if any, otherwise applicable by more than one-half thereof.

(d) Maximum mortgage amount—leaseholds. The value or replacement cost on which the mortgage amount is based will be limited by the value or replacement cost of the leasehold estate, which shall be the value or replacement cost of the project in fee simple less the value of the leased fee. The value of the leased fee shall equal the market value of the site in fee simple before construction of on-site or offsite improvements. Where the lease provides for increasing ground rents over the term of the mortgage, the initial ground rent may not exceed the market value of the site "as is" in fee simple multiplied by 90 percent of the interest rate of the insured mortgage.

**§ 250.403 Adjusted mortgage amount—rehabilitation projects.**

A mortgage having a principal amount computed in compliance with this part, and which involves a project to be repaired or rehabilitated, shall be subject to the following additional limitations:

(a) Property held in fee. If the mortgagor is the owner of an unencumbered fee simple estate, the maximum mortgage amount shall not exceed 100 percent of the agency's estimate of the cost of the proposed repairs or rehabilitation;

(b) Property subject to existing mortgage. If the mortgagor owns the project subject to an outstanding indebtedness, which is to be refinanced with part of the insured mortgage, the maximum mortgage amount shall not exceed:

(1) Nonprofit or cooperative mortgagor. If the mortgagor is a nonprofit or cooperative, and the project is insured under Section 221(d)(3) of the Act, the agency's estimate of the cost of the repairs or rehabilitation plus such portion of the outstanding indebtedness as does not exceed the agency's estimate of the value of such land and improvements prior to the repair or rehabilitation. In the case of projects insured under Section 221(d)(4) of the Act, the Agency's estimate of the cost of the repairs or rehabilitation plus such por-

tion of the outstanding indebtedness as does not exceed 90 percent of the agency's estimate of the value of such land and improvements prior to the repairs or rehabilitation.

(2) General or limited distribution mortgagor. If the mortgagor is a general or limited distribution mortgagor, the agency's estimate of the cost of repair or rehabilitation plus such portion of the outstanding indebtedness as does not exceed 90 percent of the agency's estimate of the value of such land and improvements prior to the repair or rehabilitation.

(c) Property to be acquired. If the project is to be acquired by the mortgagor and the purchase price is to be financed with a part of the insured mortgage, the maximum mortgage amount shall not exceed:

(1) Nonprofit or cooperative. If the mortgagor is a nonprofit or cooperative, and the project is insured under Section 231(d)(3) of the Act, the agency's estimate of the cost of the proposed repairs or rehabilitation plus the lesser of either of the following:

(i) The actual purchase price of the land and improvements.

(ii) The agency's estimate of the value of such land and improvements prior to the repair or rehabilitation. If the project is to be insured under Section 221(d)(4), 90 percent of the agency's estimate of the cost of the proposed repairs or rehabilitation plus 90 percent of the lesser of the actual purchase price of the land and improvements or the agency's estimate of the value of such land and improvements prior to the repair or rehabilitation.

(2) General or limited distribution mortgagor. If the mortgagor is a general or limited distribution mortgagor:

(i) 90 percent of the agency's estimate of the cost of the repair or rehabilitation, plus

(ii) 90 percent of the lesser of the actual price of the land and improvements, or the agency's estimate of value of such land and improvements prior to the repair or rehabilitation.

#### Subpart F—Contract Rights and Obligations

##### § 250.701 Definitions.

As used in this subpart the following terms shall have the meaning indicated:

(a) "Commissioner" means the Federal Housing Commissioner.

(b) "Act" means the National Housing Act, as amended.

(c) "Mortgage" means such a first lien upon real estate and other property as is commonly given to secure advances on, or the unpaid purchase price of, real estate under the laws of the State, district or territory in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby. In any instance where an operating loss loan

is involved, the term shall include both the original mortgage and the instrument securing the operating loss loan.

(d) "Insured mortgage" means a mortgage which has been insured by the endorsement of the credit instrument by the Commissioner, or his duly authorized representative.

(e) "Contract of coinsurance" means the agreement between the agency and the Commissioner for the coinsurance of a mortgage evidenced by the endorsement of the credit instrument by the Commissioner and includes the terms, conditions and provisions of this part and of the National Housing Act.

(f) "Mortgagor" means the original borrower under a mortgage and its successors and such of its assigns as are approved by the Commissioner.

(g) "MIP" means the mortgage insurance premium paid by the agency to the Commissioner in consideration of the contract of coinsurance.

##### § 250.703 Creation of contract of coinsurance.

(a) This subpart shall constitute the contract of coinsurance and the agency and the Commissioner shall be bound by the regulations in this subpart with the same force and effect and to the same extent as if a separate contract had been executed.

#### MORTGAGE INSURANCE PREMIUMS

##### § 250.705 Amount of MIP to be collected from the mortgagor.

HUD will collect from the agency a MIP from the date of the contract of coinsurance which shall not exceed the following schedule based on the amount of the principal obligation of the mortgage outstanding at any time without taking into account delinquent payments or prepayments. The agency in turn may collect such premium from the mortgagor:

(a) The MIP shall be the equivalent of 0.5 percent per annum if the Commissioner's proportional potential share of the total loss on a defaulted mortgage is between 81 percent and 90 percent of such loss;

(b) The MIP shall be the equivalent of 0.4 percent per annum if the Commissioner's proportional potential share of the total loss on a defaulted mortgage is between 71 percent and 80 percent of such loss;

(c) The MIP shall be the equivalent of 0.3 percent per annum if the Commissioner's proportional potential share of the total loss on a defaulted mortgage is between 61 percent and 70 percent of such loss;

(d) The MIP shall be the equivalent of 0.25 percent per annum if the Commissioner's proportional potential share of the total loss on a defaulted

mortgage is between 10 percent and 60 percent of such loss.

##### § 250.706 Method of payment of MIP.

The payment of any MIP under this subpart shall be made to the Commissioner by the agency in cash. The MIP will be paid annually on a level percentage of the declining principal balance.

##### § 250.707 Annual payment of MIP on a level percentage of the declining principal balance.

(a) The agency shall pay to the Commissioner on the effective date of the contract of coinsurance, a first year mortgage insurance premium covering a period of one year, equal to the percentage set forth at Section 250.705 of the outstanding principal balance of the mortgage. Each year thereafter, the agency, on the anniversary date of the contract of coinsurance shall pay a premium for the following year, equal to the prescribed percentage of the average outstanding principal obligation of the mortgage, without taking into account delinquent payments or prepayments.

(b) For operating loss loans made pursuant to § 250.320, the agency shall pay to the Commissioner, upon the endorsement of the credit instrument covering the operating loss loan, a first year mortgage insurance premium, covering a period of one year, equal to the percentage set forth in Section 250.705 of the outstanding principal balance of the mortgage. Each year thereafter, the agency shall pay a premium for the following year, equal to the prescribed percentage of the average outstanding principal obligation of the mortgage, without taking into account delinquent payments or prepayments.

##### § 250.710 Duration of MIP.

The MIP required under § 250.707 shall continue annually until the earliest date on which one of the following occurs:

(a) The mortgage is paid in full,

(b) A deed to the agency is filed for record, or

(c) The contract of coinsurance is otherwise terminated with the consent of the Commissioner.

#### DEFAULT UNDER THE MORTGAGE

##### § 250.715 Definition of default.

The following shall be considered a default under this subpart:

(a) Failure of the mortgagor to make any payment due under the mortgage;

(b) Failure of the mortgagor to perform any other covenant under the provisions of the mortgage, if the agency, because of such failure has accelerated the debt; or

(c) In the case of an operating loss loan, the failure of the mortgagor to make any payment due under such loan or under the original mortgage, which shall be considered a default under both the loan and the original mortgage.

##### § 250.716 Date of default.

For the purposes of this subpart, the date of default shall be considered as 30 days after:

(a) The first uncorrected failure to perform any obligation under the mortgage; or

(b) The first failure to make a monthly payment which is not covered by subsequent payments made by the mortgagor when such subsequent payments are applied to the overdue monthly payments in the order in which they became due.

##### § 250.717 Notice of default.

The agency shall, within 60 days after the date of default as defined in this part, give written notice thereof to the Commissioner on a form prescribed by him, unless such default has been cured or unless the Commissioner has been notified of a previous default which remains uncured.

##### § 250.718 Reinstatement of defaulted mortgage.

If after default and prior to the completion of foreclosure proceedings the mortgagor shall cure the default, the insurance shall continue as if a default had not occurred. The mortgagor shall pay to the agency such expenses as the agency has incurred in connection with the foreclosure proceedings and the agency shall give written notice of reinstatement to the Commissioner.

##### § 250.719 Forbearance relief.

Notwithstanding the provisions of § 250.720 of this subpart, a mortgagor and an agency may enter into an agreement, not inconsistent with any provision of this part other than § 250.720, for the reduction or suspension of regular mortgage payments: *Provided*, That during such period of forbearance, all moneys received from rents or other sources must be applied toward the payment of operating costs, and not dividends.

##### § 250.720 Special forbearance agreement.

(a) In a case where the mortgage is in default, but the mortgagor has made at least 50 percent of its scheduled monthly mortgage payments on a cumulative basis for a period of not less than one year, the mortgagor and the agency may enter into a special forbearance agreement for the reduction of regular mortgage payments for a specified period of time, if the agency determines that the default is due to circumstances beyond the mort-

gagor's control and the mortgage probably will be restored to good standing within a reasonable period of time.

(b) If the mortgagor fails to meet the requirements of a special forbearance agreement entered into under this section or to resume the regular monthly payment required under the mortgage at the expiration of the forbearance period, and such failure continues for a period of 30 days, the agency shall notify the Commissioner of such failure.

(c) A special forbearance agreement entered into under this section shall require the mortgagor to use all moneys received from rents or other sources toward payment of operating costs, and not dividends, during the period in which the advances described in § 250.723 are being made.

#### ADVANCES BY COMMISSIONER TO AGENCY

##### § 250.723 Advance to agency.

(a) The Commissioner may make an advance to an agency which has entered into a special forbearance agreement with a mortgagor pursuant to the provisions of § 250.720.

(b) Terms of advance: (1) The amount of an advance authorized by paragraph (a) of this section, shall not exceed one-half of the short-fall in debt service for a 36-month period (which need not occur consecutively), but in no case shall it exceed 10 percent of the total monthly payments provided for under the mortgage with respect to which the agency has entered into a special forbearance agreement with a mortgagor pursuant to the provisions of § 250.720.

(2) The Commissioner may make quarterly payments of the amount of an advance to an agency authorized by this section and each quarterly payment shall not exceed that amount required to cover, for a 3-month period, 10 percent of the total monthly payments provided for under the mortgage with respect to which the agency has entered into a special forbearance agreement with a mortgagor pursuant to the provisions of § 250.720.

(3) The agency shall execute a note payable to the Commissioner for the amount of each quarterly payment authorized by paragraph (b)(2) of this section which note shall provide for interest at the debenture rate established pursuant to § 250.742.

(4) The note shall also provide that:

(i) If the agency makes a claim for insurance benefits on account of a loss sustained with respect to a mortgage which has been the subject of a special forbearance agreement pursuant to the provisions of § 250.720, the Commissioner will debit that claim by the amount of any advances made on account of that mortgage (pursuant to

this section) which have not been repaid plus the accrued interest.

(ii) If the default in a mortgage is cured, the agency will repay the advance plus interest to the Commissioner over a period of time not to exceed the remaining term of the mortgage.

(iii) Any payments made by a mortgagor under a special forbearance agreement to bring a mortgage which has been the subject of an advance pursuant to this subsection into good standing shall be divided equally between the agency and the Commissioner until that portion of the advance made by the Commissioner is repaid in full.

(iv) If the contract of coinsurance for the mortgage on which the advance was made shall be terminated in accordance with §§ 250.726 through 250.728, the note evidencing such advance shall remain in full force and effect and payable in accordance with its terms.

#### TERMINATION

##### § 250.726 Termination of coinsurance contract.

The contract of coinsurance for each individual mortgage shall be terminated if:

(a) The mortgage is paid in full prior to its maturity;

(b) The agency acquires the mortgaged property and notifies the Commissioner that no claim for insurance benefits will be made;

(c) After completion of foreclosure the property is redeemed;

(d) The property is bid in and acquired at foreclosure sale by a party other than the agency; or

(e) The mortgagor and agency jointly request termination.

##### § 250.727 Notice and date of termination by Commissioner.

The Commissioner shall notify the agency that the contract of coinsurance on a mortgage has been terminated and the effective termination date. The termination date shall be the last day of the month in which any one of the following events occurs:

(a) The date foreclosure proceedings were instituted, or the property was otherwise acquired by the agency, if the agency notifies the Commissioner that no claim for insurance benefits will be made;

(b) The date the mortgage was repaid in full;

(c) The date a voluntary termination request is received by the Commissioner.

##### § 250.728 Effect of termination.

Upon termination of the contract of insurance, the obligation to pay any subsequent MIP shall cease and all

rights of the mortgagor and agency shall be terminated.

#### CLAIM PROCEDURE

##### § 250.730 Acquisition of property.

At any time after the default of the mortgage and the determination by the agency to accelerate the total principal amount of the mortgage, the agency, at its election, shall (if no other eligible entity has assumed the obligations of the mortgagor) either (a) commence foreclosure of the mortgage; or (b) acquire possession of and title to the mortgaged property by means other than foreclosure. The agency shall notify the Commissioner of its action at the time it makes its election either to commence foreclosure of the mortgage or acquire possession and title by other means.

##### § 250.731 Deed in lieu of foreclosure.

In lieu of instituting or completing a foreclosure, the agency may acquire the property by voluntary conveyance from the mortgagor. Conveyance of the property by deed in lieu of foreclosure is approved subject to the following requirements:

- (a) The mortgage is in default at the time the deed is executed and delivered;
- (b) The credit instrument is cancelled and surrendered to the mortgagor;
- (c) The mortgage is satisfied of record as a part of the consideration for such conveyance; and
- (d) The deed from the mortgagor contains a covenant which warrants against the acts of the grantor and all claiming by, through, or under him and conveys good marketable title.

##### § 250.732 Notice to Commissioner.

At the time the agency acquires title to the property, it shall give written notice to the Commissioner of its intention with respect to the filing of a claim for insurance benefits.

#### PAYMENT OF INSURANCE BENEFITS

##### § 250.734 Method of payment.

Payment of all insurance claims shall be made in cash unless the agency files a written request for payment in debentures.

##### § 250.738 Amount of payment.

(a) Upon acquisition of title to a property securing a defaulted mortgage in accordance with § 250.730, the agency shall be entitled to file a claim for the initial payment of insurance benefits. Such payment shall be in an amount equal to the product of the coinsurance factor multiplied by 75 percent of the difference between the unpaid principal balance of the mortgage on the date of the institution of

foreclosure proceedings or on the date of acquisition of the property otherwise after default and the appraised value of the property obtained in accordance with § 250.739(a). The coinsurance factor shall be equal to the percentage of total coinsurance loss which the Commissioner is obligated to absorb, pursuant to the application for insurance endorsement and the schedule of coinsurance coverage and applicable premiums set forth in § 250.705.

(b) Upon disposition of the property or upon the expiration of 12 months from the date of acquisition of the property, whichever occurs earlier, the agency shall file a claim for the final payment of insurance benefits. Such payment shall be in an amount which, when added algebraically to the amount of initial payment computed pursuant to § 250.738(a), will equal the total amount of insurance benefits computed pursuant to § 250.738(d). If the total benefits exceed the initial payment, the Commissioner will make a payment to the agency for the difference. If the initial payment exceeds the total benefits, the Commissioner will bill the agency for the difference. If the initial payment equals the total benefits, neither a payment nor a bill will be sent to the agency.

(c) The base amount for the computation of total insurance benefits shall be the sum of the unpaid principal balance of the mortgage on the date of institution of foreclosure proceedings or on the date of acquisition of the property otherwise after default, plus the sum of all of the items set forth at § 250.740, less the sum of all of the items set forth at § 250.741.

(d) The total amount of insurance benefits shall be equal to the product of the coinsurance factor cited at § 250.738(a) multiplied by the base amount computed pursuant to § 250.738(c), such product to be reduced by any balance of principal or interest due on a note from the agency to the Commissioner for advances made to the agency on a defaulted mortgage pursuant to § 250.723(b)(4)(i). In no case, however, may the total amount of insurance benefits exceed the Commissioner's share of coinsurance liability times the outstanding principal balance at the time of default.

##### § 250.739 Disposition of property.

(a) Upon the acquisition of title to the property securing a defaulted mortgage in accordance with § 250.730, the agency shall obtain an appraisal of the property by an independent appraiser selected by the agency and approved by the Commissioner. The appraisal shall reflect the market value of the property, as of the date of ac-

quisition, for use for the market originally intended.

(b) After the agency sells the property, or after the expiration of 12 months, whichever occurs earlier, the agency shall file a claim for the final payment of insurance benefits, pursuant to § 250.738(b).

(c) Upon making a claim to the Commissioner for the final payment of the insurance benefits, the agency shall notify the Commissioner, on an approved form, of the sale of the property, the purchase price, and income and expenses incurred in connection with the acquisition, repair, operation and sale of the property, and shall assign to the Commissioner, without recourse on warranty, any and all claims (other than the mortgage financing such sale) which the agency has acquired in connection with the transaction.

(d) If disposition of the property has not occurred by the date of the agency's claim for final payment, the agency shall utilize, in preparing such claim, the appraised value of the property obtained pursuant to § 250.739(a), in lieu of the net sale proceeds required by § 250.741(f).

##### § 250.740 Items added to principal in computing claim payment.

The sum of the following items shall be added to the unpaid mortgage principal in computing the base amount for the computation of insurance benefits, pursuant to § 250.738(c):

(a) The amount of all payments made by the agency for taxes, special assessments and water rates which are liens prior to the mortgage; for fire and hazard insurance on the property; and for any mortgage insurance premiums paid after default;

(b) An amount equivalent to debenture interest at the rate established pursuant to § 250.742 on the principal of the mortgage unpaid on the date of the institution of foreclosure proceedings or on the date of the acquisition of the property otherwise after default, from the date of default to the date of acquisition of title; except that debenture interest shall not be payable for any period for which the agency receives mortgage interest during a forbearance agreement as provided in paragraph (c) of this section;

(c) The amount of the unpaid mortgage interest computed from the date of default to the date of acquisition of title in those cases where a forbearance agreement in accordance with § 250.719 has been executed;

(d) An amount equivalent to mortgage interest on the difference between the principal of the mortgage unpaid on the date of institution of foreclosure proceedings or on the date of acquisition of the property otherwise after default, and the amount in-

cluded in the initial payment of insurance benefits made pursuant to § 250.738(a), from the date of acquisition of the property to the date of final payment of insurance benefits.

(e) Foreclosure costs or costs of acquiring the property otherwise actually paid by the agency and approved by the Commissioner, in an amount not in excess of two-thirds of such costs;

(f) Reasonable payments made by the agency for:

- (1) Preservation, operation, and maintenance of the property;
- (2) Repairs necessary to meet the objectives of the HUD Minimum Property Standards, those required by local law, and such additional repairs as may be specifically approved in advance by the Commissioner;
- (3) Expenses in connection with the sale of the property.

##### § 250.741 Items deducted from principal in computing claim payment.

The sum of the following items shall be deducted from the unpaid mortgage principal in computing the base amount for the computation of insurance benefits, pursuant to § 250.738(c):

(a) All amounts received by the agency on account of the mortgage after the institution of foreclosure proceedings or the acquisition of the property by direct conveyance or otherwise after default.

(b) All cash held by the agency or its agents or to which it is entitled, including deposits made for the account of the mortgagor.

(c) All funds held by the agency for the account of the mortgagor received pursuant to any other agreement.

(d) The amount of any undrawn balance under a letter of credit accepted by the agency in lieu of a cash deposit for an escrow agreement.

(e) Any net income received by the agency from the property securing the mortgage after the date of default.

(f) The net proceeds from the sale of the project, except that if the agency sells the project for an amount less than the appraised value on a negoti-

ated sale the amount to be deducted will be the appraised value. If the property is sold on the basis of a competitive bidding procedure approved by the Commissioner, the net sale proceeds will be deducted notwithstanding that it is lower than the appraised value. If the property has not been disposed of within 12 months from the date of acquisition, the agency shall substitute the appraised value of the property for the net sale proceeds in preparing the claim for final payment of insurance benefits, pursuant to § 250.739(d).

##### § 250.742 Debentures.

All of the provisions of § 207.259(e) of this chapter shall apply to mortgages coinsured under this subpart.

#### AMENDMENTS

##### § 250.743 Effect of amendments.

The regulations in this subpart may be amended by the Commissioner at any time and from time to time, in whole or in part, but such amendment shall not adversely affect the interests of an agency under the contract of coinsurance on any mortgage already coinsured and shall not adversely affect the interest of an agency on any mortgage to be coinsured on which the Commissioner has made a commitment to insure.

(Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., October 31, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing,  
Federal Housing Commissioner.

## CHAPTER VIII—LOW-INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R78-469]

### PART 882—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—EXISTING HOUSING

#### Miscellaneous Amendments

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: HUD is issuing a final rule with respect to miscellaneous amendments to the Section 8 Housing Assistance Payments Program—Existing Housing. This rule simplifies certain administrative procedures, increases operating flexibility, clarifies program provisions, and:

- (1) Establishes Independent Group Residences as an eligible type of housing for elderly, handicapped and disabled individuals residing in group residences where supportive services are provided; and
- (2) Encourages owner participation by revising the security deposit policies and deleting 2 program forms.

EFFECTIVE DATE: January 29, 1979.

SUPPLEMENTARY INFORMATION: On July 6 (42 FR 34652 and 34656) and October 21, 1977 (42 FR 56292), proposed and interim revisions to the Section 8 Existing Housing Program regulations, 24 CFR Part 882, were published in the FEDERAL REGISTER for public comment. Interested parties were given until August 5, 1977 and November 21, 1977, respectively, to submit written comments on the July 6 and October 21 publications. By the end of the comment period, 13 comments were received concerning the July 6, 1977 proposed rule, 5 comments were received in response to the July 6, 1977 interim rule, and 98 comments were received in response to the October 21, 1977 proposed rule. All comments were carefully considered, and changes have been made to the proposed and interim regulations

based on these comments. A discussion of the principal changes and of the more recurrent and significant comments is set forth below.

PROPOSED RULE PUBLISHED JULY 6, 1977

One comment was received concerning the use of Recently Completed Housing rents for conversion of Section 23 projects (Section 882.101) which suggested that to facilitate conversions, Recently Completed Housing rents should be allowed regardless of the age of the building. The Department is now preparing new regulations for conversions which will address this issue and other policy issues surrounding the conversion of Section 23 projects to the Section 8 program. Accordingly, this comment is not being accepted. However, the proposed change to § 882.101(b)(7) is being adopted to clarify that the phrase "prior to the leasing thereof" means "prior to the leasing thereof under this Part."

These final rules adopt without change the proposed (1) revision of the definition of Congregate Housing to refer to the Housing Quality Standards for Congregate Housing, (2) addition of a sentence to § 882.107(b) to make it clear that the owner and family determine the term of the lease, and (3) addition of housing discrimination complaint forms to the Certificate holder's packet in § 882.209(b)(5). No comments were received on these matters.

Although no comments were received objecting to the proposed revision of § 882.108, "Rent Adjustments," which emphasized the applicability of the rent reasonableness limitation, the Department has determined to establish a uniform method of adjusting Section 8 Contract Rents. Therefore, the final rule requires that for Housing Assistance Payments Contracts entered into after the effective date of this final rule, annual adjustments to Contract Rents will be based on the most recently published Section 8 Annual Adjustment Factors (24 CFR 888). Different Adjustment Factor schedules will be provided for twenty-three Standard Metropolitan Statistical Areas and for four Census Regions on the basis of changes in the Consumer Price Index for rents and utilities.

For Housing Assistance Payments Contracts entered into prior to the effective date of this final rule, annual adjustments may continue to be based on the percentage of change in the applicable published Fair Market Rents (with an appropriate reduction in the adjustment where utilities are paid directly by the family). However, for such Contracts, it is expected that Public Housing Agencies (PHAs) will use the published Section 8 Annual

Adjustment Factors as a guide in determining the reasonableness of owner's Contract Rents and the schedule of allowances for utilities and other services for tenant-paid utilities.

The new method of adjusting Contract Rents will be simpler for PHAs to administer since it will not be necessary to calculate the percentage change between applicable Fair Market Rent schedules, and further, the data used to update the Fair Market Rents and establish the Annual Adjustment Factors is generally the same. The final rule also emphasizes that annual adjustments are still subject to the rent reasonableness and Fair Market Rent limitations.

The revisions proposed to §§ 882.109(m) and 882.112(a) concerning Congregate Housing and security deposits will be addressed in the discussion of the October 21, 1977 proposed regulations below. The changes proposed to § 882.120 have been revised to provide that the rent adjustments for Recently Completed Housing are also based on the Section 8 Annual Adjustment Factors (24 CFR Part 888) and that all adjustments are subject to the Fair Market Rent limitations and rent reasonableness test.

A comment on the proposed § 882.205(b) stated that the language was not specific enough on multi-jurisdictional applications concerning which chief executive officers should be given the opportunity to comment. We have retained the original language which we believe to be sufficiently specific since it clearly states that the chief executive officers of "localities which are identified as primary areas from which families to be assisted will be drawn" are sent notifications. For example, where assistance to several counties is involved, not only the chief executive officers of the counties but of each jurisdiction within the counties, which is identified as a primary area on the application, will be notified of the application and given the opportunity to comment.

Several comments were received on the proposed revisions to § 882.209(a). Most comments suggested that we allow the PHA the flexibility of issuing either a 0-bedroom or 1-bedroom Certificate to elderly or handicapped individuals rather than requiring that a 0-bedroom Certificate be issued unless the PHA's program has no 0-bedroom units. We have determined that it is in the best interest of the government to provide the minimum subsidy necessary to house individuals adequately. Since the program does not provide for other family sizes to receive assistance for housing larger than necessary, it would not be appropriate to provide this additional assistance to single individuals. Since there

is provision for single individuals to receive a 1-bedroom Certificate in § 882.209(a)(2)(iv) if the PHA can document that local circumstances warrant such a variation, we have determined to adopt the proposed language in the final rule with the clarification that a 2-bedroom unit may be approved for an elderly, handicapped or disabled individual planning to live with an unrelated person essential to his or her care or well-being.

INTERIM RULE PUBLISHED JULY 6, 1977

The majority of the changes implemented by this rule deal with the elimination of Appendices I through V. No comments were received objecting to the deletions; therefore, Appendices I through V are deleted and Appendices VI and VII have been renumbered as I and II.

Several comments recommended adoption of the interim amendment to § 882.106(a)(4) which allows HUD field offices to authorize a PHA to approve Gross Rents up to 20 percent above the applicable Fair Market Rents for specific neighborhoods or to meet the unique needs of particular families. The Department has determined to further study the application of this provision and is therefore reserving a final decision on this issue and would take into consideration further public comments. We are publishing § 882.106(a)(4) as part of 24 CFR part 882; however, this publication does not affect its interim status.

No comments were received objecting to the elimination of the HUD form for lease approval and disapproval and we are, therefore adopting the interim rule revising § 882.210 as a final rule. Additionally, we are eliminating the requirement that the notification of lease approval be retained in the tenant file since a copy of the approved lease and Housing Assistance Payments Contract should suffice to indicate that the lease was approved.

PROPOSED RULE PUBLISHED OCTOBER 21, 1977; INDEPENDENT GROUP RESIDENCE DEFINITION

Several comments and suggestions were received with respect to the definition of Independent Group Residence in § 882.102. This definition has been revised and reorganized to include language which was contained in § 882.110(b)(1) of the proposed regulations concerning these Residences.

Several comments asked why publicly owned housing could not be utilized as an Independent Group Residence since some units of local government have purchased housing for this purpose. Another comment requested clarification as to whether or not all residents of an Independent Group Residence had to be Section 8 recipients. Numerous comments were also

received with respect to the maximum number of individuals residing in an Independent Group Residence. It was suggested that a maximum of sixteen individuals was too restrictive and would exclude use of dormitories and hotels. Other comments noted that a number smaller than sixteen would be preferable although the proposed limitation did allow flexibility. In addition, several respondents incorrectly interpreted this restriction to apply to the number of people in an apartment complex or building rather than in the unit.

In response to these comments the definition of Independent Group Residence has been revised to delete the requirement of this type of housing be privately owned, and to restrict occupancy in a unit to groups of two to twelve individuals, not including Resident Assistant(s). The Department has determined that a limitation on the number of occupants is necessary and consistent with the objectives of deinstitutionalization of the elderly, handicapped and disabled requiring supportive services into community based residential settings. Since publication of the proposed regulations, the Department has determined that group homes for the handicapped constructed under Section 202 of the Housing Act of 1959 should not accommodate more than twelve residents, and these amendments to Part 882 are being conformed accordingly. In addition, a unit must house at least two occupants, not including Resident Assistant(s), to be considered an Independent Group Residence for purposes of this program.

The general exclusion of dormitories, hotels and rooming houses is intentional since facilities of this type are generally large enough to be institutional in nature and not representative of typical residential housing available in a community which is intended to be used for this aspect of the Section 8 program. Independent Group Residences are intended to provide a housing alternative to institutional care for handicapped and disabled persons who can reasonably be expected to advance to greater levels of independent living, and to provide suitable housing for the elderly who cannot live completely independent and would benefit from group interaction, but do not require the services typically provided in nursing homes.

The definition of Independent Group Residence has also been amended to allow elderly, handicapped, or disabled individuals not eligible for or not receiving Section 8 assistance to reside in the unit. This change will allow Certificate holders to reside in group homes which meet the program requirements for Independent Group Residences but which

also have occupants not receiving Section 8 assistance. It will also allow an elderly, handicapped, or disabled person not receiving Section 8 assistance to move into a unit which qualifies as an Independent Group Residence when a vacancy occurs. The proposed definition has also been revised by deleting the specific discussion of supportive services now covered in § 882.109(n)(6), "Housing Quality Standards."

#### RESIDENT ASSISTANT

Several comments concerning the definition of Resident Assistant in Section 882.102 reflected a need to clarify what the responsibilities of the Resident Assistant are and whether a Resident Assistant is required in each Independent Group Residence. A few comments also questioned why the Resident Assistant could not be related by blood, marriage, or operation of law to the individual receiving Section 8 assistance.

The definition of Resident Assistant has been clarified to indicate that this individual lives in the Independent Group Residence and provides, on a daily basis, some or all of the types of supportive services listed in § 882.109(n)(6). However, the Housing Quality Standards for an Independent Group Residence do not require a live-in Resident Assistant, and similar to the concept of a Resident Manager, the term Resident Assistant only applies to individuals who live in the Independent Group Residences. It is acceptable for an Independent Group Residence not to have a live-in Resident Assistant.

With respect to the prohibition that the Resident Assistant not be related to the Section 8 recipients, the Department has determined that it would be in the public's best interest not to change this provision since it prevents potential program abuses resulting from providing rent free housing to ineligible family members subsidized in effect by the assisted family member. If a family member can provide the necessary supportive services to a handicapped or disabled person and the income of that family is within the income limits, that family may receive Section 8 subsidy as a family without being housed in an Independent Group Residence. Such an arrangement would be preferable to housing the family in an Independent Group Residence since the income of all family members would then be considered in establishing eligibility and the rent.

The proposed provisions regarding the income of the Resident Assistant and computation of the individual's contribution toward the rent have been moved to § 882.106(c), "Contract Rents."

## SERVICE AGENCY

There were several comments regarding the proposed definition of Service Agency which provided that this organization determine and monitor the supportive service needs of occupants of Independent Group Residences. Several comments recommended that Service Agencies not be permitted to monitor the supportive services which they provide, and asked for clarification as to whether PHAs could function as Service Agencies, and whether Service Agencies could own or sublease an Independent Group Residence. Comments also recommended that the Service Agency be approved and monitored by an appropriate department of the State, such as the Department of Human Resources or Department of Mental Health and Mental Retardation, rather than by the PHA, and that a written contract with respect to the services be required between the PHA and the Service Agency.

The definition of Service Agency in § 882.102 has been revised accordingly to clarify that a Service Agency may own or sublease an Independent Group Residence. The PHA administering the Housing Assistance Payments Contract is prohibited from providing management or supportive services in § 882.117, "Responsibilities of the Owner." It is anticipated, however, that this section will soon be revised to permit PHA management responsibilities under certain circumstances. In addition, the proposed regulations have been revised to require that the State, rather than the PHA, determine that the Service Agency is qualified and to clarify that the Service Agency may perform direct outreach to potential residents of Independent Group Residences and assist these individuals in applying for housing assistance.

The recommendation for a written contract has also been accepted; § 882.210(f), "Request for Lease Approval," and § 882.109(n), "Housing Quality Standards," have been revised to require that the lease incorporate by reference the supportive services to be provided in accordance with the written Service Agreement provided by the State between the Owner and the Service Agency and/or other entities providing these services. If the Service Agency and/or other entity is providing services and also acting as lessor, a separate Service Agreement is not necessary and the supportive services to be provided will be incorporated into the lease and the services provisions will be approved by the State. In addition, Service Agencies are prohibited from monitoring services which they provide pursuant to § 882.109(n)(6). The State and PHA do the monitoring.

## RULES AND REGULATIONS

The Department recognizes the inherent difficulties in providing "continuous supportive services" over extended time periods. To address this situation, PHAs are strongly encouraged to provide support and incentives to ensure the continued stable operation of individual Independent Group Residences. Such support may include:

1. Subcontracting with Service Agencies for outreach activities to owners and eligible individuals in locating appropriate applicants and dwellings for Independent Group Residences. This may involve the PHA paying for such services from funds received as preliminary fees for administration, and
2. Providing assistance to Service Agencies in locating and obtaining support services or providing administrative support as appropriate.

## FINDERS KEEPERS POLICY AND MOBILITY

Several comments were also received regarding the advantages and disadvantages of providing the subsidy to the Independent Group Residence or to the Section 8 recipient. Consistent with the Section 8 Existing Housing Program's "finder-keepers" policy which allows Certificate Holders to select the housing unit of their choice, we are retaining the provision in § 882.103, "Finders-Keepers Policy," which will provide the subsidy to the individual. In this way, an individual will be able to leave the Independent Group Residence whenever he or she chooses to move to another unit, such as a unit where supportive services are not provided or to an Independent Group Residence providing less supervision.

To allow mobility, § 882.209, "Certificates of Family Participation," is being revised to require that the PHA issue a 0-bedroom Certificate for each individual who wishes to reside in an Independent Group Residence, and that separate leases and Housing Assistance Payments Contracts also be executed for each such individual. Since mobility opportunities for individuals in Independent Group Residences may create problems in operating Group Residences, §§ 882.102 and 882.106(c) have also been revised to allow individuals not receiving Section 8 assistance to reside in Independent Group Residences to minimize the financial impact of Section 8 recipients moving and the need for relocation of the remaining members of the group in accordance with § 882.213, "Overcrowded or Under Occupied Units." In addition, § 882.209, "Certificates of Family Participation," of the final rule requires that if a Section 8 recipient moves from an Independent Group Residence, PHAs must give a preference in issuing a Certificate to an applicant who has indicated the

desire to reside in an Independent Group Residence. Use of this preference is subject to the availability of funds for an appropriately sized unit, and the Certificate holder does not have to move into an Independent Group Residence in which a vacancy has occurred. Although this change does not guarantee that a new Section 8 Certificate holder will replace the Section 8 recipient who moved, it does address the concerns expressed by both sponsors and potential providers of support services about the viability of Independent Group Residences. This issue is discussed in more detail in the Section of the Preamble entitled "Overcrowded or Under Occupied Units."

## FAIR MARKET RENTS

A large number of comments were received in response to the Fair Market Rent schedule applicable to Independent Group Residences which was contained in § 882.110 of the proposed regulations. Numerous comments objected that the proposed regulation would encourage Independent Group Residences consisting of seven or more bedrooms since substantially higher rents were allowed for these larger units. It was suggested that the rents applicable to efficiency or 1-bedroom units should be allowed for each individual or each bedroom in an Independent Group Residence, regardless of size.

Several comments were also received suggesting that the cost of supportive services should be included in the rent and thus funded through Section 8 housing assistance. In contrast, a few comments supported the restriction that housing funds could not be used to subsidize social service programs since such use would be short-lived, cause problems in responsibility and accountability, and would defeat long-term strategies of cooperation between housing and service agencies.

Two additional comments noted that based on an eligible individual's income from Supplemental Security Income (SSI) benefits, ten to twelve individuals residing in a 6-bedroom Independent Group Residence in certain localities would not receive any housing subsidies since their collective contribution towards the rent would exceed the maximum Fair Market Rent allowable. This may also occur in group homes housing two individuals in each bedroom in localities where the SSI payments are supplemented by the State and/or the housing costs are relatively inexpensive. In such cases, since the individuals can afford the rent collectively without subsidy, with each individual contributing up to 25 percent of his or her income toward the rent, there is no need for subsidizing their rent.

The Fair Market Rents for the Section 8 Existing Program represent the rents necessary to lease privately-owned existing, standard rental housing of a non-luxury nature. This program is not intended to provide the rents necessary to purchase, construct, or extensively rehabilitate housing, and leasing of Independent Group Residences will depend on the availability of rental apartments and single-family homes of appropriate size and quality within the Fair Market Rent limitations.

Although the Department recognizes that all or some of the types of supportive services listed in § 882.109(n)(6) may be necessary and required in Independent Group Residences, it is not considered appropriate to fund such services with Section 8 housing assistance payments. The regulations, therefore, retain the requirement that the Fair Market Rents be based on the unit size, i.e., the number of bedrooms within the unit, including one bedroom for a live-in Resident Assistant(s). To provide a 0-bedroom rent per individual or per bedroom would result in rents which would be excessive for the housing provided and would, therefore, result in the funding of services for residents. It is possible, however, for Area Offices to approve Gross Rents of up to 20 percent above the published Fair Market Rents on a case-by-case basis to meet the unique housing needs of specific individuals. If such an approval is authorized based on the needs of one or more individuals, a Gross Rent up to 20 percent above the applicable published Fair Market Rent may be approved by the PHA for an Independent Group Residence. It is anticipated that this allowable increase will be sufficient to cover any increased maintenance or management expenses associated with Independent Group Residences.

In addition, we have eliminated the different Fair Market Rent calculation systems for units of seven or more bedrooms, and Fair Market Rents for 7-bedroom units and larger will be established.

The provisions regarding Fair Market Rents have been transferred to § 882.106(c), "Contract Rents," and provides that each individual be issued a 0-bedroom Certificate and that the housing assistance payment on his or her behalf be based on a prorata share of the Gross Rent for the unit which must be within the Fair Market Rent limitations for the unit size. To determine the portion of the Gross Rent to be allocated to each individual receiving Section 8 assistance, the Gross Rent is divided by the total number of occupants in the Independent Group Residence other than the Resident

Assistant(s), if any, who occupies no more than 1-bedroom.

The Department realizes that the available local and federal funding resources for supportive services in Independent Group Residences are limited. However, HUD's role with respect to subsidized housing has traditionally been to provide decent, safe and sanitary housing to lower income families at a rent they can afford. If supportive services were to be included as a rental cost, the number of units which could be assisted under the Section 8 program would be reduced. We, therefore, do not consider it feasible or appropriate to fund services within the limited Section 8 resources. We are, however, initiating discussions with the Department of Health, Education and Welfare concerning possible funding sources for supportive services.

## CONGREGATE HOUSING

Several comments were received concerning the proposed Housing Quality Standards for Congregate Housing. Concern was expressed that the refrigerator, central dining, and bathroom requirements were too restrictive. It was recommended that the regulations be revised to allow two units to share a bathroom; to permit the central dining facility to be located in the apartment complex rather than in each building, and not be restricted to the exclusive use of the residents since this would prohibit operating meal programs under Title VII of the Older Americans Act; and to delete the requirement that a refrigerator be provided in each unit if three meals a day are provided or the residents have access to an adequate number of community refrigerators.

Section 882.109(m) which contains the Housing Quality Standards for Congregate Housing has been revised to allow the central dining facility to be located within the building or housing complex and to require that the central dining facility be for the primary use of the residents and of sufficient size to accommodate the residents. The requirements that each unit contain a bathroom and refrigerator have not been deleted since generally congregate units are self-contained apartments with a limited kitchen area and from one to three meals a day are prepared and served in a central dining facility. An individual refrigerator in each unit is desirable so residents can prepare meals and/or snacks and refrigerate medicines, if necessary, and perishable food items. Since congregate units most closely resemble efficiencies and 1-bedroom units, these Fair Market Rents are applicable to congregate housing. By removing the refrigerator and bathroom requirements, you would no longer have individual apartments but rather

a group home arrangement which is covered by Independent Group Residences.

## INDEPENDENT GROUP RESIDENCE HOUSING QUALITY STANDARDS

Concerning the physical requirements for Independent Group Residences, several comments were received as follows: (1) There is no need to post an emergency exit plan and fire inspection schedule; (2) Independent Group Residences should be in community based residential settings, similar in size and appearance to housing generally found in the neighborhood, and accessible to amenities and supportive services; (3) Independent Group Residences should contain adequate social and/or recreational space; (4) it should be clarified that the living room, bathroom, etc., must be in the unit rather than just accessible; (5) counseling services should be included in the list of supportive services; (6) it should be clarified that all of the listed supportive service examples are not mandatory; (7) occupancy should not be restricted to a maximum of two persons per bedroom; (8) limitation of one bathroom for four persons will eliminate use of dormitories and some houses; (9) controls should be developed to prevent an overconcentration of Independent Group Residences in any particular block or neighborhood; (10) all Independent Group Residences should be accessible to the handicapped regardless of whether there are any immediate plans to house handicapped individuals; and (11) the requirement of a continual planned program of supportive services should be clarified or deleted.

The recommendations described in comments 1-6 are being incorporated into the regulations in § 882.109(n), "Housing Quality Standards." The Department does not agree that more than two persons should be permitted to share a bedroom; this limitation applies to all HUD rental housing programs. With respect to the one to four ratio of sanitary facilities to occupants, the proposed standard is intended to make available an adequate number of facilities which can be used in privacy. Since only three comments indicated this requirement might pose a problem concerning available housing stock and one comment recommended that only two persons be allowed to share sanitary facilities, the Department has decided not to change this requirement.

With respect to developing controls preventing an overconcentration of Independent Group Residences in any one area, the Department agrees in principle with this recommendation, yet feels the program design encourages scattered site housing and implementation of this recommendation

could adversely restrict an individual's choice of housing. Similarly, the Department has not accepted the recommendation that all Independent Group Residences, regardless of whether the occupants are physically handicapped, be accessible to the handicapped. However, physical accessibility is a requirement when appropriate to the needs of the occupants. Implementation of this requirement for all Independent Group Residences would severely restrict the existing housing supply available and suitable to be used for this purpose by elderly, disabled and handicapped individuals who do not need any physical modifications to the unit.

With respect to comments concerning the need for a continual planned program of supportive services, the Independent Group Residences regulations were developed to allow eligible individuals who require a supervised group living environment to receive Section 8 assistance. Elderly, handicapped, and disabled individuals capable of living independently without supportive services are eligible for the Section 8 program and do participate in large numbers. The Department, however, believes it is essential that, if supportive services are required, high quality services appropriate to the needs of the Section 8 recipients be in fact provided. Therefore, the need for and provision of a planned program of continual services is the primary characteristic of Independent Group Residences, and special regulation provisions have been developed to allow these individuals to participate in the Section 8 program in a group situation and still be determined financially eligible on an individual basis.

#### LICENSING

Numerous comments were received with respect to the proposed requirement in § 882.109(n), "Housing Quality Standards," that Independent Group Residences be licensed by the State, or local agencies created by the State, to establish, maintain, and enforce appropriate standards. Comments expressed the concern that not all States have licensing agencies for group homes and it was recommended that Independent Group Residences be (1) licensed, or certified, as required by State law; (2) approved by the PHA or Service Agency at least on a temporary basis; (3) licensed, certified or otherwise approved by the State; or (4) licensed, regulated or operated by the State, or operated by a vendor under contract with the State. Another comment recommended that the Service Agency be licensed or authorized by licensing agencies.

The proposed regulations have been revised to require that Independent Group Residences be licensed, certi-

fied or otherwise approved in writing by the State. The Department believes it is essential that the type, frequency and the quality of services be monitored on a continual basis to ensure that residents of Independent Group Residences have a suitable living environment, and further feels that State approval is the most appropriate quality monitoring mechanism. It is anticipated that States will utilize standards similar to those which are required as a result of 45 CFR Parts 228 and 229 (Social Services Programs for Individuals and Families, Title XX and Standard Setting Requirements for Medical and Nonmedical Facilities Where SSI Recipients Reside) which implement Public Law 94-556 and which were published on January 31, 1978 by the Department of Health, Education and Welfare. Section 229.10 of these regulations requires States "to designate one or more State or local authorities to establish and enforce standards for non-medical, residential facilities where significant numbers of SSI recipients reside or are likely to reside."

#### SECURITY DEPOSIT

Several comments suggested that the maximum allowable security deposit be increased to one month's Contract Rent or the amount normally collected by the owner so that this aspect of the program would conform with private market practices. It was further suggested that, as the option of the family, the PHA be allowed to advance a portion of the security deposit to the owner and then collect this amount from the family in affordable installments. This procedure would reduce the PHA's involvement in determining the amount of reimbursement to an owner for unpaid rent or damages when the family vacates the unit since the full security deposit would have been paid.

Other comments recommended that (1) the \$50 minimum be increased to at least \$100; (2) the security deposit be a flat amount such as \$50 to simplify the bookkeeping requirements of PHA's and owners; (3) the security deposit be limited to the amount the owner currently charges; (4) the current security deposit provision not be revised at all; (5) a \$50 minimum is unfair since it applies only to families with the lowest incomes; (6) the proposed provision may be in conflict with State law; for example, in Connecticut the owner may not collect an amount in excess of twice the tenant's monthly rent; and (7) it is unfair to allow families leasing in-place to pay higher security deposits than those families moving to a new unit. In addition, several comments supported the adoption of the proposed security deposit provision without change.

Although the Department recognizes that allowing a security deposit in an amount up to one month's Contract Rent could encourage increased owner participation, this recommendation has not been adopted since it could have the effect of excluding very low-income families from participating in the program due to a lack of funds. Additionally, any PHA advance payment system would require PHAs to maintain a bookkeeping and collection system which is not now required and would be unacceptable to many PHAs.

The provision for a \$50 minimum security deposit for new leases has been retained in Section 882.112, "Security and Utility Deposits." However, this provision has been clarified to state that the owner does not have to collect a security deposit and that the maximum amount which can be collected from the family is the higher of \$50 or one month's Gross Family contribution provided that this amount does not exceed the maximum amount allowed by State or local law. The regulations do not prohibit the owner from collecting an amount less than \$50 or one month's Gross Family contribution if desired. However, owners may find that families do not take as good care of their units where they have no financial reason to do so. The recommendation that families leasing in-place not be excepted from the maximum security deposit provision has not been accepted since the partial refunding of security deposits has been found by PHAs to be a disincentive for owner participation; families voluntarily paid the requested amount previously; and this provision will not impose a financial hardship. In addition, the recommendation for a flat fee security deposit has not been adopted since the Gross Family contribution may exceed this amount and many owners would prefer to collect the higher amount so that families will have a greater interest to maintain the unit in good condition.

#### USE OF UNIT INSPECTION BOOKLET BY FAMILY AND OWNERS

One comment recommended that the family continue to be required to use the inspection booklet since this process helped eliminate unacceptable units and placed a desirable responsibility on the Certificate holder. Three comments supported the deletion of this requirement. Based on these comments the Department is adopting the change as published for comment in §§ 882.209(b)(4) and 882.210(a)(2). The family still must be advised of the Housing Quality Standards to be used in selecting a unit during the briefing session, and the PHA may continue to provide the family with an inspection form. This regulation change only de-

letes the requirement that the family and owner certify on a HUD form that the unit meets the physical standards of the program.

#### OVERCROWDED OR UNDER OCCUPIED UNITS

Several comments objected to the proposed revision to Section 882.213 requiring a family to relocate to a smaller unit, in accordance with the lease terms and with the assistance of the PHA, if the family size was reduced to the extent that they were in a unit larger than appropriate and the Gross Rent exceeds the Fair Market Rent for the unit size appropriate for the family size. It was pointed out that in an Independent Group Residence it could be anticipated that individuals would move to a more independent living environment or be hospitalized, and the remaining members of the group would then also have to move since they would under occupy the unit. Another comment expressed concern that the PHA could terminate assistance without due process if the family rejected a replacement unit without good reason.

The requirement that a family be required to move when a change in family composition results in the remaining members of the family occupying a unit larger than appropriate and the Gross Rent exceeds the Fair Market Rent for the unit size appropriate for the family has been retained since without this requirement a family would receive excessive rental subsidies. The regulations have been revised to clarify that the PHA shall issue such a family a new Certificate and that termination of assistance will occur only when this Certificate has expired and the PHA has assisted the family in locating a suitable replacement unit which the PHA judges to be acceptable.

With respect to Independent Group Residences, the Department feels that the changes made to § 882.102, "Definition of Independent Group Residence," § 882.106, "Contract Rents," and § 882.209, "Certificates of Family Participation," will prevent the noted problems since individuals will be issued separate Certificates and execute separate leases; there will be a separate HAP Contract for each individual; vacancies can be marketed to other individuals whether or not they are to receive Section 8 assistance; and the PHA will give a preference in issuing Certificates to possible replacement individuals. In addition, every change in composition of the members occupying an Independent Group Residence will not necessitate a move to a different sized unit. For example, if eight Section 8 recipients occupy a 4-bedroom unit, it would be permissible under the program's occupancy

standards for up to four individuals to vacate the unit and the other four individuals to remain in the unit occupying a private bedroom each. However, if five individuals were to vacate this 4-bedroom unit, the remaining three individuals may have to move to a smaller unit unless a suitable replacement tenant, who may or may not receive Section 8 assistance, can be located by the Service Agency or the PHA who will make the vacancy known to eligible Certificate holders. This move would be necessary if a replacement tenant does not move in and if (1) the Fair Market Rent for a 3-bedroom unit (the maximum size unit 3 persons are eligible for) is less than the Gross Rent currently being charged for the 4-bedroom unit; (2) the leases can be terminated in accordance with their terms; and (3) the remaining members of the group have found a suitable replacement unit with the assistance of the PHA. It is therefore anticipated that this provision of the regulations rarely will have an adverse effect on the residents of an Independent Group Residence.

Other changes to and comments on the proposed regulations are as follows:

1. Section 882.102, "Definition": (1) the illustrative description of supportive services is being deleted from the definition of Independent Group Residences and moved to § 882.109, "Housing Quality Standards"; (2) information with respect to the unit size, Certificates, Gross Family Contribution, Leases and Contracts is being deleted from the definition of Resident Assistant and moved to § 882.106, "Contract Rents"; and (3) definitions of Unit and Service Agreement are being added.

2. Section 882.110, "Types of Housing": (1) typographical errors are being corrected with respect to the term Independent Group Residences; (2) requirements concerning the physical and mental capabilities of residents of an Independent Group Residence are being moved to § 882.102; (3) facilities providing continual psychiatric services are being added as an example of ineligible types of housing; (4) the Fair Market Rent information for Congregate Housing and Independent Group Residences is being moved to § 882.106, "Contract Rents"; and (5) Congregate Housing is being deleted as an example of the type of housing which can be used as an Independent Group Residence since it is unlikely that 0-bedroom and 1-bedroom units, the typical bedroom sizes in Congregate Housing, could accommodate groups of two to twelve individuals, which is the size group eligible to live in an Independent Group Residence.

3. Several comments were received requesting clarification of program details contained in the sections of the

Section 8 Existing Housing Program regulations not published in the October 21, 1977 proposed rule, or in 24 CFR Part 812, "Definition of Family and Other Related Terms; Occupancy by Single Person" or 24 CFR Part 889, "Determination of Income for Eligibility and Gross Family Contribution." Persons interested in further information on 24 CFR Parts 812, 882, or 889 should contact either the PHA administering the program in their locality or the local HUD field office. However, since most of the questions were raised by organizations interested in developing an Independent Group Residence program, Section 8 program definitions of elderly, handicapped and disabled individuals as set forth to Part 812 are restated here for their information.

**"Elderly family. "Elderly Family"** means a family whose head or spouse or whose sole member is at least sixty-two years of age, or a Disabled Person as defined in this section or a Handicapped Person as defined in this section, and may include two or more elderly, Disabled or Handicapped Persons living together, or one or more such persons living with another person who is determined to be essential to his or her care and well being."

**"Handicapped person. "Handicapped Person"** means a person having a physical or mental impairment which (1) is expected to be of long-continued and indefinite duration, (2) substantially impedes his or her ability to live independently, and (3) is of such a nature that such ability could be improved by more suitable housing conditions."

**"Disabled person. "Disabled Person"** means a person who is under a disability as defined in section 223 of the Social Security Act (42 U.S.C. 423) or in section 102(b)(5) of the Developmental Disabilities Services and Facilities Construction Amendments of 1970 (42 U.S.C. 6001(7))." Section 223 of the Social Security Act defines disability as:

(A) Inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months; or

(B) In the case of an individual who has attained the age of 55 and is blind (within the meaning of "blindness" as defined in section 416(i)(1) of this title), inability by reason of such blindness to engage in substantial gainful activity requiring skills or abilities comparable to those of any gainful activity in which he has previously engaged with some regularity and over a substantial period of time.

Section 102(5) of the Developmental Disabilities Services and Facilities Construction Amendments of 1970 defines disability as: "... a disability attributable to mental retardation, cerebral palsy, epilepsy, or another neurological condition of an individual found by the Secretary (of Health, Education, and Welfare) to be closely related to mental retardation or to require treatment similar to that required for mentally retarded individuals, which disability originates before such individual attains age eighteen, which has continued or can be expected to continue indefinitely, and which constitutes a substantial handicap to such individual."

4. Section 882.105 has been modified to incorporate by reference the provisions of Part 889, Determination of Income for Eligibility and Gross Family Contribution. Part 889 establishes the definition of Annual Income and the formula for computation of Gross Family Contribution. Section 882.114 is being deleted since it is now redundant.

A finding of inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this finding of inapplicability will be available for public inspection during regular business hours at the office of the Rules Docket Clerk, office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Accordingly, Part 882 is revised to read:

##### APPENDICES

- Appendix I—Required lease provisions.  
Appendix II—Prohibited lease provisions.

AUTHORITY: Section 7(d), Department of HUD Act (42 U.S.C. 3535(d)); section 5(b) of the U.S. Housing Act of 1937 (42 U.S.C. 1437c(b)).

##### Subpart A—Applicability, Scope and Basic Policies

###### § 882.101 Applicability and scope.

(a) *General.* (1) The policies and procedures contained herein are applicable to the making of Housing Assistance Payments on Behalf of Eligible Families leasing Existing Housing pursuant to the provisions of section 8 of the U.S. Housing Act of 1937 ("Act"). (2) For the purpose of this Part, "Existing Housing" means housing that is in Decent, Safe, and Sanitary condition except that it does not include housing: (i) Which is covered by an Agreement to Enter into Housing Assistance Payments Contract or by a Housing Assistance Payments Contract under 24 CFR, Part 800, 801, 880, or 881, or (ii) which is owned by the PHA administering the ACC under this Part, or (iii) which is subsidized under other provisions of the Act. Occupancy of housing which requires repairs in order to be made Decent, Safe,

and Sanitary may be assisted under this Part only after such repairs have been made. (See also § 882.210(d)).

(b) *Conversion of Section 23 Housing Projects.* (1) No HUD policy or procedure shall affect prior rights of an owner or tenant under a lease entered into under section 23 of the Act.

(2) PHAs are encouraged to develop plans for the orderly conversion of their section 23 housing to the section 8 program.

(3) Conversions should be accomplished so as to preclude the eviction of families receiving assistance under the section 23 program.

(4) Housing under ACCs implementing the HUD Experimental Housing Allowance Program shall not be subject to the provisions of this paragraph (b).

(5) With respect to section 23 housing other than new construction and substantial rehabilitation:

(i) Where section 23 housing is to be converted to section 8, HUD will, to the extent of available contract authority, approve one section 8 unit for each section 23 unit converted. Where section 23 units are not converted, the following provisions of this paragraph (b)(5) shall apply.

(ii) Any increases in rents and/or operating costs for occupied units must be funded by the elimination of units authorized under the section 23 ACC but not leased; section 23 ACC amounts shall not be increased, except under special circumstances as authorized by HUD.

(iii) No leases for additional units shall be entered into. Lease renewals and extensions may be entered into only with respect to occupied units and units which are to be reoccupied within 30 days, but the terms of such lease renewals may not extend beyond June 30, 1978, except under special circumstances as authorized by HUD, and then only until June 30, 1979.

(6) Section 23 Existing Housing projects for which ACCs were approved, but not executed, by December 31, 1974, shall be converted to section 8 (even if an ACC was executed subsequent to December 31, 1974), unless the PHA notifies HUD that it would prefer to retain the project under section 23. In the latter case, a section 23 ACC shall be executed, but the other provisions of this paragraph (b), shall be applicable, except that for initial leasing the provisions of paragraph (b)(5)(iii) shall not apply.

(7) Any completed (legally available for occupancy) Section 23 new construction or substantial rehabilitation project may be converted to Section 8 under contractual arrangements for such term and on such conditions as may be agreed to by all the parties and approved by HUD. The applicable Fair Market Rents shall be those for

Existing Housing under this part, except that for any unit which was completed or substantially rehabilitated no more than six years prior to the leasing thereof under this Part, the applicable rent shall be determined in accordance with Section 882.120(b).

###### § 882.102 Definitions.

*ACC Reserve Account.* The account established and maintained in accordance with § 882.104.

*Allowance for Utilities and Other Services ("Allowance").* An amount determined by the PHA as an allowance for the cost of utilities (except telephone) and charges for other services payable directly by the Family.

*Annual Contributions Contract ("ACC").* A written agreement between HUD and a PHA to provide annual contributions to the PHA to cover housing assistance payments and other expenses pursuant to the Act.

*Certificate of Family Participation ("Certificate").* A certificate issued by the PHA declaring a Family to be eligible for participation in this program and stating the terms and conditions for such participation.

*Congregate Housing.* See Section 882.109(m).

*Contract.* See definition of Housing Assistance Payments Contract.

*Contract Rent.* The rent payable to the Owner under his Contract including the portion of the rent payable by the Family. In the case of a cooperative, the term "Contract Rent" means charges under the occupancy agreements between the members and the cooperative.

*Decent, Safe, and Sanitary.* Housing is Decent, Safe, and Sanitary if the requirements of § 882.109 are met.

*Eligible Family ("Family").* A family (including those covered by the definition of "Family" in Part 812 of this Chapter) which qualifies as a Lower-Income Family and which meets the other requirements of the Act and this Part.

*Existing Housing.* See § 882.101 (a)(2).

*Fair Market Rent.* The rent, including utilities (except telephone), ranges and refrigerators, and all maintenance, management, and other services, which, as determined at least annually by HUD, would be required to be paid in order to obtain privately owned, existing, Decent, Safe, and Sanitary rental housing of modest (non-luxury) nature with suitable amenities. Separate Fair Market Rents shall be established for dwelling units of varying sizes (number of bedrooms) and types (e.g. elevator, non-elevator).

*Gross Family Contribution.* The portion of the Gross Rent payable by an Eligible Family (i.e., the difference between the amount of the Housing Assistance Payment payable on behalf of

the Family and the Gross Rent), before deduction of Rent Credit, where applicable.

*Gross Rent.* The Contract Rent plus any Allowance for Utilities and Other Services.

*HCD Act.* The Housing and Community Development Act of 1974.

*Housing Assistance Payments Contract ("Contract").* A written contract between a PHA and an Owner for the purpose of providing housing assistance payments to the Owner on behalf of an Eligible Family.

*Housing Assistance Payment on Behalf of Eligible Family.* The amount of housing assistance payment on behalf of an Eligible Family determined in accordance with schedules and criteria established by HUD. (See § 882.114).

*Housing Assistance Plan.*

(1) A Housing Assistance Plan submitted by a local government participating in the Community Development Block Grant Program as part of the block grant application, in accordance with the requirements of § 570.303(c) of the Community Development Block Grant regulations (24 CFR 570), and approved by HUD;

(2) A Housing Assistance Plan meeting the requirements of § 570.303(c), submitted by a local government not participating in the Community Development Block Grant Program and approved by HUD.

*HUD.* The Department of Housing and Urban Development or its designee.

*Income.* Income from all sources of each member of the household as determined in accordance with criteria established by HUD.

*Independent Group Residence.* A dwelling unit for the exclusive residential use of two to twelve elderly, handicapped or disabled individuals (excluding live-in Resident Assistant(s) if any) who are not capable of living completely independently and require a planned program of continual supportive services. (See Section 882.109(n)(6).) Individuals residing in an Independent Group Residence and receiving Section 8 assistance shall not require continual medical or nursing care and shall be ambulatory or not confined to a bed continuously and capable of taking appropriate actions for their own safety under emergency conditions.

*Lease.* A written agreement between an Owner and an Eligible Family for the leasing of an Existing Housing unit in accordance with the Contract, which agreement is in compliance with the provisions of this Part.

*Lower-Income Family.* A Family whose income does not exceed 80 percent of the median income for the area as determined by HUD with adjustments for smaller or larger Families,

except that HUD may establish income limits higher or lower than 80 percent on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs, unusually high or low incomes, or other factors.

*Owner.* Any person or entity, including a cooperative, having the legal right to lease or sublease Existing Housing.

*Public Housing Agency ("PHA").* Any State, county, municipality or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for low-income families.

*Recently Completed Housing.* See § 882.120.

*Rent Credit.* See § 882.115.

*Resident Assistant.* A person who lives in an Independent Group Residence and provides on a daily basis some or all of the necessary support services to elderly, handicapped and disabled individuals receiving Section 8 housing assistance and who is essential to these individuals' care or well being. A Resident Assistant shall not be related by blood, marriage or operation of law to the individuals receiving Section 8 housing assistance nor contribute a portion of his or her income or resources towards the expenses of these individuals. (See Sections 882.109(n) and 882.106(c).)

*Secretary.* The Secretary of Housing and Urban Development.

*Service Agency.* A public or private non-profit organization which is recognized by the State as qualified to determine the supportive service needs of individuals who will reside in Independent Group Residences. The service agency may perform outreach to potential residents of Independent Group Residences and assist these individuals in applying for housing assistance, provide all or a portion of the supportive services and may identify and coordinate appropriate local, public or private resources to furnish these services. The Service Agency may own or sublease an Independent Group Residence.

*Service Agreement.* A written agreement approved by the State between the Owner (including an entity with the right to sublease) of an Independent Group Residence and the Service Agency and/or other entities providing the supportive services to the occupants of Independent Group Residences. The agreement shall specify the type and frequency of the supportive services to be furnished. (See Sections 882.109(n)(6) and 882.210(f)(2).)

*Unit.* Residential space for the private use of a Family (including individuals who comprise a Family in accordance with 24 CFR 812), such as an

apartment, house, or Independent Group Residence, which contains a living room, kitchen area, bathroom(s) and bedroom(s). However, a congregate housing unit need not contain a kitchen area since central dining facilities are available within the building or housing complex, and a 0-bedroom unit may have a combined living/bedroom area. The size of a unit is based on the number of bedrooms contained within the unit and generally ranges from 0-bedroom to 6-bedrooms.

**Very Low-Income Family.** A Family whose income does not exceed 50 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families.

#### § 882.103 "Finders-Keepers" Policy.

(a) A holder of a Certificate of Family Participation shall be responsible for finding an Existing Housing unit suitable to the holder's needs and desires in any area where the PHA determines that it is not legally barred from entering into Contracts. A holder of a Certificate may select a dwelling unit which the holder already occupies if the unit qualifies as Existing Housing. Upon request, the PHA shall provide assistance in finding units for those Families who, because of age, handicap, or other reasons, are unable to locate approvable units and shall provide such assistance where the Family alleges that illegal discrimination is preventing it from finding a suitable unit. Any such assistance shall be in accordance with the PHAs approved equal opportunity housing plan (see § 882.204(b)(1)).

(b) Neither in the provision of assistance to any Family in finding units nor by any other action shall the PHA directly or indirectly reduce the Family's opportunity to choose among the available units in the housing market. The provisions of this section shall apply to all holders of Certificates including those who are residing in or may wish to reside in Congregate Housing or Independent Group Residences.

(c) PHAs are encouraged to promote greater choice of housing opportunities by: (1) seeking participation of owners in any area in which the PHA has determined that it is not legally barred from entering into Contracts, (2) advising Families of their opportunity to lease housing in all such areas, (3) cooperating with other PHAs by issuing Certificates to Families already receiving the benefit of Section 8 housing assistance payments who wish to move from the operating area of one PHA to another and (4) developing administrative arrangements with other PHAs in order to permit Certificate Holders to seek housing in the broadest possible area. In any geo-

graphic area established for the purpose of allocating funds, HUD will give preference in funding to PHAs which provide Families the broadest geographical choice of units.

#### § 882.104 Maximum total ACC commitments and ACC reserve account.

(a) **Maximum Total ACC Commitment.** The maximum total annual contribution that may be contracted for in the ACC for Existing Housing shall not exceed the total for all the units of the Fair Market Rents or such higher rent as approved by HUD for a unit size or type pursuant to § 882.106(a)(3). The fee for the regular costs of PHA administration and the HUD-approved preliminary costs shall be payable out of this total. With the approval of the Assistant Secretary for Housing Production and Mortgage Credit, an amount for the fee for the regular costs of PHA administration may be added to this total in cases where the need for the additional funds is evident from the estimates of required annual contributions submitted on the prescribed forms pursuant to § 882.204(b)(2).

(b) **ACC Reserve Account.** An ACC reserve account will be established and maintained, in an amount determined by the Secretary, consistent with his responsibilities under section 8(c)(6) of the Act. This account shall be established and maintained by HUD as a specifically identified and segregated account, and payment shall be made therefrom only for the following purposes:

- (1) Housing assistance payments,
- (2) the amount of the fee for regular PHA costs of administration; and
- (3) Other costs specifically authorized or approved by the Secretary.

(c) In addition, the ACC will provide that HUD will take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to assure availability of funds to cover increases in housing assistance payments on a timely basis as a result of increases in Contract Rents or decreases in Family Incomes.

#### § 882.105 Housing assistance payments to owners.

(a) **General.** Housing assistance payments shall be paid to an Owner in accordance with his Contract for the dwelling unit under lease by an Eligible Family. These housing assistance payments will cover the difference between the Contract Rent and the portion of said rent payable by the Family as determined in accordance with Part 889 and § 882.115. No section 8 assistance may be provided with respect to any unit occupied by an Owner; however, cooperatives are considered rental housing rather than

owner-occupied housing for this purpose.

(b) **Vacated Units.** (1) If an Eligible Family vacates its unit in violation of the provisions of the Lease or tenancy agreement, the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days or the expiration or other termination of the Lease or tenancy agreement, whichever comes first; provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to HUD or as HUD may direct; and provided further, that if the vacancy is the result of action by the Owner, the Owner shall not receive any payment under this paragraph if his action was in violation of the Lease or the Contract or any applicable law or if the Owner failed to comply with § 882.215.

(2) The Owner shall not be entitled to any payment under this paragraph (b) unless he: (i) Immediately upon learning of the vacancy, has notified the PHA of the vacancy or prospective vacancy, (ii) has taken and continues to take all feasible actions to fill the vacancy including, but not limited to: contacting applicants on his waiting list, if any; requesting the PHA and other appropriate sources to refer eligible applicants; and advertising the availability of the unit and (iii) has not rejected any eligible applicant except for good cause acceptable to the PHA.

(3) The Owner shall not be entitled to housing assistance payments with respect to vacant units under this paragraph (b) to the extent he is entitled to payments from other sources (for example, payments for losses of rental income incurred for holding units vacant for relocations pursuant to Title I of the HCD Act or payments under § 882.112).

#### § 882.106 Contract rents.

(a) **Fair Market Rent Limitation.**

(1) The Gross Rent for any Existing Housing unit approved pursuant to § 882.210(b) shall not exceed the Fair Market Rent applicable to such unit on the date of Lease approval, except as provided in this paragraph (a).

(2) For up to 20 percent of the units authorized by an ACC, the PHA may approve Gross Rents on a unit-by-unit basis which exceed the applicable Fair Market Rents by up to 10 percent. The PHA may, in addition, exercise such authority with respect to more than 20 percent of the units authorized by an ACC if HUD approves such extension of the PHAs authority. In considering whether to grant such approval,

HUD will review the appropriateness of the applicable Fair Market Rents and the relationship of estimated program costs to program objectives.

(3) HUD may approve, upon request from a PHA, maximum Gross Rents for all units of a given size or type (elevator/non-elevator) of up to 20 percent above the applicable Fair Market Rents within a designated municipality, county or similar locality. Any such request must be supported by a statement of the special circumstances warranting such increase in maximum Gross Rents, including whether such higher rents are necessary to implement a Housing Assistance Plan. In considering whether to grant such approval, HUD will review the appropriateness of the applicable Fair Market Rents and the relationship of estimated program costs to program objectives. In no event shall a maximum Gross Rent, as approved under this paragraph, exceed the rent, including Allowances for Utilities and Other Services, determined by HUD to be the average rent currently being charged for available standard units of similar size or type in the applicable municipality or county.

(4) On the basis of a showing by the PHA that (i) special circumstances apply to units of a given size or type limited to a specified neighborhood, (ii) by reason of these circumstances the reasonable Gross Rents for such units are as high as 20 percent above the applicable Fair Market Rents, and (iii) the units cannot be rented for less, HUD may authorize the PHA to approve Gross Rents for such units up to 20 percent above the applicable Fair Market Rents. On the basis of a showing by the PHA that (iv) the leasing of a certain unit is necessary to meet the unique needs of a particular Family, (v) the reasonable Gross Rent for the unit is as high as 20 percent above the applicable Fair Market Rent, and (vi) the unit cannot be rented for less, HUD may authorize the PHA to approve a Gross Rent for that unit up to 20 percent above the applicable Fair Market Rent. Authorization under this paragraph (a)(4) shall be based upon substantially the same criteria as under paragraph (a)(3) of this section except for the last sentence thereof.

(b) **Rent Reasonableness Limitation.** (1) The PHA shall certify for each unit for which it approves a lease that the Contract Rent for such unit is:

(i) Reasonable in relation to rents currently being charged for comparable units in the private unassisted market, taking into account the location, size, type, quality, amenities, facilities and management and maintenance service of such unit, and

(ii) Not in excess of rents currently being charged by the Owner for comparable unassisted units.

(2) For a rent controlled unit, comparable units shall be those which are rent controlled; for a unit which is not subject to rent control, comparable units shall be those which are not rent controlled.

(3) The PHA shall maintain for three years all certifications and relevant documentation under this paragraph (b) for inspection by HUD.

(c) **Congregate Housing and Independent Group Residences.** (1) The Fair Market Rent for each congregate housing unit shall be the same as for 0-bedroom units, except that, if the unit consists of two or more private rooms, the Fair Market Rent shall be the same as for a 1-bedroom unit.

(2)(i) The Fair Market Rent for an Independent Group Residence shall be the Fair Market Rent applicable to the unit size being leased, for example, a 4-bedroom unit if the residence contains 4 bedrooms.

(ii) The PHA shall issue a 0-bedroom Certificate of Family Participation for each eligible individual who will reside in an Independent Group Residence and a separate Lease and Contract shall be executed. A Resident Assistant(s) who resides in the unit may be considered a Family member for purposes of determining the appropriate unit size. However, the Resident Assistant's income shall be disregarded for purposes of determining the Gross Family Contribution and the Family's income for eligibility for housing assistance. Notwithstanding the requirements specified above, if an eligible individual wishes to move, the PHA may then issue that individual a 1-bedroom Certificate, if appropriate, in accordance with § 882.209(a)(2).

(3) For purposes of determining the housing assistance payment for each individual participating in the Section 8 Existing Program, the PHA shall allocate the Gross Rent, which is subject to paragraphs (a) and (b) of this section, among the total number of occupants in the Independent Group Residence in an equitable manner which ensures that the Gross Rents of occupants (other than the resident Assistant(s), if any, occupying no more than 1-bedroom) not receiving Section 8 assistance are not subsidized.

To determine the portion of the Gross Rent to be allocated to each individual receiving Section 8 assistance, the Gross Rent is divided by the total number of occupants in the Independent Group Residence other than the Resident Assistant(s), if any, who will occupy no more than 1-bedroom. For example, if three Section 8 recipients and a Resident Assistant reside in a 4-bedroom unit, the housing assistance payment for each of the Section 8 recipients would be based on  $\frac{1}{4}$  of the Gross Rent. Likewise, if two Section 8 recipients, a Resident Assistant and a

person not receiving Section 8 assistance reside in a 4-bedroom unit, the housing assistance payments for each of the Section 8 recipients would be based on  $\frac{1}{4}$  of the Gross Rent; the person not receiving Section 8 assistance would pay  $\frac{1}{4}$  of the Gross Rent. However, if a Section 8 recipient, a person not receiving Section 8 assistance, and two Resident Assistants each occupy a bedroom in a 4-bedroom unit, the housing assistance payment for the Section 8 recipient would be based on  $\frac{1}{4}$  of the Gross Rent and one of the Resident Assistants would be considered a person not receiving Section 8 assistance since this section prohibits Section 8 assistance being contributed toward more than 1-bedroom for the housing costs of the Resident Assistant(s). In all of these examples the Fair Market Rent for the Independent Group Residence would be that of a 4-bedroom unit.

(4) In determining the reasonableness of the rents, consideration shall be given to the presence or absence of common rather than private cooking, dining and sanitary facilities and the provision of special amenities or maintenance and/or management services. The Contract Rent shall not include the cost of providing supportive services, housekeeping or laundry services, furniture, food, or serving food.

#### § 882.107 Term of ACC, lease, and housing assistance payments contract.

(a) **Term of ACC.** The term of the ACC shall be for five years.

(b) **Term of Lease and of Housing Assistance Payments Contract.** The Lease shall be for not less than one year nor more than three years but may contain a provision permitting termination upon 30 days advance written notice by either party. The term of the Lease shall be as agreed by the Family and the Owner, subject to the limitations of the preceding sentence. The term of the Contract shall be for the term of the Lease; Provided, that if a Family continues in occupancy after the expiration of the term on the same terms and conditions as the original Lease (or changes thereto which have been approved by the PHA and incorporated in the Contract where appropriate), the Contract shall continue in effect for the duration of such tenancy subject to the limitation in the next sentence. Any renewal of the Contract and Lease term, and any continuation of tenancy beyond the term, shall in no case extend beyond the term of the ACC pertaining to the Contract and the Lease.

#### § 882.108 Rent adjustments.

(a) Contract Rents shall be adjusted as provided in paragraphs (a) (1) and (2) of this section upon request to the PHA by the Owner, provided that the

unit is in Decent, Safe, and Sanitary condition and that the Owner is otherwise in compliance with the terms of the lease. Subject to the foregoing and the provisions of Section 882.106, including the Fair Market Rent and rent reasonableness limitations of that section, adjustments to Contract Rents shall be as follows:

(1) *Annual Adjustment.* For Contracts entered into after September, 1978, an adjustment as of any anniversary date of the lease not to exceed the applicable Section 8 Annual Adjustment Factor (24 CFR Part 888) most recently published by HUD in the FEDERAL REGISTER, provided that the Owner has the legal right to terminate the tenancy as of such anniversary date. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted rents be less than the Contract Rents on the effective date of the Contract. For Contracts entered into prior to September, 1978, annual adjustments may be based on the percentage of change in the applicable published Existing Housing Fair Market Rents (with an appropriate reduction in the adjustment where utilities are paid directly by the Family), provided that the Owner has the legal right to terminate tenancy as of such anniversary date.

(2) *Special Adjustments.* A special adjustment, subject to HUD approval, to reflect increases in the actual and necessary expenses of owning and maintaining the unit which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by the annual adjustments provided for in paragraph (a)(1) of this section. The Owner shall submit financial statements to the PHA which clearly support the increase. Such adjustment shall be effective as of the date when the Owner has the legal right to terminate the tenancy, which need not be the anniversary date of the Contract.

(b) *Overall Limitation.* Notwithstanding any other provisions of this Part, adjustments as provided in this section shall not result in material differences between the rents charged for assisted and comparable (as defined in Sec. 882.106(b)) unassisted units, as determined by the PHA (and approved by HUD in the case of adjustments under paragraph (a)(2)).

#### § 882.109 Housing quality standards.

Housing used in this program shall meet the Performance Requirements

set forth in this section. In addition, the housing shall meet the Acceptability Criteria set forth in this section except for such variations as are proposed by the PHA and approved by HUD. Local climatic or geological conditions or local codes are examples which may justify such variations.

(a) *Sanitary Facilities.*—(1) *Performance Requirement.* The dwelling unit shall include its own sanitary facilities which are in proper operating condition, can be used in privacy, and are adequate for personal cleanliness and the disposal of human waste.

(2) *Acceptability Criteria.* A flush toilet in a separate, private room, a fixed basin with hot and cold running water, and a shower or tub with hot and cold running water shall be present in the dwelling unit, all in proper operating condition. These facilities shall utilize an approved public or private disposal system.

(b) *Food Preparation and Refuse Disposal.*—(1) *Performance Requirement.* The dwelling unit shall contain suitable space and equipment to store, prepare, and serve foods in a sanitary manner. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage where necessary.

(2) *Acceptability Criteria.* The unit shall contain the following equipment in proper operating condition: cooking stove or range and a refrigerator of appropriate size for the unit, supplied by either the Owner or the Family, and a kitchen sink with hot and cold running water. The sink shall drain into an approved public or private system. Adequate space for the storage, preparation and serving of food shall be provided. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage where necessary (e.g., garbage cans).

(c) *Space and Security.*—(1) *Performance Requirement.* The dwelling unit shall afford the Family adequate space and security.

(2) *Acceptability Criteria.* A living room, kitchen area, and bathroom shall be present; and the dwelling unit shall contain at least one sleeping or living/sleeping room of appropriate size for each two persons. Exterior doors and windows accessible from outside the unit shall be lockable.

(d) *Thermal Environment.*—(1) *Performance Requirement.* The dwelling unit shall have and be capable of maintaining a thermal environment healthy for the human body.

(2) *Acceptability Criteria.* The dwelling unit shall contain safe heating and/or cooling facilities which are in proper operating condition and can provide adequate heat and/or cooling

to each room in the dwelling unit appropriate for the climate to assure a healthy living environment. Unvented room heaters which burn gas, oil or kerosene are unacceptable.

(e) *Illumination and Electricity.*—(1) *Performance Requirement.* Each room shall have adequate natural or artificial illumination to permit normal indoor activities and to support the health and safety of occupants. Sufficient electrical sources shall be provided to permit use of essential electrical appliances while assuring safety from fire.

(2) *Acceptability Criteria.* Living and sleeping rooms shall include at least one window. A ceiling or wall type light fixture shall be present and working in the bathroom and kitchen area. At least two electric outlets one of which may be an overhead light, shall be present and operable in the living area, kitchen area, and each bedroom area.

(f) *Structure and Materials.*—(1) *Performance Requirement.* The dwelling unit shall be structurally sound so as not to pose any threat to the health and safety of the occupants and so as to protect the occupants from the environment.

(2) *Acceptability Criteria.* Ceilings, walls, and floors shall not have any serious defects such as severe bulging or leaning, large holes, loose surface materials, severe buckling or noticeable movement under walking stress, missing parts or other serious damage. The roof structure shall be firm and the roof shall be weathertight. The exterior wall structure and exterior wall surface shall not have any serious defects such as serious leaning, buckling, sagging, cracks or holes, loose siding, or other serious damage. The condition and equipment of interior and exterior stairways, halls, porches, walkways, etc., shall be such as not to present a danger of tripping or falling. Elevators shall be maintained in safe and operating condition. In the case of a mobile home, the home shall be securely anchored by a tiedown device which distributes and transfers the loads imposed by the unit to appropriate ground anchors so as to resist wind overturning and sliding.

(g) *Interior Air Quality.*—(1) *Performance Requirement.* The dwelling unit shall be free of pollutants in the air at levels which threaten the health of the occupants.

(2) *Acceptability Criteria.* The dwelling unit shall be free from dangerous levels of air pollution from carbon monoxide, sewer gas, fuel gas, dust, and other harmful air pollutants. Air circulation shall be adequate throughout the unit. Bathroom areas shall have at least one operable window or other adequate exhaust ventilation.

(h) *Water Supply.*—(1) *Performance Requirement.* The water supply shall be free from contamination.

(2) *Acceptability Criteria.* The unit shall be served by an approved public or private sanitary water supply.

(i) *Lead Based Paint.*—(1) *Performance Requirement.* (i) The dwelling unit shall be in compliance with HUD Lead Based Paint regulations, 24 CFR, Part 35; issued pursuant to the Lead Based Paint Poisoning Prevention Act, 42 U.S.C. 4801, and the Owner shall provide a certification that the dwelling is in accordance with such HUD Regulations.

(ii) If the property was constructed prior to 1950, the Family upon occupancy shall have been furnished the notice required by HUD Lead Based Paint regulations and procedures regarding the hazards of lead based paint poisoning, the symptoms and treatment of lead poisoning and the precautions to be taken against lead poisoning.

(2) *Acceptability Criteria.* Same as Performance Requirement.

(j) *Access.*—(1) *Performance Requirement.* The dwelling unit shall be useable and capable of being maintained without unauthorized use of other private properties, and the building shall provide an alternate means of egress in case of fire.

(2) *Acceptability Criteria.* The dwelling unit shall be useable and capable of being maintained without unauthorized use of other private properties. The building shall provide an alternate means of egress in case of fire (such as fire stairs or egress through windows).

(k) *Site and Neighborhood.*—(1) *Performance Requirement.* The site and neighborhood shall be reasonably free from disturbing noises and reverberations and other hazards to the health, safety, and general welfare of the occupants.

(2) *Acceptability Criteria.* The site and neighborhood shall not be subject to serious adverse environmental conditions, natural or manmade, such as dangerous walks, steps, instability, flooding, poor drainage, septic tank back-ups, sewage hazards or mudslides; abnormal air pollution, smoke or dust; excessive noise, vibration or vehicular traffic; excessive accumulations of trash; vermin or rodent infestation; or fire hazards.

(l) *Sanitary Condition.*—(1) *Performance Requirement.* The unit and its equipment shall be in sanitary condition.

(2) *Acceptability Criteria.* The units and its equipment shall be free of vermin and rodent infestation.

(m) *Congregate Housing—Performance Requirement.* The foregoing standards shall apply except for paragraph (b) of this section and the re-

quirement in paragraph (c)(2) of this section for a kitchen area. In addition, the following standards shall apply:

(1) The unit shall contain a refrigerator of appropriate size.

(2) The sanitary facilities described in § 882.109(a) shall be contained within the unit.

(3) The central dining facility and central kitchen shall be located within the building or housing complex and be accessible to the occupants of the congregate units, and shall contain suitable space and equipment to store, prepare and serve food in a sanitary manner by a food service or persons other than the occupants and shall be for the primary use of occupants of the congregate units and be sufficient in size to accommodate the occupants. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage where necessary (e.g., garbage cans).

(n) *Independent Group Residence—Performance Requirement.* The foregoing standards shall apply except for paragraphs (a), (b), (c), (f), (k), and (m) of this section. In addition, the following standards shall apply: (1) The unit shall contain and have ready access to a flush toilet which can be used in privacy, a fixed basin with hot and cold running water, and a shower and/or tub equipped with hot and cold running water all in proper operating condition and adequate for personal cleanliness and the disposal of human wastes. These facilities shall utilize an approved public or private disposal system, and shall be sufficient in number so that they need not be shared by more than four occupants. Those units accommodating physically handicapped occupants with wheelchairs or other special equipment shall provide access to all sanitary facilities, and shall provide, as appropriate to needs of the occupants, basins and toilets of appropriate height; grab bars to toilets, showers and/or bathtubs; shower seats; and adequate space for movement.

(2) The unit shall contain suitable space to store, prepare and serve foods in a sanitary manner. A cooking stove or range, a refrigerator(s) of appropriate size and in sufficient quantity for the number of occupants, and a kitchen sink with hot and cold running water shall be present in proper operating condition. The sink shall drain into an approved private or public system. Adequate space for the storage, preparation and serving of food shall be provided. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage where necessary (e.g., garbage cans).

(3) The dwelling unit shall afford the Family adequate space and security. A living room, kitchen, dining area, bathroom, and other appropriate social and/or recreational community space shall be within the unit and the dwelling unit shall contain at least one sleeping room of appropriate size for each two persons. Exterior doors and windows accessible from outside each unit shall be capable of being locked. An emergency exit plan shall be developed and occupants shall be apprised of the details of the plan. Regular fire inspections shall be conducted by appropriate local officials. Readily accessible first aid supplies and fire extinguishers shall be provided throughout the unit, smoke detectors shall be provided and emergency phone numbers (police, ambulance, fire department, etc.) shall be available at every phone and individual copies shall be provided to each occupant. All emergency and safety features and procedures shall meet applicable State and local standards.

(4) The unit shall be structurally sound so as not to pose any threat to the health and safety of the occupants and so as to protect the occupants from the environment. Ceilings, walls and floors shall not have any serious defects such as severe bulging or leaning, large holes, loose surface materials, severe buckling or noticeable movement under walking stress, missing parts or other serious damage. The roof structure shall be firm and the roof shall be weathertight. The exterior wall structure and exterior wall surface shall not have any serious defects such as serious leaning, buckling, sagging, cracks or holes, loose siding, or other serious damage. The condition and equipment of interior and exterior stairways, halls, porches, walkways, etc., shall be such as not to present a danger of tripping or falling. Elevators shall be maintained in safe and operating condition. Units accommodating physically handicapped occupants with wheelchairs and other special equipment shall not contain architectural barriers which impede access or use, and handrails and ramps shall be provided as appropriate.

(5) The site and neighborhood shall be reasonably free from disturbing noises and reverberations and other hazards to the health, safety, and general welfare of the occupants, and shall not be subject to serious adverse environmental conditions, natural or manmade, such as dangerous walks, steps, instability, flooding, poor drainage, septic tank back-ups, sewage hazards or mudslides; abnormal air pollution, smoke or dust; excessive noise, vibrations or vehicular traffic; excessive accumulations of trash; vermin or rodent infestation; or fire hazards. The unit shall be located in a residen-

tial setting and be similar in size and appearance to housing generally found in the neighborhood, and be within walking distance or accessible via public or available private transportation to medical and other appropriate commercial and community service facilities.

(6) **Supportive Services.** (i) A planned program of adequate supportive services appropriate to the needs of the occupants shall be provided on a continual basis by a qualified Resident Assistant(s) residing in the unit, or other qualified person(s) not residing in the unit, who will provide such services on a continual, planned basis. Supportive services which are provided within the unit may include the following types of services: counseling; social services which promote physical activity, intellectual stimulation and/or social motivation; training or assistance with activities of daily living including housekeeping, dressing, personal hygiene and/or grooming; provision of basic first aid skills in case of emergencies; supervision of self-administration of medications, diet and nutrition; and assurance that occupants obtain incidental medical care, as needed, by facilitating the making of appointments at, and transportation to, medical facilities. Supportive services provided within the unit shall not include the provision of continual nursing, medical or psychiatric care.

(ii) The provision and quality of the planned program of supportive services, including the minimal qualifications, quantity and working hours of the Resident Assistant(s) living in the unit or other person(s) providing continual supportive services, shall be initially determined by the Service Agency in accordance with the standards established by the State. Compliance with these standards by the Service Agency shall be regularly monitored throughout the term of the Contract by the PHA and the State (e.g., Department of Human Resources, Mental Health, Mental Retardation, Social Services, etc.), or a local authority (other than the Service Agency providing services) designated by the State to establish, maintain and enforce such standards.

(iii) A written Service Agreement(s), approved by the State and in effect between the Owner and the Service Agency and/or the entities which provide the necessary supportive service, shall be submitted to the PHA with the request for Lease Approval. The Lease between the eligible individual and the Owner shall set forth the Owner's obligation for and means of providing these services. If the lessor provides the supportive services, a Service Agreement is not required and the provision of these services shall be incorporated into the Lease and shall

be approved by the State. (See § 882.210(f)(2).)

(7) **State Approval.** Independent Group Residences shall be licensed, certified or otherwise approved in writing by the State (e.g., Department of Human Resources, Mental Health, Retardation, Social Services, etc.) prior to the execution of the initial Contract. This approval shall be reexamined periodically based on a schedule established by the State.

To insure that facilities and the supportive services are appropriate to the needs of the occupants, the State shall also approve the written Service Agreement(s) (or Lease, if the provider of services is the lessor) for each Independent Group Residence. (See § 882.210(f)(2).)

#### § 882.110 Types of housing.

(a) Any type of Existing Housing meeting the housing quality standards may be utilized under this part, except nursing homes, units within the grounds of penal, reformatory, medical, mental and similar public or private institutions, and facilities providing continual psychiatric, medical or nursing services. Examples of Existing Housing which may be utilized include, but are not limited to, privately owned apartments, houses and congregate housing units; existing FHA insured. Section 202 direct loan. Farmers Home Administration (FmHA) insured or direct loan, or VA guaranteed properties; properties held by the Secretary, or properties sold by the Secretary on which the Secretary has taken back a purchase money mortgage. Eligible types of Independent Group Residences include, but are not limited to, self-contained apartments and houses; *Provided*, They meet the requirements of § 882.109(n).

(b) Congregate housing may be utilized for eligible elderly, handicapped, disabled or displaced families or individuals. Independent Group Residences shall be utilized for eligible elderly, handicapped or disabled Families or individuals which require a planned program of continual supportive services.

(c) In any section 221(d)(3) below market interest rate (BMIR) or market interest rate (MIR), section 202, section 236 (insured or non-insured), FmHA section 515 interest credit project:

(1) units receiving assistance under the section 23 or rent supplement programs may continue to receive such assistance or, upon conversion of the section 23 units to section 8, the occupants may receive assistance under section 8, and (2) the occupants of units not receiving such assistance may receive section 8 assistance, provided that the total number of units in the project covered by Housing Assist-

ance Payments Contracts under section 8 or receiving section 23 rental assistance, rent supplement assistance, section 236 "deep subsidy" rental assistance payments, or State or local subsidy (other than property tax exemption or abatement) does not exceed 40 percent of the total number of units in the project. Upon request, this limitation may be exceeded for the purpose of relieving hardship of a particular Family or Families only with the approval of the Regional Administrator. Prior to granting such an approval, the Regional Administrator will review the request to determine whether assistance under Part 886, Subpart A, "Additional Assistance Program for Projects with HUD-insured and HUD-held Mortgages" is more appropriate and whether such assistance can be scheduled.

(d) For any section 221(d)(3) BMIR, section 202, section 236 (insured or noninsured), or FmHA section 515 interest credit unit or any State or locally subsidized unit, the housing assistance payment shall be the amount by which the rent payable by the Eligible Family under section 23 or section 8 is less than the subsidized rent (which subsidy shall not be reduced on account of any section 23 or section 8 assistance).

(e) In no event may any occupant receive the benefit of more than one of the following: rent supplement, section 23 housing assistance, section 8 housing assistance, or section 236 "deep subsidy" rental assistance payments.

#### § 882.111 Equal opportunity requirements.

Participation in this program requires compliance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063 and all rules, regulations, and requirements issued pursuant thereto. The PHA shall comply with section 3 of the Housing and Urban Development Act of 1968 and all rules, regulations and requirements issued pursuant thereto.

#### § 882.112 Security and utility deposits.

(a) If at the time of the initial execution of the Lease the Owner wishes to collect a security deposit, the maximum amount shall be the greater of one month's Gross Family Contribution or \$50. However, this amount shall not exceed the maximum amount allowable under State or local law. For units leased in place, security deposits collected prior to the execution of a Contract which are in excess of this maximum amount do not have to be refunded until the Family vacates the unit subject to the lease terms. The Family is expected to pay security deposits and utility deposits

from its resources and/or other public or private sources.

(b) If a Family vacates the unit, the Owner, subject to State and local law, may use the security deposit as reimbursement for any unpaid Family Contribution or other amount which the Family owes under the Lease. If a Family vacates the unit owing no rent or other amount under the Lease consistent with State or local law or if such amount is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance to the Family.

(c) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include the amount of interest payable. The Owner shall comply with all State and local laws regarding interest payments on security deposits.

(d) If the security deposit is insufficient to reimburse the Owner for the unpaid Family Contribution or other amounts which the Family owes under the Lease, or if the Owner did not collect a security deposit, the Owner may claim reimbursement from the PHA for an amount not to exceed the lesser of: (1) the amount owed the Owner, (2) one month's Contract Rent, minus the amount of the security deposit, or (3) one month's Contract Rent, minus the greater of one month's Gross Family Contribution at the time of Lease execution or \$50 (or the maximum amount allowable under State or local law). Any reimbursement under this section shall be applied first toward any unpaid Family Contribution due under the Lease. No reimbursement shall be claimed for unpaid rent for the period after termination of the Lease.

#### § 882.113 Establishment of income limit schedules; 30 percent occupancy by very low-income families.

(a) HUD will establish schedules of income limits for determining whether families qualify as Lower-Income Families and Very Low-Income Families.

(b) Each PHA shall administer its Existing Housing program under this Part, including the issuance of a sufficient number of Certificates to Very Low-Income Families, so that at least 30 percent of the Families for whom Leases are approved by the PHA are Very Low-Income Families. However, in connection with periodic reexamination of Family Income, the PHA shall ascertain whether at least 30 percent of all the assisted Families are Very Low-Income Families, and where the percentage is lower than 30 percent, the PHA shall thereafter use its best efforts in connection with subsequent issuance of Certificates of Family Participation to achieve at least a 30 percent level.

#### § 882.114 [Reserved].

#### § 882.115 Rent reduction incentive.

(a) If a Family selects a unit for which the Owner's proposed Contract Rent plus any applicable Allowance is below the applicable Fair Market Rent or such higher rent as approved by HUD for a unit size or type pursuant to § 882.106(a)(3), the Family will be given credit by a reduction (Rent Credit) in its required monthly Gross Family Contribution. The applicable Fair Market Rent or such higher rent, as approved, is that in effect at the time of Lease approval for the Family size. Thereafter the applicable rent is the rent appropriate to the Family size at the time of reexamination of Family income and composition. The purpose of this provision is to provide an incentive to Families to find the most economical Decent, Safe, and Sanitary housing suitable to their needs and approvable under this Part.

(b) The amount of the monthly Rent Credit shall be the dollar amount equal to that percentage of the Gross Family Contribution which the Rent Savings is of the Fair Market Rent or such higher rent as approved by HUD for a unit size or type pursuant to § 882.106(a)(3). The Rent Savings is the amount by which the Fair Market Rent or such higher rent, as approved, exceeds the sum of the approved Contract Rent and any applicable Allowance.

(c) The Rent Credit shall not be payable if the Family selects a unit receiving the benefit of Federal, State, or local subsidies. However, HUD may, on its own initiative or at the request of a PHA, authorize applicability of the Rent Credit to subsidized units if HUD determines that it is in the public interest to do so because the project in which the units are located is experiencing a large number of vacancies or high turnover. The PHA shall make known to Certificate holders the fact that the approved units are not subject to the prohibition otherwise applicable with respect to subsidized units.

#### § 882.116 Responsibilities of the PHA.

In administering its ACC with HUD, the PHA (subject to review or audit by HUD) shall be responsible for the following:

(a) Publication and dissemination of information concerning the availability and nature of housing assistance for Lower-Income Families;

(b) Public invitation of Owners to make dwelling units available for leasing by Eligible Families and development of working relationships and contracts with landlords and appropriate associations and groups;

(c) Receipt and review of applications for Certificates of Family Participation, verification of family

income and other factors relating to eligibility and amount of assistance, and maintenance of a waiting list in accordance with this Part;

(d) Issuance of Certificates of Family Participation to Eligible Families;

(e) Notification of families determined to be ineligible;

(f) Provision to each Certificate holder of basic information on applicable housing quality standards and inspection procedures, search for and selection of housing, landlord and tenant responsibilities, and basic program rules including the operation of the Rent Credit;

(g) Determination of amounts of Gross Family Contributions and Rent Credits, if any;

(h) Determination of amounts of housing assistance payments;

(i) Explanation of program procedures to Owners including those who have been approached by Certificate holders;

(j) Review of and action on Requests for Lease Approval, including monitoring to assure that the limitations on use of Section 8 housing assistance in subsidized projects specified in § 882.110(c) are observed;

(k) Making of housing assistance payments;

(l) Provision of housing information to assisted Families and referral of such Families to appropriate social service agencies upon request;

(m) Reexaminations of Family Income, composition, and extent of exceptional medical or other unusual expenses, and redeterminations, as appropriate, of the amount of Gross Family Contribution and amount of housing assistance payment in accordance with HUD-established schedules and criteria;

(n) Redeterminations of amount of rent payable by the Family and amount of housing assistance payment in accordance with HUD-established schedules and criteria as a result of an adjustment by the PHA of any applicable Allowance for Utilities and Other Services;

(o) Inspections prior to leasing and inspections at least annually to determine that the units are maintained in Decent, Safe, and Sanitary condition, and notifications to Owners and Families of PHA determinations;

(p) Authorization of evictions (see § 882.215);

(q) Administration and enforcement of Contracts with Owners and taking of appropriate actions in case of non-compliance or default; and

(r) Compliance by the PHA with equal opportunity requirements, including efforts to provide opportunities for recipients to seek housing outside areas of economic and racial concentration.

**§ 882.117 Responsibilities of the owner.**

(a) The Owner shall be responsible (subject to review or audit by the PHA or HUD) for performing all of his obligations under the Contract and Lease. The Owner's responsibilities shall include but not be limited to:

- (1) Performance of all management and renting functions;
- (2) Payment for utilities and services (unless paid directly by the Family);
- (3) Performance of all ordinary and extraordinary maintenance;
- (4) Collection of Family rents;
- (5) Preparation and furnishing of information required under the Contract; and

(6) Compliance by the Owner with equal opportunity requirements.

(b) Any Owner may contract with any private or public entity to perform for a fee the services required by paragraph (a) of this section, provided that such contract shall not shift any of the Owner's responsibilities or obligations, and provided further that no such contract may be entered into with an entity which is responsible for administration of the Housing Assistance Payments Contract. If the Owner and a PHA wish to enter into a management contract, they may do so provided that the Housing Assistance Payments Contract with respect to the housing involved is administered by another PHA or by HUD or an entity acting on behalf of HUD. If no other PHA is able and willing to administer the Contract, HUD will do so or will designate an entity to do so on its behalf, pursuant to § 882.121(b).

**§ 882.118 Responsibility of the family.**

A Family receiving housing assistance under this program shall be responsible for fulfilling all its obligations under the Certificate of Family Participation issued to it by the PHA and under the Lease with the Owner.

**§ 882.119 Single ACC.**

(a) All of the Existing Housing units administered by a PHA under the Housing Assistance Payments Program (except where the PHA's area of operation is within the jurisdiction of more than one field office) shall be covered by and administered under a single ACC Part I.

(b) In the event that a PHA applies for additional Existing Housing units, the units, if approved, shall be incorporated into a revised Part I of the ACC which shall cover the PHA's entire Housing Assistance Payments Program for Existing Housing. The revised Part I shall be for a new term for the aggregate number of units starting with the date of execution of the revised ACC Part I. When the PHA applies for additional units, it shall specify the number of years for which the aggregate number of units is needed

and shall demonstrate such need. On the basis of such showing, HUD shall determine whether the new term for the aggregate number of units shall be five years or such lesser number of years as HUD may find to be justified. The maximum annual contribution of the revised program shall be the sum of (1) an appropriate amount of annual contribution for the number of units prior to the revision, taking into account the existing ACC Reserve Account, plus (2) the amount approved for the additional units which shall be computed pursuant to § 882.104(a).

**§ 882.120 Recently completed housing.**

(a) HUD may invite and approve applications by PHA's for use of Existing Housing units at the higher Fair Market Rents authorized by paragraph (b) of this section, where construction or substantial rehabilitation of such units was completed (legally available for occupancy) no more than six years prior to the date of the leasing of the unit ("Recently Completed Housing") in areas which meet the following characteristics:

(1) The housing needs of Lower-Income Families in the area cannot be addressed by use of Existing Housing within the rent limitations authorized under Section 882.106 because:

(i) The rental vacancy rate for the municipality, county, or similar locality is inadequate. (A vacancy rate of six percent will be considered adequate except in localities experiencing very little growth, in which a vacancy rate lower than six percent may be deemed adequate); or

(ii) The housing needs of one or more particular household types (e.g., elderly/handicapped family, large family) cannot be addressed utilizing the supply of Existing Housing at or below the rents authorized under § 882.106 because of lack of availability of appropriate units. In such case, the Recently Completed Housing to be authorized will be limited to the needs of the specialized household types.

(2) The housing needs of Lower-Income Families can be addressed by use of Recently Completed Housing, because:

(i) The rental vacancy rate for the municipality, county, or similar locality among Recently Completed Housing units is adequate as defined in paragraph (a)(1)(i) of this section; or

(ii) Units of Recently Completed Housing are available which will meet the housing needs of one or more household types which cannot be met utilizing the supply of housing within the rent limitations of the program.

(b) Rents no more than 10 percent above the Fair Market Rents for Recently Completed Housing (75 percent of the Section 8 New Construction Fair Market Rents) may be approved

by the PHA pursuant to § 882.106(a)(2) or by HUD pursuant to § 882.106(a)(3) or (4). However, rents more than 10 percent above the applicable Fair Market Rent shall not be approved for Recently Completed Housing.

(c) Applications shall be submitted by the appropriate PHA or PHA's for an Existing Housing program utilizing Recently Completed Housing which may but need not be included as a part of an application for other housing assistance under this Part.

(d) The approval of such an application shall authorize the PHA to (1) publicize the availability of such Fair Market Rents for the specified number of units of Recently Completed Housing, (2) invite Owners of such housing to submit evidence that their units qualify as Recently Completed Housing, and (3) inform holders of Certificates of Family Participation of the locations of such Housing and of the applicable Fair Market Rents. Annual and special adjustments in Contract Rents for Recently Completed Housing shall be made in accordance with Section 882.108 and are also subject to the Fair Market Rent and rent reasonableness limitations.

(e) All provisions of this Part, not specifically modified by this section, shall be applicable to housing under this section.

**§ 882.121 HUD administration of programs under this part.**

(a) If, after sending the invitations required by Sec. 882.203, no application is received by HUD by the deadline date for operation of an Existing Housing program in the area, or if the only applications received are not approvable, the HUD field office shall make such further inquiry, including advice and offer of assistance, as in its judgment may result in the submission of an approvable application by a PHA.

(b) If, on the basis of such further inquiry and all other pertinent information available to the HUD field office, HUD determines that there is no PHA organized or that there is no PHA able and willing to implement the provisions of this Part for an area, HUD (or an entity acting on behalf of HUD) may, pursuant to section 8(b)(1) of the Act, enter into Contracts with Owners and perform the functions otherwise assigned to PHAs under this Part with respect to such area.

(c)(1) If one or more Owners wish to contract for the management of their housing by the PHA which is administering the ACC for that area under this Part, and the PHA is willing to do this, or if the PHA owns housing which is suitable for utilization under this Part, HUD shall ascertain whether there is another PHA able and willing to enter into an ACC and adminis-

ter the program under this Part with respect to housing which is managed or owned by the first PHA. If so, such an ACC may be entered into, and the housing covered thereby shall be excluded from the ACC with the first PHA.

(2) If on the basis of inquiry and all other pertinent information available to the HUD field office, HUD determines there is no PHA able and willing to administer an ACC with respect to housing managed or owned by the first PHA, HUD (or another entity acting on behalf of HUD), may, pursuant to section 8(b)(1) of the Act, enter into Contracts with the Owners and perform the functions otherwise assigned to PHAs under this Part with respect to such housing.

**§ 882.122 Applicability of this part to certificates outstanding on and requests for lease approval pending on September 1, 1978.**

The Regulations shall be applicable to Certificates outstanding on September 1, 1978, and Requests for Lease Approval pending on September 1, 1978, to the maximum extent and in the manner that the PHA deems feasible.

**Subpart B—Program Development and Operation****§ 882.201 Allocations of contract authority to field offices.**

HUD field offices will be allocated contract authority for the Section 8 Housing Assistance Payments Program for metropolitan areas and for non-metropolitan areas in conformance with section 213(d) of the HCD Act and regulations pursuant thereto (24 CFR 891).

**§ 882.202 Determination of number and types of units to be assisted.**

Each field office shall, after considering the contents of any Housing Assistance Plans and any other pertinent information which it has or which is brought to its attention, in relation to the factors set forth in section 213(d) of the HCD Act, including any applicable State or areawide housing allocation plan, determine the number and types of units to be made available for new construction, substantial rehabilitation and existing housing in the geographic areas established for the purpose of allocating funds (herein called "allocation areas").

**§ 882.203 Invitations for existing housing program applications.**

(a) *Sending of Invitation.* The HUD field office shall initiate implementation of its program with respect to Existing Housing by sending invitations for Existing Housing Program applications, for the area(s) for which applications are desired in accordance with

a schedule established by the field office. The schedule may be modified at such time as circumstances require. The invitation shall be sent on the same day to appropriate PHAs, to the Governor, and to the chief executive officers of the appropriate counties, municipalities, or other governmental entities or public bodies which are authorized to engage in or assist in the development or operation of low-income housing. In addition, HUD shall send promptly information concerning its issuance of invitations to trade journals, news media (including minority media), minority organizations involved in housing and community development, and fair housing groups. Additional copies of the invitation shall be available in the HUD field office.

(b) *Contents of Invitation.* The invitation shall indicate: (1) that applications may be submitted by public housing agencies (i.e., any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of low-income housing), (2) the maximum number of units, (3) the geographic area, (4) the deadline for submission of applications (which shall be at least 30 but not more than 60 calendar days after the date invitations are sent as provided in the third sentence of paragraph (a) of this section), (5) the fact that application and other forms and copies of Program regulations may be obtained from the field office, (6) the fact that if no application is received by the deadline date, HUD may determine to carry out the Existing Housing program directly, pursuant to section 8(b)(1) of the Act, and (7) such other basic information as the field office may specify.

**§ 882.204 Submission of Application.**

The application for an Existing Housing Project shall be submitted by a PHA to the HUD field office. Advice and assistance in the preparation of the application are available from the HUD field office.

(a) The application shall be in the form and in accordance with the instructions prescribed by HUD and shall:

(1) Indicate the types of Existing Housing (e.g., elevator, non-elevator) likely to be utilized in the proposed project and whether authorization for the use of Recently Completed Housing is desired (see Sec. 882.120).

(2) Indicate the total number of units expected to be utilized by unit size (i.e., one bedroom units, two bedroom units, etc.) and the approximate number of units for occupancy by elderly, handicapped, or disabled.

(3) Demonstrate that the project requested in paragraph (a)(2) of this section is consistent with the applicable Housing Assistance Plan, including the goals for meeting the housing needs of Lower-Income Families, or in the absence of such a Plan, that the proposed project is responsive to the condition of the housing stock in the community and the housing assistance needs of Lower-Income Families (including the elderly, handicapped, disabled, large Families and those displaced) residing in or expected to reside in the community.

(4) Demonstrate that the applicant qualifies as a Public Housing Agency and is legally qualified and authorized to participate in the section 8 Existing Housing program for the area in which the Existing Housing program is to be carried out and include in such demonstration (i) the relevant enabling legislation, (ii) any rules and regulations adopted or to be adopted by the agency to govern its operations, and (iii) a supporting opinion from the agency counsel.

(5) Include a statement that the housing quality standards to be used in the operation of the program will be as set forth in § 882.109 or that variations in the Acceptability Criteria are proposed. In the latter case, each proposed variation shall be specified and justified.

(6) Include a proposed schedule specifying the number of units to be leased.

(b) For each application, or in a combined submission covering several applications, the PHA shall submit the following items with the application(s) or after application approval but no later than with the PHA-executed ACC.

(1) An equal opportunity housing plan.

(i) The plan shall describe the PHA's policies and procedures for:

(A) Fulfilling the requirements of § 882.207(a) and § 882.208.

(B) Achieving the participation of owners of units of suitable price and quality in areas outside low income and minority concentrations and outside the local jurisdiction where possible.

(C) Selecting among eligible applicants those to receive Certificates of Family Participation, including any provisions establishing local requirements for eligibility or preferences for selection in accordance with § 882.209(a)(3).

(D) Providing assistance in finding a unit to Certificate holders who allege that illegal discrimination is preventing them from finding a suitable unit.

(ii) Relative to accomplishing the task set forth in paragraphs (b)(1)(i) (B) and (D) of this section, the PHA should consider the possibility of sub-

contracting with a community-based organization, such as a fair housing organization that has had experience in assisting families which traditionally have encountered discrimination or other difficulties in the process of finding housing in the locality.

(iii) The plan shall also include signed certification of the applicant's intention to comply with Title VI of the Civil Rights Act of 1964; Title VIII of Civil Rights Act of 1968; Executive Order 11063; and if the housing assistance may be used within an area of a Housing Assistance Plan, a certification that the applicant will take affirmative action to provide opportunities to participate in the program to persons expected to reside in the locality because of present or planned employment as indicated in the Housing Assistance Plan.

(2) Estimates of financial requirements for preliminary costs, administrative costs and housing assistance payments on the prescribed forms.

(3) An administrative plan. (i) The plan shall include: a statement of the PHA's overall approach and objectives in administering the Existing Housing program; a description of the procedures to be used in carrying out each function; and a statement of the number of employees proposed for the program, by position and functions to be performed.

(ii) The following functions should be addressed: outreach to eligible families; contact with Owners; completion of applications and determinations of family eligibility; selection of families; computation of Gross Family Contributions; briefing of Families and issuance of Certificates; use of housing quality standards and inspections; lease approval and Contract execution; payments to Owners; recertification of Incomes; provision of housing information and services to recipient Families; review and adjustment, as necessary, of Allowances for Utilities and Other Services; reinspection of units under Contracts; processing requests for rent adjustments by Owners; terminations; establishment of complaint and appeal procedures; monitoring program performance.

(4) A proposed schedule of Allowances for Utilities and Other Services with a justification of the amounts proposed.

#### § 882.205 Processing of applications.

(a) *Initial Screening of Applications.* Promptly after receipt of an application, the HUD field office will check whether or not the application is complete. If an application is incomplete, the PHA will be so notified and will be given until the deadline date or, if necessary, a reasonable time thereafter within which to complete the application.

(b) Pursuant to section 213 of the HCD Act and regulations issued pursuant thereto, no later than 10 working days after receipt of an application, the field office shall send a notification to the chief executive officers of units of general local government of those localities which are identified in the Application for Existing Housing as primary areas from which families to be assisted will be drawn. This notification shall:

(1) In all cases, advise that the field office has received and is considering an application for housing assistance to be provided to families from that jurisdiction, identify the housing program (existing housing), state the number of units by bedroom size and the number of units by household type (elderly and/or handicapped, family, large family), and identify the areas from which families to be assisted will be drawn.

(2) For applications for areas with Housing Assistance Plans:

(i) Advise the local government that it may submit, no later than 30 days after the date of the notification letter, objections to the approval of the application on the ground that the application is inconsistent with the applicable Housing Assistance Plan.

(ii) Invite submission of any other comments on behalf of the local government which are relevant to a determination by the field office director concerning approval of the application for housing assistance.

(3) For applications for areas without Housing Assistance Plans, invite the local government to submit, no later than 30 days after the date of the notification letter, comments which are relevant to a determination by the field office concerning the application for housing assistance.

(c) *Evaluation of Applications.* HUD may begin its evaluation immediately upon receipt of the application, but no final decision of approval or disapproval of the application may be made until after the deadline for receipt of applications or the end of the opportunity for response referred to in paragraph (b) of this section, whichever is later. Each application will be evaluated by HUD on the basis of all pertinent factors under this Part, including comments, if any, received during the comment period from the unit of general local government. In selecting among approvable applications, HUD will give preference as provided in the last sentence of § 882.103(c).

(d) *Disapproval Conditional Approval, or Approval of Applications.* If an application is disapproved, HUD shall notify the applicant by letter indicating in detail the reasons for disapproval. If an application can be approved only if certain changes are made, HUD shall notify the applicant by letter

stating that the application can be approved if the PHA adopts, within a reasonable time as determined by HUD, the changes required by HUD. If an application is approved, the applicant shall be sent a notification of application approval.

#### § 882.206 Annual contributions contract; schedule of leasing.

(a) *Transmittal of ACC.* After the HUD field office has prepared the ACC, the ACC shall be transmitted to the PHA for execution by the PHA. The ACC shall be returned to HUD together with the PHA's equal opportunity housing plan, estimates of its financial requirements on the prescribed forms, administrative plan and proposed schedule of Allowances for Utilities and Other Services, if these have not been previously submitted.

(b) *Execution of ACC by HUD.* After receipt of the PHA-executed ACC and HUD approval of the equal opportunity housing plan, financial estimates, the administrative plan and the schedule of Allowances for Utilities and Other Services, HUD shall execute the ACC. HUD then shall transmit a fully executed copy of the ACC together with a leasing schedule in accordance with paragraph (c) of this section.

(c) *Schedule of Leasing.* The ACC shall include a provision relating to expeditious leasing of units under the program. HUD will review the PHA-proposed schedule specifying the number of units that are expected to be leased by the end of each three-month period, and will make such changes as it may deem appropriate. In its transmittal of the ACC to the PHA, HUD will include the HUD-approved schedule. This schedule will be established so as to implement HUD policy that all units in a section 8 Existing Housing program of 100 units or more must be leased by Eligible Families within 12 months. In the case of smaller programs, a shorter time period may be established by HUD. HUD may reduce the number of units and/or the amount of the annual contributions commitment if, in the determination of HUD, the PHA fails to demonstrate a good faith effort to adhere to this schedule or fails to adhere to the schedule for other reasons which justify a reduction in the number of units or changes in unit size.

#### § 882.207 Public notice to lower-income families; waiting list.

(a) *Public Notice to Lower-Income Families.* Promptly after receiving the executed ACC, and thereafter as may be necessary, the PHA shall make known to the public, through publication in a newspaper of general circulation as well as through minority media and other suitable means, the avail-

ability and nature of housing assistance for lower-income families (including assistance with respect to units already occupied by the families) and the notice shall inform such families where they may apply for Certificates of Family Participation. The PHA shall take affirmative action to provide opportunities to participate in the program to persons who, because of such factors as race, ethnicity, sex of household head, age, or source of income, are less likely to apply for Certificates of Family Participation; and, if there is a Local Housing Assistance Plan pursuant to Title I of the HCD Act, to persons expected to reside in the community because of present or planned employment, as indicated in the plan.

(1) The notice shall also state that occupants of housing assisted under the Act (including leased housing and housing occupied with assistance under the Section 23 Housing Assistance Payments Program), applicants on a waiting list for any such housing, and holders of Certificates of Family Participation for such housing must apply specifically if they wish to be considered for a Certificate of Family Participation under this Part. In addition, the notice shall state that such applicants for Certificates will not lose their place on the public housing waiting list.

(2) Such notice shall be made in accordance with the PHA's HUD-approved equal opportunity housing plan and with the HUD guidelines for fair housing requiring the use of the equal housing opportunity logotype, statement, and slogan.

(b) *Waiting List.* The PHA shall establish and maintain a waiting list for applicants for Certificates of Family Participation under this Part. If an applicant is determined by the PHA to be eligible but the PHA has determined pursuant to Sec. 882.209(a)(5) that it cannot issue any more Certificates, the PHA shall place such Family on this waiting list and notify the Family of this fact and of the approximate date that a Certificate may be issued, insofar as such date can reasonably be determined.

(c) *Suspension of Taking of Applications.* If the number of Families on the PHA's waiting list for Certificates of Family Participation is such that there is no reasonable prospect that additional applicants could be issued Certificates within the next year, the PHA may determine to suspend the taking of further applications, and in such case the PHA shall not be required to take the actions specified in paragraph (a) of this section. Any such determination by the PHA shall be publicly announced in the same manner as provided in paragraph (a) of this section and shall be effective as

of the date stated in such announcement.

#### § 882.208 Activities to encourage participation by owners and others.

(a) The PHA shall invite Owners, through publication in a newspaper of general circulation as well as through minority media and other suitable means, to make dwelling units available for leasing by Eligible Families, and in doing so, the PHA shall encourage the participation of Owners of units in areas other than low-income or minority concentrated areas. Such invitation shall be made in accordance with the PHA's HUD-approved equal opportunity housing plan, and with the HUD advertising guidelines for fair housing requiring the use of the equal housing opportunity logotype, statement, and slogan. The PHA shall publicize the needs of the program in such ways as to reach a maximum number of Owners and real estate brokers.

(b) The PHA shall also (1) request the field office to furnish it with a list of Secretary-held properties available for rent, to be included in the Certificate Holder's Packet, (2) develop working relationships with local Owners and real estate broker associations, (3) establish contact with civic, charitable, or neighborhood organizations which have an interest in housing for low-income families, and public agencies concerned with obtaining housing for displacees, and (4) explain the provisions of the program, including equal opportunity requirements, to real estate, landlord, and other groups the members of which have dealings with low-income families or are interested in housing such families.

#### § 882.209 Certificates of family participation.

(a) *Initial Determination of Family Eligibility.* (1) The PHA shall be responsible for determining eligibility for a Certificate of Family Participation, in accordance with schedules and criteria established by HUD. The PHA shall be responsible for verifying the sources of the family's income and other information necessary for determining eligibility and the amount of the assistance payment. If an Owner is the initial point of contact by an applicant who does not have a Certificate, he shall refer such applicant to the PHA.

(2) In issuing the Certificate of Family Participation, the PHA shall enter on the Certificate the smallest unit size consistent with the following criteria:

(i) The bedroom size assigned shall not require more than two persons to occupy the same bedroom.

(ii) The bedroom size assigned shall not require persons of the opposite

sex, other than husband and wife or very young children, to occupy the same bedroom.

(iii) All single person households shall be assigned a 0-bedroom unit if 0-bedroom units are included in the Program as set forth in the ACC or if the individual will reside in an Independent Group Residence. (See § 882.106 (c)(2)(ii).) Where there are no 0-bedroom units in the program or the applicant will not select an Independent Group Residence, single person households shall be assigned a 1-bedroom unit. An elderly, handicapped or disabled single person household planning to live with an unrelated person essential to his or her care may be assigned a 2-bedroom unit.

(iv) The PHA may request variations of these criteria as a part of its administrative plan on the basis of local codes or market conditions which require the adoption of alternative standards. Variations of these criteria must be specifically approved by the HUD Field Office.

(3) The PHA shall select Families for Certificates in accordance with the provisions of this Part and in accordance with the PHA's application, including any PHA rules for preferences as approved by HUD (see § 882.204 (b)(1)(i)(C)). If the PHA has issued a Certificate to an eligible individual residing in an Independent Group Residence, the PHA shall establish a preference for selecting eligible applicants who have indicated the desire to reside in an Independent Group Residence when a Section 8 recipient in an Independent Group Residence moves. Use of this preference is subject to the availability of funds for appropriately sized units. The Certificate holder given this preference shall select the unit of his or her choice and does not have to reside in the Independent Group Residence in which a vacancy has occurred. Requirements or preferences for those living in the jurisdiction of the PHA at the time of application are permissible subject to the following: No requirement or preference may be based upon the identity or location of the housing which is occupied or proposed to be occupied by the applicant for a Certificate of Family Participation, nor upon the length of time the applicant has resided in the jurisdiction; applicants who are working or who have been notified that they are hired to work in the jurisdiction shall be treated as residents of the jurisdiction. (See also § 882.209(e)(2).)

(4) Every applicant for a Certificate shall complete and sign the form of application prescribed by HUD.

(5) The PHA shall maintain a system to assure that it will be able to honor all outstanding Certificates of Family Participation within its ACC

authorization and that it will comply, to the maximum extent feasible, with the unit distribution in the ACC.

(6) PHA records on applicant and certified Families shall be maintained so as to provide HUD with racial, gender, and ethnic data.

(b) *Issuance of Certificate of Family Participation, and Certificate Holder's Packet.* If an applicant is determined by the PHA to be eligible and is selected for participation, he shall be given a Certificate of Family Participation signed by the PHA. At the same time, the Family shall be given one Certificate Holder's Packet, which shall include:

(1) Request for Lease Approval;  
(2) Required Lease Provisions and Prohibited Lease Provisions (see Appendices I and II);

(3) Information regarding lead based paint poisoning hazards, symptoms and precautions;

(4) The PHA's forms for inspection of housing units.

(5) Fair Housing U.S.A. (HUD-63-EO-(6)), or the Spanish translation thereof (HUD-169-EO-(2)), as appropriate, both issued by the U.S. Department of Housing and Urban Development and the housing discrimination complaint form (HUD-903) or the Spanish translation thereof (HUD-903a);

(6) A list of Secretary-held properties available for rent;

(7) Information concerning Recently Completed Housing, if any, including the locations of such housing and the applicable Fair Market Rents;

(8) Information as to the Gross Family Contribution, the Fair Market Rent appropriate for the Family size and composition, and the benefit of the Rent Credit for rents below the Fair Market Rent or such higher rent as approved by HUD for a unit size or type pursuant to § 882.106(a)(3);

(9) The PHA's schedule of Allowances for Utilities and Other Services; and

(10) Such other items as the PHA may determine should be included.

(c) *Briefing of Certificate Holders.* When a Family initially receives its Certificate of Family Participation, a full explanation of the following shall be provided to assist the Family in finding a suitable unit and to apprise the Family of its responsibilities and the responsibilities of the Owner (this may be done either in group or individual sessions; adequate opportunity shall be provided for Families to raise questions and to discuss the information provided):

(1) Family and Owner responsibilities under the Lease and Contract;

(2) How to find a suitable unit;

(3) The general locations and characteristics of the full range of neighborhoods in which the PHA is able to

execute Contracts and in which units of suitable price and quality may be found.

(4) Applicable housing quality standards;

(5) Significant aspects of the applicable State and local laws;

(6) Significant aspects of Federal, State and local fair housing laws;

(7) Applicable Fair Market Rent, determination of Gross Family Contribution, establishment of housing assistance payments and operation of the Rent Credit; and

(8) That the family may obtain copies of the Housing Quality Standards, the Contract and other pertinent forms or documents, on request.

(d) *Expiration and Extension of Certificate.* (1) The Certificate of Family Participation shall expire at the end of 60 days unless within that time the Family submits a Request for Lease Approval.

(2) If a Certificate expires or is about to expire, a Family may submit the Certificate to the PHA with a request for an extension. The PHA shall review with the Family the efforts it has made to find a suitable dwelling unit and the problems it has encountered and shall determine what advice or assistance might be helpful. If the PHA believes that there is a reasonable possibility that the Family may, with the additional advice or assistance, if any, find a suitable unit, the PHA may grant one or more extensions not to exceed a total of 60 days. Expiration of a Certificate shall not preclude the Family from filing a new application for another certificate.

(e) *Continued Participation When Assisted Family Moves.* (1) If an assisted Family notifies the PHA that it wishes to obtain another Certificate of Family Participation for the purpose of finding another dwelling unit within the area in which the PHA has determined that it is able to enter into Contracts or that it has found another such unit to which it wishes to move, the PHA shall (unless it does not have sufficient ACC authority for continued assistance to the Family) issue another Certificate of process a Request for Lease Approval, as the case may be, unless the PHA determines that the Owner is entitled to payment pursuant to § 882.112 on account of non-payment of rent or other amount owed under the Lease and that the Family has failed to satisfy any such liability.

(2) If an assisted Family wishes to move out of the area in which the PHA has determined that it is able to enter into Contracts and the Family qualifies under paragraph (e)(1) of this section, the Family may obtain housing assistance in the jurisdiction to which it is moving, provided that the Family obtains a Certificate of

Family Participation from the appropriate PHA. The appropriate PHA shall treat the Family either as a Family to whom the PHA is already providing assistance who wishes to move to another unit or as a resident who has submitted an application for assistance. In either case the PHA shall not deny the Family a Certificate on the ground that its Income is above limits for admission in that jurisdiction, and any requirements and preferences of the PHA as to admission are subject to the requirements of § 882.209(a)(3).

(f) *Families Determined by the PHA to be Ineligible.* If an applicant is determined by the PHA to be ineligible on the basis of Income or family composition, or for any other reason, the PHA shall promptly notify the applicant by letter of the determination and the reasons therefor, and the letter shall state that the applicant has the right within a reasonable time (specified in the letter) to request an informal hearing. If, after conducting such an informal hearing, the PHA determines that the applicant is ineligible, it shall so notify the applicant in writing. The procedures of this paragraph do not preclude the applicant from exercising its other rights if it believes it is being discriminated against on the basis of race, color, creed, religion, sex, or national origin. The PHA shall retain for three years a copy of the application, the notification letters, the applicant's response if any, the record of any informal hearing, and a statement of final disposition.

#### § 882.210 Request for lease approval.

(a) *Information to Owners and Requests to PHA for Lease Approval.* (1) The PHA will respond to inquiries from Owners who have been approached by Certificate holders by explaining major program procedures including lease provisions, lease approval procedures, housing quality inspections, Contract provisions and payment procedures and by furnishing copies of the pertinent forms.

(2) When a Family has found a unit it wants and the Owner is willing to lease, the Family shall submit to the PHA a Request for Lease Approval signed by the Owner of the unit and the Family. At the same time, the Family shall submit a copy of the proposed lease, which shall contain all required provisions shown in Appendix I and shall be complete except for execution and entry of the portion of monthly rental which the Family shall be obligated to pay to the Owner.

(b) *Amount of Contract Rent to Owner.* (1) The PHA shall determine whether the requested Contract Rent is approvable in accordance with § 882.106. If the Family is to pay di-

rectly for any of the utilities or services, the PHA shall determine the amount of the Allowance on account thereof. Inasmuch as the Fair Market Rents are established for a geographic area within which the rents for modest Decent, Safe, and Sanitary housing may vary substantially, the PHA shall make an analysis to determine the reasonable rent for the particular unit. If the requested Contract Rent plus any applicable Allowance is at or below the reasonable rent and at or below the Fair Market Rent, it may be approved.

(2) If the otherwise approvable Contract Rent to Owner plus the applicable Allowance, if any, is higher than the applicable Fair Market Rent, and if the PHA determines that such higher rent is justified, it shall take the action required by § 882.106 to have a higher rent approved.

(c) *Amount of Rent Payable by Family to Owner.* The amount of rent payable by the Family to the Owner shall be the amount of the Gross Family Contribution, or the amount of such Contribution less the amount of any Allowance for utilities and other services not to be provided by the Owner. If the Family is entitled to a Rent Credit pursuant to § 882.115, the amount of the rent otherwise payable by the Family to the Owner shall be reduced by the amount of the Credit. If the Gross Family Contribution minus the Rent Credit is less than the Allowance for Utilities and Other Services, the PHA shall pay the difference directly to the Family.

(d) *Decent, Safe, and Sanitary Condition of Unit.*

(1) Before approving a Lease, the PHA shall inspect the unit for compliance with the PHA's housing quality standards as established in accordance with Sec. 882.109, or cause it to be so inspected on the date on which the Owner indicates that the unit will be ready for inspection, or as promptly as possible thereafter.

(2) If there are defects or deficiencies which must be corrected in order for the unit to be Decent, Safe, and Sanitary, the Owner shall be advised by the PHA of the work required to be done. Before a Contract is executed, the unit must be reinspected to ascertain that the necessary work has been performed and that the unit is Decent, Safe, and Sanitary.

(3) A report for every inspection and reinspection under this paragraph (d) shall be prepared and maintained in the files of the PHA. Each such report shall specify (i) any defects or deficiencies which must be corrected in order for the unit to be Decent, Safe, and Sanitary, and (ii) any other defects or deficiencies, a record of which shall be maintained for use in the event of a subsequent claim by the

Owner that they were caused during the period of occupancy by the Family.

(e) *Oversized Units.* Regardless of the unit size stated on the Certificate, no otherwise acceptable unit shall be disapproved on the ground that it is too large for the Family, provided that the rent to Owner plus any Allowance applicable to the actual larger size unit does not exceed the Fair Market Rent, or such higher rent as may previously have been approved by HUD pursuant to § 882.106(a)(3) or (4), for the smaller size unit initially determined appropriate for the Family. Similarly, a unit with fewer bedrooms than the number stated on the Certificate may be approved: *Provided*, That the unit meets the space requirement of § 882.109(c), or such variation as may have been approved by HUD, and the rent to Owner plus any Allowance applicable to the actual smaller size unit does not exceed the Fair Market Rent, or such higher rent as approved by HUD pursuant to § 882.106(a)(3) or (4), for the actual smaller size unit.

(f) *Lease Requirements.* (1) *Term of Lease.* The PHA shall determine that the term of Lease is consistent with Sec. 882.107(b).

(2) *Required Provisions.* The Lease shall contain the required provisions specified in Appendix I. Leases for Independent Group Residences shall also incorporate by reference the supportive services to be provided in accordance with the written Service Agreement between the Owner and the Service Agency and/or other entities providing the necessary supportive services. If the lessor provides the supportive services, a Service Agreement is not required and the provision of these services shall be incorporated into the Lease. This Service Agreement or pertinent Lease provisions shall be approved in writing by the State prior to PHA execution of the Contract. (See §§ 882.102 and 882.109(n)(6).)

(3) *Prohibited Provisions.* The Lease shall not contain any clause which falls within the classifications listed in Appendix II.

(g) *Approval of Lease and Execution of Related Documents.* (1) If the PHA determines that a unit which an Eligible Family wishes to lease is in Decent, Safe, and Sanitary condition, that the rent is approvable, and that the proposed lease complies with the requirements of this part, the PHA shall notify the Owner and the Family of its determination of Lease approval, prepare the Contract, enclose a copy of the lease to be executed and furnish two copies of the Contract to the Owner.

(2) After notification: (i) The Family and the Owner shall execute the Lease and return a copy to the PHA; (ii) The

Owner shall sign and return both copies of the Contract to the PHA; (iii) The PHA shall execute the Contract and return an executed copy to the Owner.

(3) The PHA shall retain in its files the following: The Request for the Lease Approval, the approved Lease, the inspection report(s), the certification pursuant to § 882.106(b) that the rent is reasonable and not in excess of rents currently being charged by the Owner for comparable unassisted units, and the executed Contract.

(h) *Disapproval of lease.* (1) If the PHA determines that the lease cannot be approved for any reason, including the condition of the unit, the PHA shall so notify the Owner and the Family that:

(i) The proposed lease and/or the proposed dwelling unit are/is disapproved, for specified reasons; and that,

(ii) If the conditions requiring disapproval are remedied, and a Request for Lease Approval is resubmitted on or before a specified date, the Lease will be approved if the PHA determines that the conditions have been remedied to its satisfaction;

(2) The Certificate of Family Participation shall not expire before the date specified pursuant to paragraph (h)(1)(ii) of this section.

(3) The PHA shall retain in its files the following: the Request for Lease Approval, the inspection report(s), if any, and the notification of disapproval of the lease.

#### § 882.211 Maintenance, operation and inspections.

(a) *Maintenance and Operation.* The Owner shall provide all the services, maintenance and utilities which he agrees to provide under the Contract, subject to abatement of housing assistance payments or other applicable remedies if he fails to meet these obligations.

(b) *Periodic Inspection.* In addition to the initial inspection provided under § 882.210(d)(1), the PHA will inspect or cause to be inspected each dwelling unit leased to an Eligible Family at least annually and at such other times as may be necessary to assure that the Owner is meeting his obligations to maintain the unit in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The PHA will take into account complaints and any other information coming to its attention in scheduling inspections. All complaints by Families concerning compliance by the Owner with the PHA's housing quality standards shall be retained in the PHA's files for three years.

(c) *Units Not Decent, Safe, and Sanitary.* If the PHA notifies the Owner that he has failed to maintain a dwell-

ing unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the PHA may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments (even if the Family continues in occupancy) and termination of the Contract. If the Family wishes to be rehoused in another dwelling unit with Section 8 assistance and the PHA determines to terminate the Housing Assistance Payments Contract, the PHA shall issue to the Family another Certificate of Family Participation.

**§ 882.212 Reexamination of family income, composition, and extent of exceptional medical or other unusual expenses.**

Reexamination of Family Income, composition, and the extent of medical or other unusual expenses incurred by the Family shall be made by the PHA at least annually (except that such reviews may be made at intervals no longer than two years in the case of elderly families), and appropriate redeterminations shall be made by the PHA of the amount of Gross Family Contribution and the amount of the housing assistance payment, all in accordance with schedules and criteria established by HUD. A Family's eligibility for housing assistance payments shall continue until the amount payable by the Family equals the Gross Rent for the dwelling unit it occupies. However, the termination of eligibility at such point shall not affect the Family's other rights under its Lease nor shall such termination preclude resumption of payments as a result of subsequent changes in income or rents or other relevant circumstances during the term of the Contract. If the Contract terminates at a time when the Family is ineligible for payments the Contract shall not be renewed. In addition, if one year has elapsed since the date of the last housing assistance payment, the Contract shall be terminated (with the consent of the Owner if the Contract does not provide for termination under such circumstances) even if the termination date has not yet been reached. A Family may at any time request a redetermination of its Gross Family Contribution on the basis of changes in Family Income or other relevant circumstances.

**§ 882.213 Overcrowded or under occupied units.**

If the PHA determines that a dwelling unit is not Decent, Safe, and Sanitary by reason of increase in Family size, or the Family is residing in a unit larger than appropriate because of a reduction in Family size and the Gross Rent exceeds the Fair Market Rent

for the unit size appropriate for the Family size, the PHA shall issue the Family a new Certificate and the Family and PHA shall try to find an acceptable unit as soon as possible. If an acceptable unit is found that is available for occupancy by the Family, and the Lease with the first Owner can be terminated in accordance with its terms, the Contract with the first Owner shall be terminated and housing assistance payments shall be made available to the Family for occupancy in the acceptable unit. Housing assistance payments will not be terminated unless the Family's Certificate has expired and the Family rejects without good reason the offer of a unit which the PHA judges to be acceptable.

**§ 882.214 Adjustment of allowance for utilities and other services.**

(a) *Annual Review.* At least annually, the PHA shall determine whether there has been a substantial change in utility rates or other charge of general applicability, and whether an adjustment is required in the Allowance of Utilities and Other Services by reason of such changes or because of errors in the original determination. If the PHA determines that an adjustment should be made, the PHA shall establish a schedule of adjustments taking into account size and type of dwelling units and other pertinent factors and shall furnish HUD with a copy of the adjusted schedule.

(b) *Adjustments in Payments Under Contracts in Effect.* The PHA shall determine the amounts of adjustments to be made in the amount of rent to be paid by affected Families and the amount of housing assistance payments and shall notify the Owners and Families accordingly.

(c) *Effect on Fair Market Rents.* If the PHA finds that utility cost changes are causing substantial difficulties in leasing Decent, Safe and Sanitary housing within the existing Fair Market Rent limitations, the PHA shall furnish appropriate documentation to HUD with a request for consideration of the need for a change in the Fair Market Rents.

**§ 882.215 Eviction.**

The Owner shall not evict any Family unless the Owner complies with the requirements of local law, if any, and of this section. The Owner shall give the Family a written notice of the proposed eviction, stating the grounds and advising the Family that it has 10 days (or such greater number, if any, that may be required by local law) within which to respond to the Owner. The Owner must obtain the PHA's authorization for an eviction; accordingly, a copy of the notice shall be furnished simultaneously to the PHA, and the notice shall also

state that the Family may, within the same period, present its objections to the PHA in writing or in person. The PHA shall forthwith examine the grounds for eviction and shall authorize the eviction unless it finds the grounds to be insufficient under the Lease. The PHA shall notify the Owner and the Family of its determination within 20 days of the date of the notice to the Family, whether or not the Family has presented objections to the PHA. If the Owner has not received a response from the PHA within 20 days, he shall telephone the PHA and shall be informed by the PHA whether a notice of determination has been mailed. If the PHA informs the Owner that no notice has been mailed within the 20 day period, the PHA shall be deemed to have authorized the eviction.

**§ 882.216 Inapplicability of low-rent public housing model lease and grievance procedures.**

Model lease and grievance procedures established by HUD for PHA-owned low-rent public housing are not applicable to the Section 8 Housing Assistance Payments Program under this Part.

**§ 882.217 HUD review of contract compliance.**

HUD will review program operations at such intervals as it deems necessary to ensure that the Owner and the PHA are in full compliance with the terms and conditions of the Contract and the ACC. Equal Opportunity review may be conducted with the scheduled HUD review or at any time deemed appropriate by HUD.

**§ 882.218 PHA reporting requirements. [Reserved]**

**APPENDIX I**

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT, SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM, EXISTING HOUSING

**Required lease provisions**

The Lease between the Owner (Lessor) and the Family (Lessee) shall contain the following provisions:

**ADDENDUM TO LEASE**

The following additional Lease provisions are incorporated in full in the Lease between ——— (Lessor) and ——— (Lessee) for the following dwelling unit: ———. In case of any conflict between these and any other provisions of the Lease, these provisions shall prevail.

- a. The total rent shall be \$ ——— per month.
- b. Of the total rent, \$ ——— shall be payable by the Public Housing Agency (PHA) as housing assistance payments on behalf of the Lessee and \$ ——— shall be payable by the Lessee. These amounts shall be subject to change by reason of changes in the Lessee's family income, family composition, or extent of exceptional medical or other unusual expenses, in accordance with HUD-established

established schedules and criteria; or by reason of adjustment by the PHA of any applicable Allowance for Utilities and Other Services. Any such change shall be effective as of the date stated in a notification to the Lessee.

c. The Lessor shall provide the following utilities: [Specify].

d. The Lessor shall provide maintenance and services as follows:

(1) The Lessor shall maintain the dwelling unit and all equipment provided therewith, as well as common areas, facilities and equipment provided for the use and benefit of the Lessee, in compliance with the Housing Quality Standards on the basis of which this Lease was approved by the Public Housing Agency, and the Lessor shall respond in a reasonable time to calls by the Lessee for services consistent with said obligation. Where applicable (as in case of multi-unit buildings), such maintenance with respect to common areas, facilities and equipment shall include cleaning; maintenance of lighting and equipment; maintenance of grounds, lawns and shrubs; and removal of snow and ice. Where security equipment and services are to be provided by Lessor they are as follows: [Specify, or state "None"].

(2) Extermination services shall be provided by Lessor as conditions may require. If such service it to be provided on a scheduled basis, the schedule is as follows: [Specify, or state "No schedule"].

(3) Repainting shall be provided by Lessor as conditions may require. If such service is to be provided on a scheduled basis, the schedule is as follows: [Specify, or state "No schedule"].

e. The Lessor shall not evict the Lessee unless the Lessor complies with the requirements of local law, if any, and of this provision. The Lessor shall give the Lessee a written notice of the proposed eviction, stating the grounds and advising the Lessee that he has 10 days (or such greater number, if any, that may be required by local law) within which to respond to the Lessor. Because the Lessor must obtain the PHA's authorization for an eviction, a copy of the notice shall be furnished simultaneously to the PHA, and the notice shall also state that the Lessee may, within the same time period, present his objections to the PHA in writing or in person. The PHA shall forthwith examine the grounds for eviction and shall authorize the eviction unless it finds the grounds to be insufficient under the lease. The PHA shall notify the Lessor and the Lessee of its determination within 20 days of the date of

the notice to the Lessee, whether or not the Lessee has presented objections to the PHA. If the Lessor has not received a response from the PHA within 20 days, he shall telephone the PHA and shall be informed by the PHA whether a notice of determination has been mailed. If the PHA informs the Lessor that no notice has been mailed within the 20 day period, the PHA shall be deemed to have authorized the eviction.

f. The Lessor shall not discriminate against the Lessee in the provision of services, or in any other manner, on the grounds of race, color, creed, religion, sex, or national origin.

(g)(1) This Lease shall not become effective unless the PHA has executed a Housing Assistance Payments Contract with the Lessor by the first day of occupancy specified in the Lease.

(2) This Lease shall terminate upon the date of any termination of the Housing Assistance Payments Contract, including any termination due to termination of eligibility of the Lessee. In the event that the PHA determines, after having given the Lessee reasonable notice (with a copy to the Lessor) and opportunity to respond, that the Lessee is ineligible for further housing assistance payments because of failure to comply with the Lessee's obligations under the Certificate of Family Participation, the PHA shall notify the Lessor and the Lessee of such determination. Such determination shall be grounds for termination of this Lease by the Lessor.

**APPENDIX II**

**SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM, EXISTING HOUSING**

**Prohibited lease provisions**

Lease clauses which fall within the classifications listed below shall not be included in any Lease in this program.

1. *Confession of Judgment.* Prior consent by tenant to any lawsuit the landlord may bring against him in connection with the Lease and to a judgment in favor of the landlord.

2. *Distraint for Rent or Other Charges.* Authorization to the landlord to take property of the tenant and hold it as a pledge until the tenant performs any obligation which

the landlord has determined the tenant has failed to perform.

3. *Exculpatory Clause.* Agreement by tenant not to hold the landlord or landlord's agents liable for any acts or omissions whether intentional or negligent on the part of the landlord or the landlord's authorized representative or agents.

4. *Waiver of Legal Notice by Tenant Prior to Actions for Eviction or Money Judgments.* Agreement by tenant that the landlord may institute suit without any notice to the tenant that the suit has been filed.

5. *Waiver of Legal Proceedings.* Authorization to the landlord to evict the tenant or hold or sell the tenant's possessions whenever the landlord determines that a breach or default has occurred, without notice to the tenant or any determination by a court of the rights and liabilities of the parties.

6. *Waiver of Jury Trial.* Authorization to the landlord's lawyer to appear in court for the tenant and to waive the tenant's right to a trial by jury.

7. *Waiver of Right to Appeal Judicial Error in Legal Proceedings.* Authorization to the landlord's lawyer to waive the tenant's right to appeal on the ground of judicial error in any suit or the tenant's right to file a suit in equity to prevent the execution of a judgment.

8. *Tenant Chargeable with Cost of Legal Actions Regardless of Outcome.* Agreement by the tenant to pay attorney's fees or other legal cost whenever the landlord decides to take action against the tenant even though the court finds in favor of the tenant. (Omission of this clause does not mean that the tenant as a party to a lawsuit may not be obligated to pay attorney's fees or other costs if he loses the suit.)

(Section 7(d), Department of HUD Act (42 U.S.C. 3535(d)); section 5(b) of the U.S. Housing Act of 1937 (42 U.S.C. 1437c(b)).)

NOTE.—In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued at Washington, D.C., October 25, 1978.

The FEDERAL REGISTER INDEX is published monthly, quarterly, and annually. This ANNUAL INDEX is based on a consolidation of contents entries appearing in the 1977 issues of the FEDERAL REGISTER together with broad subject references.

A general index to the entire Code of Federal Regulations, the CFR INDEX and finding aids, is revised as of July 1 each year.

Numerical Finding Aids. The LSA, a cumulative list of CFR sections affected, is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

All FEDERAL REGISTER publications are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

This publication was prepared under the editorial direction of Robert E. Lewis assisted by Rose Steinman, with Julie Craine as Chief Editor.

INQUIRIES may be made to the Finding Aids Unit at area code 202—522—5227.

SUGGESTIONS concerning this and other publications of the Office will be welcomed by Fred J. Emery, Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

Administrative regulations:

Manufacturing inspection representatives, designated; evaluation inspections, etc., 18407

Air carriers certification and operations:

Agricultural aircraft; VFR night operations, 62400

Air taxi and commercial operators of small aircraft; air ambulance service, 37825

Air taxi and commercial operators of small aircraft; aircraft cabin ozone contamination; inquiry, 54427

Air taxi and commercial operators of small aircraft; altimeters, three pointer; prohibition; inquiry, 43408

Air taxi and commercial operators of small aircraft; regulatory review, 43490, 56702

Air taxi and commercial operators of small aircraft; temporary authority to operate certain airplanes; withdrawn, 41649

Air travel clubs using large airplanes; altimeters, three pointer; prohibition; inquiry, 43408

Air travel clubs using large airplanes; temporary authority to operate certain airplanes; withdrawn, 41649

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; aircraft cabin ozone contamination; inquiry, 54427

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; altimeters, three pointer; prohibition; inquiry, 43408

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; flammability, smoke, and toxic gas emission standards for compartment interior materials in transport category; inquiry, 36976

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; foreign air transportation

required security measures compensation, 56957

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; line check and use of advanced flight monitoring system, 55900

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; security regulations; carriage of weapons and escorted persons, 42874

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; small and large aircraft reference changes, 43490

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; temporary authority to operate certain airplanes; withdrawn, 41649

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; transport category airplane post crash fuel system; fire and explosion hazard reduction, 21202

Domestic, flag, and supplemental air carriers and commercial operators of large aircraft; operations review program, 37417

Domestic, flag and supplemental air carriers and commercial operators of large aircraft; X-ray devices for carry-on baggage inspection, 17141

Foreign air carriers, operations; x-ray devices for carry-on baggage inspection, 17141

Line check requirements and advanced flight monitoring system, 33345

Air traffic operating and flight rules:

Aircraft cabin ozone contamination; inquiry, 54427

Altimeters, three pointer; prohibition; inquiry, 43408

Canada or Mexico, certain flight plan requirements eliminated, 53632
